

9 APR 06. Dear Omnicompetent Super-Mack: It's all quiet tonight on the Western Front, aside from two rifle shots in the barrio-bandido. Yesterday, around 2:00 p.m., I heard the AK-47 in the barrio again after a 3-day lull: TAT-TAT! on full auto, which is faster than a trigger finger could do it on semi-auto, just as I heard 3 days ago. I recognize the sound of AK-47 fire from Africa, & other residents in my building recognize it from Vietnam. The last time we heard the AK, one vet was in a position to spot the location of the shooter, so he called the cops. No reports on that matter, as yet. The Mexican invaders showed off their numbers about 4 days ago, when they demonstrated in the park across from the U.S. Immigration Service, whatever it is now called. That's one block north of where I live. The mestizo mob then used my street for their parade route through Yakima to another meeting site, The Martin Luther King Hall of Infamy or some such. It was indeed a great number which passed my window on foot & in vehicles, so it is obvious that the USA has been & is being invaded without let up, while the ZOG does nothing to guard its borders. Now, it can no longer exercise its sovereignty within U.S. borders, as one writer predicted in Chittum's "Civil War Two." Some local sheeple express their dismay & anger at the arrogance of these alien invaders, whom the Gringo fatcat felons hire. The low-paying jobs are the honey & the Mexicans are the flies which swarm to it. The real losers are the tax-payers who 'must' provide each Mexican worker's many dependents with welfare, schooling, medical care, subsidized housing, &c. As I try to point out to the dumb Goyim: Whites must pay to multiply, but non-Whites are paid to multiply, by the White tax-payers. This is genocide, pure & simple. The jews are proudly supporting the alien invasion. American Jewish World Service advertises on NPR jewsradio how they are helping Somalians & Darfurians to settle in the USA. The download on jewish support for "immigrants' rights" refers, but the jews are only trying to catch up with the Christian churches, which behave as described in "Camp of the Saints."

The precedent-setting Padilla Case appears to have abolished the U.S. Bill of Rights de jure, as well as de facto, since the U.S. Supreme Court has refused to hear it! This means that a U.S. citizen may be abducted, detained, perhaps tortured, indefinitely, without being charged, nor brought to trial. Obviously, habeas corpus is abolished. As far as I know from the jewsmedia, Padilla is alleged to have discussed, in some manner, "dirty bombs." These are explosive devices which combine conventional explosives with nuclear waste, so as to contaminate an area with radioactivity, when detonated. All of this is hearsay, at present. Two questions remain unanswered: (1) Did Padilla want to set off a dirty bomb? (2) Did he have any means to do it? The ZOG says nothing, but they keep Padilla locked up, illegally. Such mistreatment of U.S. citizens was the very thing which Bush promised never to do. We could abuse others with incarceration & torture, without trial, but not U.S. citizens! Well, some U.S. citizens may be "more equal" than others.

Meanwhile, jews can blaspheme against Mohammed, Jesus & Allah, but woe be unto those who question the Holy Holohoax! How's that for hypocrisy? I note that Irving's thoughtcrime trial did not take into consideration what Irving currently thinks about the "gas-libel" against the German people. It is remarkable that a prosecution for thoughtcrime does not consider what the thought-criminal thinks! In other words, a thought-criminal is not able to alter his sentence by changing his mind. I guess that will also apply to E.Z., of whom much has been written, without anyone asking him about the views alleged to be his. This is scapegoating, not jurisprudence. If Ernst can be so charged, tried & punished, based on allegations about what he thinks & what he believes, it would seem lawful, only if Ernst, himself, were asked about his thoughts, relevant to the thoughtcrimes for which he stands charged! As I understand, E.Z. is being tried in camera, & the press is banned &/or gagged by the jew judge. That sounds like the nasty old Inquisition. Now that torture is acceptable, are they using the rack & the iron maiden, thumb-screws, &c.? But even if Ernst recants, it will do him no good, if the Irving precedent applies.

According to a New Zealand writer & researcher, Israel is very cozy with China, very cozy! Their invasion of North America proceeds apace.

I hope you & your Mom are well, & that both of you are staying out of gang-related activities, as we say in Brownest Yakima. All the best, as always.

P.S.: Since my unplanned retirement, I've never been so well off as I am now. I know it's a challenge, but I shall face it with courage & resolve. After all, someone's got to do it, & no one can retire for me!

