

21 JUNE 06. Dear Brian! Many thanks for your June 9th mailing of goodies, including your letter & that of Tom Nee. He seems to be a decent, good-hearted, courageous fellow, & I wish him success. I hope he does not have to experience what I did to realize the necessity of ORION! that Our Race Is Our Nation! For some inscrutable reason, he seems to believe that I advocate Whites to take their concept of White Nationhood & then go off to live by themselves, surrounded by non-Whites. I never said that, & I do not advocate it, either. I have a mini-nationality: Scottish/Norwegian, via the Hebrides, on both sides of the family. Would Tom advocate that I return to a place from which I could be deported? Or would he advocate that I establish a Scottish-Norwegian 'nation' on U.S. territory? When I lived in Africa, Whites saw themselves, finally, as Whites, not as Greeks, Portuguese, French, German, English, Czech, Dutch, et al. That was because our interests & identities were as Whites, first & foremost. Now, I see the same thing occurring in North America, where Whites of whatever origins are in a diaspora. I do not know any Scottish-Norwegians in the entire state, & those who claim to be "Norwegian" are mestizos, some nearly as black as the proverbial ace of spades. Ireland is indeed an island in a sea of multi-racial, multi-cultural countries. Manfred Roeder, like Tom, objected to "White Power," as being irrelevant to German conditions. Once he stepped down from the clouds, i.e., took a train in Germany, he was shocked by the numbers of non-Whites in Germany. He did not adopt the White Power slogan, but he urged his supporters to firebomb subsidized 'refugee' housing, which he foolishly wrote in his diary, which was the best prosecution witness against him in court. Since he returned to Zionist-ruled Germany, Roeder seems to have spent most of his time in the ZOG-gulags for thought-crime. I admire his persistence! He also did his bit for Germany by fathering six children, if I recall correctly. My question is, when will Germans recognize themselves as White, first & foremost? As demographic trends continue, Germans will become one more White minority, one which happens to live, surrounded by non-Whites, in a place called "Germany," for now!

As we know, Tom is wrong to ignore the role of the jews. He mentions the kosher connection in regard to Tesco's promotion of nigger/wog invasion of Ireland, but he may think that is the end of jewish influence in Ireland. It appears that he knows next to nothing about jew control of international finance, including The Bank of Ireland, & how jew-control of money gives them control of 'democratic' institutions, like parliaments, congress, et al. The ancient Romans referred to the jews as "hostis generis humanis," which, in my garbled Latin, means "the enemy of mankind." They certainly do a good job of attacking mankind on every conceivable front, as they are doing in Ireland. When I was in Rhodesia, I pointed out that the jews were the foremost enemies of Whites, & they were using the Blacks as their catspaws. I was righter than I knew, for Rockefeller (jews) representative Henry Kissinger told Ian Smith to handover government to Black Marxist Misrule a.s.a.p. in 1976, the year I was deported from Rhodesia! I had established The Rhodesian White People's Party in 1975. The final handover occurred in 1980, just as I had warned. South Africa's handover to Black Marxist Misrule occurred in due course, with de Klerk's rigged election, which he later admitted was rigged in favor of the Black tyrants. I knew who all the jews were in the back of the Black Marxists: Leo Baron in Zambia, Syd Levy in Rhodesia, Harry Oppenheimer & Joe Slovo in South Africa. Oppenheimer also directed post-independence skulduggery in Angola & Mozambique, formerly Portuguese West & East Africa, which was handed over in 1972, as I seem to recall, right after a Rothschild representative had made a well-publicised visit to the then Portuguese territories. A Portuguese sellout named Spínola, if I recall correctly, was instrumental in the loss of Portugal's 600 year old empire.

But to return to Ireland, jews exercise their control via their 'fingers': The Catholic Church, the Freemasons, Jesuits, Protestants, Sinn Féin, IRA et al. If Tom prefers to attack a finger or two, or better said, a talmudic tentacle or two, that is up to him. Now the jews are introducing more allies in their attack on Whites in general & Irish Whites in particular, including the indoctrination of degeneracy on truly record levels. The Internet is indeed censorable, as proved by European countries, Canada & Red China, so even Ireland can control what comes over the Internet. ORION! like White Power, is not a sign of desperation, but the culmination of observed trends & events. Tom does not seem to appreciate the fact that minds must change in order to put behavior in its proper political context. If one were to resort to "the propaganda of the deed," & "armed struggle," without winning the hearts & minds of needed supporters, such deeds become futile, as we saw in the case of Che Guevara & The Order, in Bolivia & the USA, respectively.

