

11 MAR 06. Hail Jason! Many thanks for your great letter of 7 MAR 06! Thanks for your new address. Would you agree that "a change is as good as a rest?" I know some geezers who have retired, but now, they discover they must move into another house, in another town. I asked them if they thought moving from one place to another was "as good as a rest." Boy, I'm glad I ducked! When they simmered down, they said "it was a real holocaust!" I guess change does not always equate to rest. We could test that idea by attempting to sleep in a chair, or standing up. A friend of mine who fought on the Eastern Front in WW II told me that he sometimes fell asleep while he was on the march. I managed to catch a few winks on horseback in Colombia, after it got dark, but the saddlehorn was not designed for comfort. The horse knew the way, so I could doze & arrive at the proper destination. Although the area was unfamiliar to me, it was home to my horse, so I could truthfully say that I could get to the farm "with my eyes closed."

No rush on the Hammerskin address, but I'd appreciate it when convenient.

Sorry that your zoggies considered you 'naughty.' I guess you know how to change your residence without a written request! Ha. I hope this change gives you time for reading, at least. The rule is: Don't just serve time; make it serve you! People on the outside do not have time for learning or thinking, as you will find out in due course. Back in the early 1800s, U.S. writer Henry Thoreau observed that "most people lived lives of quiet desperation." Nowadays, I see most people living lives of noisy desperation, accompanied by incessant cellphone calls, while hurrying from one place to another. This can happen when people live far away from everything they need, & everything is in different directions. This situation requires constant driving, under time pressure, so if you want to live desperately, this is just the right formula to do so! I could keep very busy in my own apartment, just by putting things I need in different places. I could keep my typewriter in another room & bring it into this room when I want to use it; then I could put it back into a room where I don't use it. I could keep my toothbrush, soap & razor in different places, & not in the bathroom, so I could run around the place every morning. My advantage in such madness would be that I can rush around from place to place without paying the high price for gasoline! Such a deal. Now, you can imagine how much such a crazy lifestyle costs when one must drive around just to go to & from work & shop. When one has children, more driving is required to get them to all the different places they must go. In addition to fuel costs, there are costs for wear & tear on the vehicle. That's why I have always arranged to live within walking distance from my jobs. I am also within easy walking distance of stores & the post office, by a combination of luck & sound planning. Most people aren't so lucky. One writer said that the invention of the automobile eliminated Americans' need to write grocery lists: if one forgot to pick up a box of paperclips, for instance, all he needed to do was to fire up his 1½ ton vehicle & drive back to the store! I walk, therefore I do write grocery lists if I need more than a few items. But you can understand how energy-dependent U.S. society is. Abundance does tend to produce an overabundance of fatheads, obese ones, at that. I not only enjoy walking, but it gets me where I want to go.

When one bad apple can bring the ZOG down on the whole group, as we see in Usreal, it is known as "collective punishment." We had this in the U.S. Army. Our whole company would be punished for the infraction of a single soldier. It was understood that the repeaters would receive a "blanket party" from the other soldiers. After that, the offender would not repeat his infraction. He was the one who would show up for roll call with all his body hair shaved, limping, & maybe with a black eye to go with the other bruises. A black eye & no eyebrows does look odd, but it passes inspection. Why doesn't the ZOG go after all the members of a Black group, when one member of the group commits a crime? Well, there's "collective guilt" (as ZOG enforces on the Germans) & there's "selective justice" (really injustice, since it is selective). This "justice" was applied to Tom Metzger, as I understand. Although Tom was not involved in the crime, one of the accused had a copy of W.A.R. Morris Dees went after Tom under civil law, not criminal law. This allowed the victim's family to seize all of Tom's property & any money he had or will ever have! The jew father of the jew who was murdered in the O.J. Simpson case is still pursuing every shekel from O.J. Simpson, based on a civil lawsuit for "wrongful death." This is like another murder trial, without the rules of evidence required in a criminal trial!

