Subject: USS Liberty

Of course the attack was deliberate. The point is that the attack was designed by Johnson and his Zionist handlers. The Liberty was sent to Gaza to be sunk. This is even hinted in Ennis' book. Ennis kicked me off the USS Liberty forum in 1997 for pointing this out.

Who can doubt this after learning of not only the cover-up but the actions of Johnson during the attack? He was quoted by a UPI reporter in the war room as saying, "I'd rather they sink the goddamned thing than go against our friends."

The Liberty was deliberately placed in the hot war zone with no protection so that she could be sunk quietly with no witnesses and the massacre blamed on the Egyptians, who could then be attacked not only by Israel but by the US on behalf of Israel.

Israel would have the green light to attack in all directions with the full support of an enraged American people. If the Liberty had been sunk we can bet the Zionist propaganda mills would have exploded with the news of Egyptian treachery. But with the combined efforts of the Israeli air force and navy failing to sink this unarmed tub, the mills were silent, the atrocity was classified and the Liberty personnel threatened with prison for talking about the attack.

A cover-up of this magnitude was meant to protect the treacherous American Zionists who planned this war crime - not so much the Israeli butchers. How could Johnson's orders to allow the ship to be sunk possibly be justified in an investigation? Ordering jet fighters recalled twice while the attack was ongoing? Johnson and McNamara could have been hanged for treason. It's not too late for McNamara.

People, especially the Liberty survivors, do not understand the catastrophic setback for Israel that this botched massacre represented. If the American people could have been told that Egypt sank the Liberty, Erez (Greater) Israel would have been a reality by 1970. That was the whole idea behind sending the USS Liberty to her fate off Gaza. Zionist rule would have stretched from the Nile to the Euphrates with the full support of the bamboozled American public.

Is there a statute of limitations for treason?

U.S. men and women casualties — many, because of our remarkable vest and helmet protection, multiple amputees and quadruplegics. . . . More than 24,000 Iraqi civilians killed. . . .

Citizens of America, we must speak now to stop this flood of grief and destruction. No more families like the Acklin family. Call or write your senators and your President. Learn everything you can before you vote. Your son, daughter, grandchild or friend's life may depend on it.

... 'Sent him to his death'

Your series on Sgt. Michael Acklin was heart breaking, yet let us know how brave he was.

His mom's question, "Why, God?" is a simple one for me and many others in this country and the world to answer. It is because President Bush sadly and needlessly sent him to his death.

Barbara Bush's comments

Regarding Betty Winston Bay's reply to Barbara Bush in her Sept. 15 column:

Bravo, Betty! Only I think I

understand why her son, President Bush, is the man he is today when I read the comments his mother made quite a while back regarding this immoral Iraq war. She was quoted as saying, "Why should we hear about body bags and deaths? It's not relevant. So why should I waste my beautiful mind on something like that?"

A comedian got it right recently when he said, "The moron never falls far from the tree."

Glory or enrichment?

The proposal to build the downtown arena, which will accommodate the University of Louisville basketball program, is gathering momentum. Our Mayor has promised a third of the construction cost.

It is noteworthy that a hard-headed Louisville businessman, John Schnatter, has said all arenas "are losers."

I wonder if the business people of Louisville and the community are willing to commit \$390 million to programs for chemical and civil engineering, theoretical physics, and mathematics and advanced medical research, which would enrich the

16 JUNE 06. Dear Tom! Many thanks for your most welcome letter of June 10th. I was afraid that you'd shuffled off this mortal coil, as have a couple of my correspondents. Other suddenly vanishing correspondents are whisked off to one Zoglandia or other, where they are confined incognito or so restricted in their access to the outside world that they may as well be. It reminds me of the Hebrewood movie, "Conspiracy Theory," in which Mel Gibson's paranoid pen-pals all seem to be dead or otherwise departed. As the movie began, I was prone to dismiss it as a kosher put-down of ZOG dissidents, but when I heard "MK-Ultra," my ears pricked up, since that was a real CIA program, conducted by a real jew proponent thereof, involving Dr. Cameron of the Canadian 'mental health' establishment, who conducted 'reprogramming' & 'psychic-driving' of unsuspecting patients. When the program was concluded, Dr. Cameron died in a "skiing accident." Only after some victims of MK-Ultra demanded restitution in Canada did the story come out, thanks to the U.S. Freedom of Information Act! The mysterious, LSD-related death of CIA agent Olson remains unsolved, according to my information, & his family would surely like to know what he died of & how, not to mention why. His former jew boss "has nothing to say," as I understand.

