

20 JUNE 06. Hail John! Many thanks for your two letters of June 14<sup>th</sup> & 15<sup>th</sup>, plus the two fine poems, which I shall forward to Fidelitas, who published your poem about "The Warrior." I've received nothing from them for awhile, so I figure they may be relocating. I'll wait until I hear from them.

The Palestinians suffered Khazar jew invasion & occupation in 1948. Since then, they've lived in a jewish concentration camp for Arabs: Zionist Occupied Palestine. A "Palestinian state" is likely to have no more sovereignty (self-rule) than the inmates of any other ZOG-gulag. They are prisoners in their own land, & the jews are doing everything they can to make Palestinians extinct, so they can take over all of Palestine for "Greater Israel." I have been told by jewish sources that the two blue lines at the top & bottom of the Israeli flag represent the eventual borders of "Greater Israel": The Tigris-Euphrates River in Iraq & the Nile in Egypt! But first, the jews must eliminate all those non-jews. That's the Zionist Plan, as I understand.

As far as I know, the Swastika is an ancient holy symbol, pre-dating Judaism, which has long been associated with Aryans, as is the Swastika used throughout India. American Indians used it to signify good luck, with the additional meaning of honor, which is how it was used in the USA. I understand that it was used by Alexander the Great, who brought the symbol to the farthest extent of his conquests, practically to China. Indian merchant ships usually have a big Swastika painted on their bows, for good luck & prosperous voyages. When I was in Canada, an Indian ship collided with a bridge over the St. Lawrence River. One publication asked if Nazis had attacked the bridge with their "Death Ship," but newspapers explained it was not a "Nazi" vessel, but was Indian! Oy veh! They gave some lame reasons why Indians put Swastikas on their ships, which did not sound very convincing. Some brainwashed sheeple suspected that the jewsmedia were trying to cover up a "Nazi" attack on the bridge. We can thank the jews for associating the ancient Swastika with the Third Reich, which was pro-White. No other symbol stands for The White Race, as does the Swastika. That's why the jews hate it, as they do Our Race.

Jews like to claim that many members of their families were 'gassed' or otherwise killed in World War II, by the Germans & their allies. One of them was on the witness stand in Toronto, during The Great Holohoax Trials. When he claimed, under oath, that "50 members of his family were gassed by the Nazis," our defence attorney, Doug Christie, politely asked the jew how he knew that 50 members of his family had perished. "We were a very close family," he declared. Christie asked him to name them, if they were "such a close family." The jew stammered & stuttered. As I recall, he managed to name 3 family members, but two of them were still alive! Not one more name of his "close family members" who had been "gassed," could he remember or even invent. Christie said, "Thank you." Devout jews recite the Kol Nidre prayer every year, in which they declare that "all vows, oaths & promises" they shall make in the coming year are of no force nor effect, & are hereby nullified, as if the jew had not made them. This would also include their U.S. Pledge of Allegiance. People recognized as jews by Israel automatically have Israeli citizenship, so we are entitled to ask, to which country are jews loyal, at any particular moment? My jewish colleague, Josef Ginsburg, was a devout anti-Zionist. He referred to the founders of Israel as "Zion-nazis," which they were! He testified in court that jews don't need to tell the truth, unless all Christian symbols are removed from the room, & a rabbi administers an anti-anti oath oath to the jew who has recited the Kol Nidre. Ginsburg said all the Holohoax lies would then become 99% silence. Oy veh!

The Anti-Zionist Alliance has supporters & activists who network worldwide. My Mexican contact group has been La Voz de Aztlan, who are anti-White Mexican nationalists. They advocated a diamond boycott, & I told them about the kosher tax on food & food-related items. I have received no further word from them. The danger for Mexicans & for Whites is that Mexicans think jews are "White," so all Whites are 'guilty' of jew-scams & exploitation. Whites are also jew-victims, like Mexicans, who have THEIR jew masters in their government & banking system. The jews & Freemasons established the USA, just as they did all the "independent" Latin American countries, including Mexico. A Mexican lawyer who was a member of the PRI, the Mexican party in power at the time, said that "you can't get anywhere in Mexican politics, unless you are a Freemason." The same holds true throughout Latin America. The Mother Lodge of world Freemasonry is in the City of London, England, along with The Bank of England: all kosher! If it still exists, Mexicans should look up La Voz de Aztlan on the Internet, when they get out. Mexicans need to learn that they need not see mobs of jews in the streets to know when jews are in control, just as it takes workers to make a car, but the driver decides where the car will go!