2) Our propaganda must rely upon events, when reason fails to motivate Whites toward their survival as Whites. With proper education & motivation, Whites can put events into their proper, race-related context, exactly as the Jews do, who are usually the instigators of those events, in the first place. Tom said it best: Patriots must be ready to die for their people, but would a degenerate, anti-White "Ireland" be worth dying for? I don't think so. If Whites cannot learn from us, they will have to learn from their enemies. I only hope they will survive their tuition payments! As one cynic said: "Suicide? Don't knock it until you have tried it!"

Tom reveals an important trend in anti-Irish tactics by Ireland's enemies: getting non-Whites to learn Irish! You previously mentioned how the enemy uses petty patriotism to prevent White Unity. Well, getting Whites to use their regional languages, dialects, &c. would be a great weapon to prevent White Unity. Without a lingua franca, people of the same race cannot communicate with one another, a truly Orwellian plan to prevent the circulation of information! States have become unified by the adoption of a lingua franca. Spanish is the 2nd language of most people in Spain, as I learned by travelling third class on trains all around The Iberian Peninsula. France has its regional dialects; Germany likewise, & Britain, so the abolition of the lingua franca or common language would contribute greatly to the re-division of European states, as well as proving to be an obstacle to White Unity in terms of communication, if not of purpose. To achieve unity, we need to see our common identity as Whites; use some common means of communication, albeit with interpreters & translators, & work on behalf of a White commonwealth & living space, under White government. These changes must first occur within our minds. Otherwise we shall become victims of mindless motion, & we shall fail to realize our vital interests. To demonstrate the validity of my argument, doubters should attempt to go fishing, with their eyes closed! Canadians had such a way of locating Lake Ontario: "Just walk south, until your hat floats."

On the other hand of ZOG, we have long witnessed & suffered 'universalist' means of injecting aliens into our living space. The Catholic Church is instrumental in doing this in formerly White countries, including Canada & the USA. All Christians are 'equal', & the more, the merrier. Language has been such a tool. French Canadians welcome Haitians, because they are Catholic & speak a Voodoo version of French. English Canada welcomes Jamaicans, et al. because they speak English, & because they also bring their 'wonderful' diversity of Voodoo practices of animal & human sacrifices, just like the Francophone Blacks in France. Such a deal! In Brownest Yakima, we have hispanic Voodooists who practice "Santeria," or "Saintery," which worships "saints", who are really Voodoo loas or gods, exactly as many of the other saints of the Catholic Church. Remember "St. Sol?" Ask your Portuguese friends about Condumblé, the Portuguese equivalent of "Santeria," which I understand to be the popular religion of Brazil. Voodoo is an important factor in New Orleans, a former French colony, as it is any place Blacks settle.

As you say, we tend to extremes. It is said that humans are creatures of habit, & they are also reactionary. Jean Michelet described Satanism in Europe as a reaction against the totalitarian tyranny of The Church of Rome, so too in England, as proved by The Order of the Garter incident, at which a king of England risked his throne to return a lady's red garter to her in public. The red garter signified that she was a Satanist. Had the Pope reacted to the incident, the king could have been placed under papal interdict & his subjects incited to 'righteous rebellion'. The Order of the Garter is therefore a recognition of gallantry or excessive folly. My grandmothers lived in The Victorian era of prudery, in which it was 'obscene' to hang underwear on the clotheslines, so 'decent' people hung theirs inside pillow cases, or with bedsheets hung over them. My Scottish granny said she enjoyed living in the post-Victorian era, because people were so hypocritical in those days. This meant that they did all the things people do nowadays, but they had to keep them as secret as possible! I do not approve of obscenity, just as I don't approve of farting & belching at dinner. Politeness is not prudery, but shows respect for our associates. Without respect, we show our associates that we deem them of no account, so they will probably think the same of us!

Maybe you should record The Irish National Anthem, sung in Arabic. If Irish don't like it, maybe they'll wake up to the real meaning of 'multi-culturalism', the euphemism for invasion & genocide.

Again, many thanks for your great mailings. Keep up the good work. ORION!