The Iraq Morass will not improve from the death of one "terrorist" leader, as you noted. FEDZOGUSA is grasping at propaganda straws, hoping that the public are dumb enough to think that Al What's-his-name is any sort of 'victory'. Former National Security Agency chief, General Odom, states that the USA was defeated, merely by going into Iraq in the first place. This is what I wrote BEFORE the U.S. went into Iraq, to topple its puppet, Saddam. "When you occupy, you will begin to die, & you will continue to die until you wise up & get out." Getting into trouble is easy, as most kids can tell you. Bush doesn't know that, or does not care. As his mom said, they should not bother their "beautiful minds" about the incoming U.S. coffins & badly-wounded. Bush reminds me of another alcoholic, Winston Churchill, who urged others to be 'tough' & to make every "nesheshary shacrifishe."

Since Iraq was on Israel's hitlist, according to former Mossadnik, Victor Ostrovsky, Bush's orders were to render Iraq as chaotic & as dysfunctional as Israel rendered Lebanon by its invasion thereof in 1982, if I recall correctly. Now that Israel's objective in Iraq has been achieved, its U.S. puppets have no business being there. As Odom admits, U.S. invasion of Iraq was NOT in any U.S. interest, but he does not mention Israeli interests. In your references to Roman politics, I have an acute sense that our ZOG is diligently courting the fate of decadent Rome, on the double, so the USA's time is just about up. Then we will see World ZOG's intentions under their Jew World Ordure. Our kosher chickens are coming home to roost, & they will crap all over us, just as we deserve! My faint hope is that the jews will also get their fair share of calamity, which they have instigated. Certainly, the hebes have had no better host people than the two-legged cattle of North America, but it is in jewish nature to kill those who feed them, & then move onto new hosts. I wonder if the Chinese will fall for their sheenie scams, after they sell out what's left of North America, just as they are doing. Canada's latest census reports that Mandarin is now Canada's second language, no longer French, & Chinese are taking over (gasp!) jewsmedia outlets, including newspapers & TV stations, as announced in The Toronto Sun & The Toronto Star. We are sure in for "exciting times," to paraphrase the ancient Chinese curse: "May you live in interesting times." That was told to me by a college professor in his lecture to the newly-arrived freshmen in 1956. He told us that we were "lucky people," for we should never be bored in our lifetimes, which will be "very interesting." He was right. Although I have enjoyed a relatively quiet life, I have never been bored!

If we consider the jew-incursion into Lebanon as a model for USA's likely behavior in Iraq, we can foresee an eventual "cut & run," leaving ostensible allies in the lurch, as the hebes did when they quickly abandoned southern Lebanon & their Christian allies. Lebanon became a terrorist paradise, which only the Syrian occupation seemed to damp down. Will Turkey play the Syrian role in a dysfunctional Iraq? I don't think so, for the Kurds want their own nationstate & the Shi-ite majority are IRANIANS! The Sunnis are Arabs, & the Turks are not. My idea would be to break up Iraq, which was never a nation, but a territory carved out of The Turkish Empire by the British under The Sykes-Picot Agreement after WW I. The Iraqi Arabs could join up with the Jordanian Arabs, the Shi-ites with their fellow Iranians, & the Kurds would at last gain their own nationstate. Oil revenues could be divided amongst the former Iraqis for mutual benefit, to keep the oil revenues flowing, once all sides have become sufficiently exhausted & bled in their internecine strife. An old boxer said that we never learn anything until we get tired. All the best, as always. DOWZ! & ORION!