Now, "guilt by association" is much tighter under the so-called Patriot Act, as I understand, in view of recently-established precedents. "Association" may take the form of an allegedly overheard conversation; logging onto the 'wrong' website; checking out the

'wrong' book from a library, or by having the "wrong" author in one's reading matter. The ZOG & other dictatorships have been known to plant such evidence on the premises of targetted victims of Zion, for decades, if not centuries. The ZOG has been around for a long time, under different names or under no name at all: over 2000 years, ever since money was created & lent at interest. The ZOG's empire has been ubiquitous, iniquitous & largely invisible, since Goyim have been too dumb to see. The ZOG is much bigger now, but very few can see it. Imagine if people would wake up in prison, but not know they were in prison! That's how it is in reality. Interest (usury) is The One Ring to Rule Them All, & in The Darkness Bind Them. I ask people to give me the one word which says that. They think or appear to think, & they give up. I answer the question by telling them the one word which says it all: Credit! You see, credit is just another way of saying debt, so extending credit means increasing debt, which means slavery, in exchange for goods & services purchased with debt-based, or lent, money. It's an old racket, but few seem to catch on.

"Foreign Affairs" is a publication, usually in booklet form, from The Council on Foreign Relations. It is therefore the official publication of the Rothschilds, Rockefellers & other ZOG-chiefs. I cannot therefore send you a copy, for I understand that only book-dealers & publishers can send you books & publications. My deportation from the USA-USSR resulted, in part, by an article I wrote for "The Journal of Contemporary Revolutions" criticizing an article which appeared in "Foreign Affairs." That article seems to be the reason I was barred from visiting any Soviet Bloc country, including Cuba (if I ever wanted to visit Cuba!). My research findings in Peru displeased the USA-USSR ZOG so much that they stole my doctoral dissertation material, which merely served to confirm my tentative findings on The Kosher Capitalist Communist Nexus, which I'd tripped over in Peru. I began to suspect this when I learned of Communist-CIA collaboration in the death of the Latin American "Trotsky", Che Guevara in 1967, if I recall the year correctly. When the U.S. CIA & the Moscow line Commies collaborate in snuffing out a Latin American Red Revolution, it clearly shows a major USA-USSR partnership, not a rivalry! I therefore wondered what more they might be working on, together, for their mutual benefit. The bankster connection put the final piece in the puzzle, & also put me on the outs with the Jewnited States of ZOG. I can write this, I think, because the Orwellian Cold War Racket is over, the zoglings I offended are dead, & we have a different kosher racket, a more desperate one, in The Middle East. North America is being handed to China & Mexico, while the USA heads for exhaustion, collapse & disintegration, even more than it is now. News sources indicate that Israel will attack Iran this month, so we could see World War III begin, & my bets are not on the USA. Of course, other things can happen, such as a coup d'etat, or military takeover of the U.S. government. This would not be the first coup d'etat in U.S. history, since we've had them every time a U.S. president is assassinated. We sure live in exciting times! I'll let you know if I find a copy of "Foreign Affairs". I understand that the latest issue features a Pentagonian zogling who was interviewed on NPR jewsradio. In effect, his thesis is that the USA's position in The Middle East is rapidly going downhill, since we invaded & occupied Iraq, as well as Afghanistan. This latter country has a remarkable history, for its invaders have never conquered the territory. They have always conked out. It happened to the USSR, so the USA will be next. They have lots of time & we do not. The importance of the "Foreign Affairs" article is that it may indicate a change in our real rulers' policy. So far, Bush has served as puppet in fronting for ZOG's current policies, but when changes occur, ZOG may dump no longer useful puppets in the trashbin of history. Rumors are that Bush & Company may not serve out the remainder of their terms of office. It would be hard to see what advantage ZOG would obtain from dumping the Bush Gang prematurely, but desperate situations dictate desperate methods, & ZOG's U.S. department seems in pretty desperate shape, from what I gather. Others see it as I do, & I hate to be right! It happened to Lincoln & JFK, when they had outlived their usefulness, so it could happen again. I believe Orwell observed: Party members can be wrong, but the Party is always 'right'! All ZOG's frontmen are expendable, for the ZOG can get what it wants & dump its servants whom it can blame via the jewsmedia, for causing things to get 'too hot'. The sheeple fall for that scam every time, so far.

Only work with people you can trust, & remember, if you ingest drugs &/or alcohol, you can't trust yourself! If we destroy ourselves, we don't need the ZOG to destroy us, just as you say. We exist to serve the interests of our people, so before we do or not do anything, we must always ask ourselves: "Is this good for Whites?" If the answer is "No!" we must think again & do it right. All the best & ORION!

*Eric*
