

Hot spots for growth

Minorities are moving to areas with high job growth, fueling ethnic and racial diversity. Story, 1A.

Percentage change 2000-04 in metropolitan areas with the fastest-growing populations of Hispanics, blacks and Asians:

Hispanics

Cape Coral-Fort Myers, Fla.	55.4%
Charlotte-Gastonia, N.C.-Concord, S.C.	49.8 %
Raleigh-Cary, N.C.	46.7%
Nashville-Davidson-Murfreesboro, Tenn.	44.9%
Indianapolis	44.3%
Atlanta-Sandy Springs-Marietta, Ga.	41%
Naples-Marco Island, Fla.	38.7%
Lakeland, Fla.	38.3%
Sarasota-Bradenton-Venice, Fla.	38%
Las Vegas-Paradise, Nev.	35.1%

Blacks

Las Vegas-Paradise, Nev.	22.7%
Phoenix-Mesa-Scottsdale, Ariz.	19.2%
Orlando	18.4%
Minneapolis-St. Paul-Bloomington, Minn.-Wis.	16.2%
Raleigh-Cary, N.C.	15.2%
Atlanta-Sandy Springs-Marietta, Ga.	15%
Providence, R.I.-New Bedford-Fall River, Mass.	14.4%
Riverside-San Bernardino-Ontario, Calif.	14.3%
Tampa-St. Petersburg-Clearwater, Fla.	14%
Charlotte-Gastonia, N.C.-Concord, S.C.	13.7%

Asians

Las Vegas-Paradise, Nev.	38.5%
Riverside-San Bernardino-Ontario, Calif.	31.1%
Orlando	30.2%
Atlanta-Sandy Springs-Marietta, Ga.	28.5%
Stockton, Calif.	28.4%
Tampa-St. Petersburg-Clearwater, Fla.	28.4%
Austin-Round Rock, Texas	28.2%
Phoenix-Mesa-Scottsdale, Ariz.	27%
Sacramento-Arden-Arcade-Roseville, Calif.	25.6%
Dallas-Fort Worth-Arlington, Texas	24.8%

13 APR 06. Dear Phil: Many thanks, indeed, for your cogent encapsulation of our commercial catastrophes which combine with our demographic dementia & our system of political prostitution. I marvel that this combination of stupidity, cupidity & kosher corruption is still capable of bringing food to our tables & light to our dwellings, amid the increasing Babel of diverging interests, which are appropriate to an increasingly 'diverse' society. How long can a center hold, when all are pulling in their own directions, with the biggest pull on behalf of Israel? The bottom line is, of course, the bottom line: Is this society putting more cookies into our economic jar than it is taking out? Not from the standpoints of our trade & government deficits, which indicate that we are living on borrowed money; actually it is stolen money, stolen from future generations of tax-slaves. In effect, we have sold our children into slavery & Turd World poverty. How can such bipeds be worthy of anything other than the fate they so willingly brought upon themselves? The pathetic whining of the labor union writer about the dangers & disadvantages of ZOG's globalism ignore^s the fact that his labor union leadership approved NAFTA & free trade, instead of protecting U.S. workers' jobs. As Hitler wrote in his "Secret Book," Aryan technology will go to China for the enrichment of a few parasitic (stock) coupon-clippers & the Aryans will be jobless. He could foresee the designs of judeo-capitalism's anti-White bias back in 1928, when the Allies say his "Secret Book" was written. When I went broke, because I was jobless, I had to sell such rare books, mainly to prevent them from being trashed if I were evicted. When I got a job & tried to buy them back, they were gone. Poverty & air travel are the foremost enemies of personal libraries, almost as bad as are one's heirs, who usually trash rare & vital book collections, as I gather from my own experience. As I learned from correspondents, Savitri Devi stored many of her books & manuscripts with friends in France, who died. Their heirs were Communists, so they righteously burned the entire collection. Aryans hate continuity, & jews love it. But enough trivia.

Our political prostitutes, under jew management, are doing all sorts of flips & tricks to attract Chinese money, which is really our own jew-I.O.U.s representing the debt which we owe to China. Now that we have become victims of our own de-industrialization policies, we go begging to the Chinese for "jobs!" We want Chinese auto manufacturers to set up factories in the USA which will hire U.S. labor. Aside from a few tokens in that direction, which will be ballyhooed by the jewsmedia, it is not in China's interests to use any labor than Chinese. China does not need any U.S. manufactures, since we gave them our latest industrial technology, thereby allowing our remaining industrial base to become obsolete, along with the unionized labor force. China needs nothing from us, except our land, raw materials & agriculture, which they can takeover for themselves as they continue to invade & occupy our former living space. The semi-asiatic 'hispanics' are the vanguard of an immense Asian invasion of North America, just as the jews intended, for their Modus Operandi has been always to betray their host peoples to their enemies. Amerizombies think that North America is so huge, it can accommodate all comers, without adversely affecting the whole. China alone could easily populate the entire continent, without any help. China's land area is approximately 25% greater than that of the USA, but all land is not equal. Most of China's land is not suitable for agriculture, & is growing less suitable because of the 3 "O's": Over-population, Over-grazing & Over-logging. From what I learned from recent visitors to China, this land-abuse has caused the Gobi Desert to enter the outskirts of Beijing. When they arrived they encountered a sand storm, but the people were happy, because the wind which brought in the sand also removed the terrible pollution from the air, which normally cloaks Chinese cities. This pollution is carried & distributed around the world, so everyone gets a share of Chinese production, for free! Such a deal!

Can anyone doubt that such political, economic & demographic trends will not & cannot continue? When borders become irrelevant, so do the people within those borders.

All the best. DOWZ! & ORION!

Eid
