Olympia, WA 98504-2495

Dear Sir:

A White victim of your Victim Awareness Education Program at WSP Walla Walla has informed me of the course content and direction of the indoctrination, which I understand is in prima facie violation of the Genocide Convention ratified by the U.S. Congress and signed into law on the federal level of government. My 1977 article refers, and I also invite you to study The Treaty as it has been ratified by The U.S. Congress, to confirm my report thereon.

My overview of the above is that an identifiable group, i.e. Whites, has been targeted for blame by non-Whites by originators of the Program. Blaming ostensible Whites for America's misfortunes directs hatred at the target group and serves to excuse other identifiable groups for their own deficiencies and responsibilities. This is as negative a self-image for non-Whites as was Kipling's colonialist concept of The White Man's Burden, as I can speak with experience, as a former colonial civil servant in Africa. The Whites have been blamed when they were there, for all the Blacks' misfortunes, and they are now blamed for NOT being there! You may be aware that blaming others for one's own misfortunes and for one's wellbeing is no proper way of coping with one's own situation, ever, if we are to achieve adulthood.

There are interesting federal anomalies concerning "the White race": Jews are deemed "White" or not, as they choose. Mestizos (Eurasians) are deemed as "White" on federal wanted posters, with an additional qualification as "Hispanics," which is a linguistic term, having nothing to do with biology. Jew pundits like "Ashley Montagu" alias Israel Ehrenberg, and Dr. Noel Ignatiev claim that there is no "White race," but merely a "social convention" based on exploitation. This thesis would mean that Black slaveowners of the antebellum South would be "White," as would present day Black slaveowners in Africa! The Thomsons were brought to America as slaves before the Blacks were brought here in chains, if you care to check that out on the Internet. We did not thereby become "Black."

Well, there many points for discussion in regard to "race," but the issue I invite you to address is the fact that the Victim Awareness course, as has been taught, clearly violates the letter of the law, in terms of The Genocide Convention. I therefore look forward to your reply in this matter. As we used to sign off in the British Colonial Civil Service,

Yours faithfully,

  
Eric Thomson