Eric

2) P.P.S.: You remember the statue in Osgood Hall, beneath the big Death Star, or hexagram, with Queen Victoria's V.R. in the center. The inscription was something like: "We gave our present for your tomorrow." As we know, when Freemasons & Cabalists (there's a difference?) publish statements, one meaning is intended for the Goyim & the other (s) is intended for the 'adepts' of the 'craft' & their jew masters. Whose interpretation one chooses depends upon who one is. A Goy will take one meaning, while jews & jew-slaves will take the words to mean that which accords with their agenda. It is like the mottos on The Great Seal of the United States, which 33° Freemason, FDR, had put on the back of the \$1 bill: "ANNUIT COEPTIS" (He approves our work.) Goyim believe it means "God," but Freemasons know it means Satan. "God" is a generic term, in accordance with the Noahide Laws which jews intend to impose on all Goyim. Goyim may think that "God" means "Jesus," but the jews know it means "Yahweh." Eisenhower had "In God We Trust" added to the back of the dollar bill during his administration. As we know, in Cabalism, "all things must be made manifest" to the intended victims (Goyim), so nothing could be more manifest than propaganda which appears on a \$1 bill, which all see & handle. Of course, Cabalists strive to resemble Satan, whom they serve, alias Yahweh, so they are not without a lawyer's sense of humor. I could, for example, post a big sign at the entrance to a slaughterhouse, so it would be manifest to all the cattle being herded in, but we know that cattle don't read. A Goy watching the cattle enter the Door of Death might believe that the cattle were heeding the sign, & that they all wanted to die, a.s.a.p. When a Cabalist sees the "Great Seal", he knows exactly what it means for his agenda, but when a Goy sees it, the meaning is only considered as a decoration, much as the cattle might think the sign which says "SLAUGHTERHOUSE" is just a decoration on the structure. Regardless of what they may think, the message has been made manifest, so the Cabalistic rules are in force. Cabalists must advertise their intentions, according to their rules. We who will not or cannot take heed of such messages are thereby accomplices in our own victimization. Imagine a trial in which the stabbing victim admitted that he gave the perpetrator the knife, after the intended stabber said that he wanted to stab the victim! No stabbing could have occurred without the participation of the victim. It would be interesting to find out what a court would rule in such a case, for this is what goes on whenever Cabalists are involved: the willing participation of the victims in their own injury. Would the judge rule a case of insanity? Those who decreed the inscription on the statue in Osgood Hall knew the real meaning, as confirmed by history: "You will give up your today, so we can enjoy our tomorrow at your expense, & the expense of your children, should you survive to have any." In Jewish mythology, their messiah, whom some call "the anti-Christ" or "Satan," will ride to Jerusalem on a donkey. Jew cabalists of the Hassidim claim that the "donkey" is the 'secular jews' who will do the fighting necessary to get their 'messiah' into Jerusalem. Such nice fellows, these Hassidim! If they are comfortable in the exploitation of their own people, think how much more comfortable they are in sacrificing non-jews toward their objectives! But what can we say when the sacrificial victims are so willing to do themselves in, as the generations who fought World Wars I & II? Historians have 'explained' that they fought for illusions, misconceptions, greed & other motives. One of my uncles tried to get into the U.S. Army before Pearl Harbor so he could work & eat, not because he wanted to fight or kill anyone. His motives were no different from millions of other jobless men who were victims of the jew-banksters' Great Depression. I might have done the same thing as a hungry, bored youth, & official propaganda to the effect that I was performing a "patriotic duty," that I was a "hero," &c. would have added to my enthusiasm, even if I knew such words were lies, for I'd have known nothing different. Had there been someone like me to tell them the truth, a real prophet or seer into the future, I might have chosen to ignore him in favor of my immediate gratification. War is one antidote for a personal sense of worthlessness, boredom, hunger, &c. To resist the war, I would need to know at least one other person who believed, with reason, that the war was unjust, unpatriotic & a crime against my people (whoever they might be). But an impoverished, atomized individual like my uncle would have found his 'community' in war, not as a poor White surrounded by drunken Indians in Gallup, New Mexico. He was sent to Britain as a bomber mechanic in the U.S. Army Air Force. His wartime experiences were the high point of his entire life, although he rarely mentioned it, after his RETURN to Gallup! In his 3-room shack, it looked as if he'd just been de-mobbed, for he still used his G.I. dufflebag & shaving kit decades after 1945. Well, we Scots never throw things away.

What a beautiful day it is for a walk, & I hope your weather is likewise pleasant. Boy, this retirement is a real 'holocaust', with time to do whatever I like, including nothing at all. I must begin to store up hate for the winter, for it keeps me warm in my unheated residence. Hoot mon!