2) The question for all of us to ask is not who's in the street, but who's in the driver's seat? Maybe the Mexicans must discover their own jews in their own way, if ever, since few Mexicans can spot their own jews, from my experience.

I enclose the text for "The Hitler We Loved & Why." I don't have any copy of the book, which was largely pictures arranged to tell a story. I arranged the pictures & wrote the text, which is composed of captions for the pictures.

I have not read "The Serpent's Walk," nor "The Odessa File." To my knowledge, some SS members survived, but I do not know how much of the organization survived, nor in what form. Jews like to write such stories to scare other jews & to make money off the Goyim, whether or not there is any truth to these tales. If one's mind is informed, & his beliefs are NS, then he has no need for formal organizations, H.Q. buildings & P.O. Boxes. Such political soldiers are versatile, but loyal to their principles, upon which they act, no matter who they are with, & no matter where they are. Politics is "the art of the possible."

The SS hymn, as I recall says, "when brothers are silent, we shall remain true (loyal)." The SS slogan was "Unser Ehre heisst treu!" (Our Honor is Our Loyalty.) As I understand, "The Silent Brotherhood" originated from the SS hymn, & was another name for Bob Mathews' group, known as The Order. I don't know of any group called "The Lone Wolf." Maybe you mean the "Werewolves," which was a short-lived German resistance organization in Allied occupied Germany. White-hater Eisenhower put up posters announcing that, for every Allied soldier wounded or killed by the German resistance, 200 Germans would be shot. That quickly snuffed the Werewolves, as I understand.

Hitler states his reasons for adopting the Swastika as the centerpiece for the new German flag, which he, himself, drew up. Black, white & red were the colors of the German Reich, rather than the black, yellow, red of the German-jewish "republic" of Weimar & the present Zionist Occupation Government of Germany (The German Federal Republic). Hitler wrote in "Mein Kampf" his reasons for using lots of red in his flag: to stir up the Communists, which it did.

As I understand, the Swastika was a sun-symbol, representing the 4 sunsteads or seasons. The Celtic Cross is the same representation, also known as the sun-wheel. Ancient Aryans, & other peoples recognized the sun as the source of all life, so it held a place of highest honor in their religions. Great temples, which were actually observatories, studied the relation of earth to sun so priests could predict the correct times for planting & harvesting. Knowledge of the seasons & when they would occur was essential for the survival of civilizations all over the world. Since the sun was good, its symbol, the Swastika, was also good, by honoring the source of all life on earth.

In her great book, "The Lightning & the Sun," Savitri Devi wrote that National Socialism was a temporal manifestation of cosmic truth. Her reference was made in terms of the Hindu religion, which is of Aryan origin, although encrusted with lots of 'mud.' She wanted to clean off the mud, so as to uncover the true Aryan religion, but she never got around to it. Other writers say that the true Aryan religion is fully laid out in The Rig Veda, unlike subsequent holy scriptures of the Hindu faith. Hinduism, like its Buddhist offshoot, posits great time-cycles of many thousands of years, so the sunwheel or Swastika also represents The Wheel of Time, which revolves from a Golden Age of Truth, down to an inevitable Dark Age or Kali Yuga, at the very bottom of which, Kalki, The Bringer of Justice, returns to herald the advent of a new Golden Age. Savitri Devi described Hitler as an incarnation of Kalki, but not the last incarnation, before the beginning of a new Golden Age. Hitler said, "I am not the one, but I must do until He comes." Savitri took that to mean, Kalki, but it could have meant a leader of the German people, whom Hitler was hoping to meet in his lifetime.

As I type this letter, the USA is still being invaded & occupied. The U.S. economy is in a talmudic tailspin, & our insane occupation of Iraq, on behalf of Israel, is still costing Americans their blood, tears & reputation, with no end in sight, under Bush's Zionist regime. China grows stronger, globally, in its competition for oil & other raw materials, & China is invading & occupying more & more of The Western Hemisphere, including North America, where Mandarin is now Canada's second language, not French, based on the number of speakers from their latest census. Formerly White countries are open to non-White invaders, including Moslems, while our ZOGs send our troops to make trouble for ourselves in Moslem countries. Japan has declared "victory," & will pull out of Iraq, a.s.a.p., according to today's NPR newscast. Bush will not do that, because he cares only for Israel, not for American Goyim or Gentiles. Australia is getting into the same mess, for they are also under ZOG's Jew World Ordure. Otherwise, it's all quiet here on the western front. All the best, & ORION!  
P.S.: The Pope is a "Nestbeschmutzer," one who shits in his own nest; a German who defames Germans. He bears false witness.
