

June 30, 2006

Dear Eric,

Thanks for the rapid reply. Because I haven't read all of your articles I will refrain, for now, from asking what may turn out to be redundant questions.

First off, a little background. I was born and raised in white-bread northern Minnesota. I am of Swedish and other northern European stock. I moved to Tacoma to flee the cold and mosquitoes. Many times, I wish I had never left.

Also, do you know of an American source for "Did Six Million Really Die?"? I am unable to convert Ponds to Dollars to get it from Heretical.

As a long time subscriber to The Barnes Review, the things you write about are of fascination to me. I particularly liked the exchange between you and Dr. Mathis. Quite enlightening, from both sides.

As I have awakened and begun to break free from the indoctrination of youth, I find myself extremely frustrated. Ecc. 1:18. "Where do I go from here?" is my constant question.

Who is Robert Frenz? For that matter, who are you? It's obvious that both you and Robert are well educated. I'm curious as to your backgrounds and where you began to "awaken", if you will. I'm sure I'll glean more as I read more. Quite a bit of wordage between the two of you. I'm picking at it like a box of chocolates.

I have attempted to share much of this information to some folks. Success, as you may imagine, has been limited. But, I got my youngest son to begin to see that life was not as he was taught. Sadly, he's gotten caught up with the LaRouche movement. He's become a zealot and it's painfully difficult to take with him about anything else. Do you have a cure? He does make one good point though; he says most of what he sees is just rhetoric and that, right or wrong, LaRouche is actually trying to do something.

I have to assume you are older than my 60 years and probably retired. Why do you write? Doubtful anything will get published. Is it cathartic?

Would you explain ORION? (And the other terms and acronyms you use.)

My uncle wrote quite a history of the Norse Mythology. Would you be interested in a copy?
/?/

I found nothing on the Web re: VNN or DOWZ.net. A search for Lindstadt was quite fascinating; a picture showed up with a part of a man's face in the upper center of the screen and under the picture was the name "Lindstadt" formed from a child's colored, plastic letters. Nothing else. No links or anything else. Strange. So, as you said in your letter, I am checking back with you as I found nothing.

I'll leave it at this. I know you are a busy man.

Blessings,
Clyde

Hail Alex! Does this mean you no longer carry my writings? ORION! E.T.

P.S.: A local contact just perused VNN & my modest contributions thereto without difficulty. She suggests that Clyde use a computer instead of a Ouija board if he wants to surf the Net. What a good idea! No need for you to reply. I don't want to interrupt the great work you are doing. DOWZ!

5 Jewlie 06. Dear Clyde: Thanks for your informative letter of June 30th, which answers my questions about the state of the Internet re my contributions. I enclose a few items in regard to my background, which are redundant, since such information has been on the Internet since the early 1990s. Log onto "Eric Thomson" or "E.Thomson," & see what you find.

I have met a few former Minnesotans, all of them part Nordic, but none of them White. If you are White, I congratulate your ancestors!

The Barnes Review (address enclosed) may know where one can obtain a copy of "Did Six Million Really Die?" Good luck! Oh, as I read in the next paragraph of your letter, you do subscribe to TBR, so I know nothing more than you in regard to "Did Six...?"

When did I "awaken," you ask. If you saw the great movie, "They Live!" you remember that the hero cannot 'see' until he dons the special sunglasses. I was born sighted, for I could see reality, rather than illusions. It just took me a while to find out what was going on in terms of "who is doing what to whom?" Another movie reference is "The Bourne Identity." He did not know who he was. I knew who I was, but I did not know whose side anyone else was on. "The Bonfire of the Idiots" refers, by way of introduction.

Knowledge obliges. That is why I write. If no one is interested, then I shall stop, for I can do other things. Writing keeps my mind fit & active, in connection with others. Were I in a university, I would be speaking before groups, as I would have done, had my doctoral dissertation not been confiscated at gunpoint by ZOG-thugs in 1969, prior to my deportation & exile that year, in which I was also barred from all Soviet Bloc countries, including Cuba. "America's Least-Wanted" would be the only TV feature I might appear on. In 1982, my Interpol contact told me, "You can go back when ever you like. THEY ARE ALL DEAD," meaning Hoover, Mitchell, Nelson Rockefeller & Nixon. Under the Freedom of Information Act, I received some 250 pages, entirely blacked out, not even good for scratch paper!

Brief vocabulary: Zionist = Jew-supremacist (jew or non-jew).

ZOG = Zionist Occupation Government. Term is banned in Canada.

ORION! = White Unity (Our Race Is Our Nation!) Term is used worldwide.

Robert Frenz was born in NY State, was a WWII vet & designed & built high-performance stockcar engines. He had a background in chemistry & metallurgy. He was a friend of Rockwell & participated in Party functions, including street demonstrations. I met him during the Holohoax Trials in Toronto, in the early 1980s. He died of pneumonia the day after he spoke to me, with considerable difficulty, on the phone. He was intelligent & had a sense of humor, which is refreshing & rare. I was privileged to know him.

Robert attended the LaRouchie meetings in Buffalo, NY. Lyndon LaRouche is a phony name. He is a jew, whose first name is Markus, something, as Robert told me. His sidekick is Nancy Spannaus, a jewess. The LaRouchies began as typical jew Trotskyists, under the name of The North American Labor Party. Then they went "neo-con," like the jews of the Bush regime, all of whom were jew leftists until they became Zionist Israel-Firsters. Hence, "neo-conservatism" is kosher throughout. The jews stole the conservative title. This would be like bank-bandits calling themselves "neo-cops." I told a fellow that, in practice, "neo" means "not." La Rouchies are like capitalists in terms of their beliefs in infinity on this finite planet: Infinite population-growth; infinite extraction of natural resources; infinite production of consumer-goods; infinite consumption of same, on behalf of infinite population-growth, & thence, to the stars! (But not if ^{we} die of starvation, pollution & disease first!) Robert reported their jewish bias when their speakers claimed that Nature's laws did not apply to man. Man versus Nature is indeed the hallmark of all Semitic religions: Judaism, Christinsanity, Islam, Communism & Capitalism.

I would certainly appreciate receiving your uncle's Norse Mythology! I am in contact with many Odinists, & several such publications. At this time I correspond with approximately 100 REAL PEOPLE, some of whom put my writings on the Internet, as they please. I am not dependent on the mainstream jewsmedia for my income.

In the meantime, enjoy your reading! All the best & ORION!

Eric Thomson
