

20 AUG 06. Hail Jason! Many thanks for your letter & enclosures of 12 AUG 06. The Mystery of the Mangled Envelope is weird. On my envelopes I use only 2 small pieces of Scotch tape to hold the ends of the flap down, to prevent it being caught by postal sorting machinery. I guess your zoggies supplied the extra tape, after opening the envelope. I would remember sending you a handwritten letter, I'd think, so maybe your zoggies shuffled someone else's letter into your envelope by mistake. My suggestion is that they stay off drugs when they go through the mail. Here in Brownest Yakima, the public slogan is: "Dare to keep your cops off drugs!" I don't make long-distance phonecalls, nor do I have a cellphone, so it would not be me who wrote a cellphone number on any letter. I wonder whose letter your zoggies misrouted, for it sounds like a good one which the intended receiver would hate to miss!

Sorry to read that you're on lockdown. Maybe the prison makes money or saves money that way. Most prisons make their money by expanding their super-max facilities, then finding reasons for putting prisoners into super-max. That's like a self-fulfilling prophecy: by building more super-max facilities, we discover more prisoners who 'need' to go to super-max. That's like the little boy who gets a hammer & discovers that 'everything needs hammering.' Ha!

The victim of wearing "gang colors" was not a gang member. He was Mexican & he was killed by a Mexican gang member. The victim was wearing a university sweater. Many universities use "gang colors", & have been using them long before gangs adopted them. A friend in Buffalo, NY, told me that Blacks tried to beat up Whites who were wearing 'their' gang colors, only to discover that these kids who'd recently come to their school were Albanians who were wearing THEIR national colors, which are black & red, if I recall correctly. Albanians are real tough, so they fought the Blacks without any hesitation. If we get more Albanians, they may attack Blacks who wear Albanian national colors! It was interesting to see the jews' pro-Israel demonstration in the newspaper article you sent. As we invite more & more Moslems into the USA, Moslem counter-demonstrators will appear to protest pro-Israel demonstrations. The number of Lebanese with U.S. citizenship is surprisingly large, & is growing. I understand that the Iranian community in the L.A. area is well over 100,000. What Americans are beginning to learn is that America is a place, not a nation, in which other nations carry on their national interests. This is why politicians worry about "the Polish vote" in some areas, "the jewish vote" in others & the "Hispanic vote", which is now taking precedence over the "Black vote." According to a recent jewsradio report, the Hispanics are at least 12% of the U.S. population, which is about the same as the Black population in the USA. The mestizos of Mexico & the Asians are doing what the Blacks do: multiply & live off welfare, at tax-payers' expense, and they are doing it much faster than the Blacks, plus, they have organized politically & are very active in the USA, with the full support of the Bush regime. If members of the Mexican Nazi Party, alias La Raza (The Race) can call U.S. citizens "racist" for resisting Mexican invasion of the USA, U.S. citizens would be correct to call the invaders "racist" as well, since they are taking our jobs & living space for THEIR people. The real villains behind illegal immigration are the fatcat felons who hire illegals & the ZOG which provides welfare for their numerous dependents. That's why an immigration crack down will not occur, according to people I know in the U.S. Immigration Service. Some people in government already know that any attempt to enforce U.S. immigration laws would spark a civil war, right now. The USA has always been a multi-national empire, never a "nation," & it was never a "democracy" in terms of laws written by the Founding Felons, who wrote The Constitution designed to limit voters' rights: (1) Voters have no say in regard to ISSUES, like the destructive North American Free Trade Agreement (NAFTA) which jew Labor Secretary Reich said, "would adversely-affect 80% of the American people." Most recently, we, the voters, were not consulted if we wanted to invade Iraq or not. (2) Voters can only choose candidates in federal elections, since issues are left to a bought-out Congress. Even so, if the voters choose the "wrong" candidate, elections may be nullified by The Electoral College or by judges of The Supreme Court. State & local voters are routinely overridden by judges, when the voters make the "wrong" decisions at the polls, as happened in California when the People of California voted to prevent illegal aliens sucking up tax-payer funded public services, when they shouldn't BE here in the first place. When one judge can defeat thousands of voters, it is ridiculous to call the USA a "democracy." We are not & we never have been, any more than we were a "nation." People who use such terms to describe the USA are either liars or ignorant, so none of them should ever be voted into public office. As for voters who vote for them, they should be barred from voting, since they do not

know

2)/what they are voting for, under our system of government! The reality is that the USA is a plutocracy (rule by the rich), part of the jew-bankster global empire. Once we understand reality, we can understand why the U.S. Government behaves as it does, & as it has done, from 1776 to the present. My ancestors were among the founders of the USA, so I can not be accused of writing from the viewpoint of an 'outsider.' Charles Thomson, a relative, was Secretary at the Signing of The Declaration of Independence, who designed the Satanic-Freemasonic, Kosher, "Great Seal of the USA," which the jew, Roosevelt, had printed on the back of the \$1 bill. I am not proud of that fact, as you can understand, because of the crimes this government has committed against White people, & continues to do. White race-traitors serve the non-White enemy, who is rapidly replacing them, like the human traitors who served the jew-like aliens in "They Live!" As my old professor of International Relations said: "There are no BIG secrets. The Truth is 'hidden' in plain sight." All it takes is the ability & the desire to see!

I'm glad to know that you will be able to get help in finding work. That can make all the difference. Getting work these days is all a matter of who you know, for jobs are one of the best-kept secrets in North America. When jobs are available, people tell their best friends or family members first. Often, the ads which appear in newspapers are phony, as required by law, for the positions are usually filled already. That was my experience after I returned to the USA in 1992, in Louisville, KY, & in Yakima, WA. Racial quotas for hiring also reduce employment opportunities for Whites, as distinct from "White Hispanics." In Yakima, there is a drive to hire Spanish-speaking cops, who "just happen to be mestizos." Not only will they speak Spanish, but they will have Spanish names! Such a deal! No wonder Yakima is coming to resemble Mexico. This saves me paying to travel to Mexico for a Mexican Experience. The only problem is: what if I do not want a Mexican Experience? Ha! As a U.S. citizen, I have no choice in the matter. What I learned after my return to the USA is that "citizens have DUTIES, & aliens have RIGHTS," thanks be to ZOG.

Tattoos are harder to remove, than they are to put on. Pass it onto your friends, but tell your enemies to get all the tattoos they want! Ha! In our anti-White society, it's bad enough just being White, but being White, with pro-White tattoos, is worse. Commander Rockwell said, "Your skin is your uniform." That is becoming truer every day, from what I see.

Yes, jobs are leaving the USA & Canada, as the aliens pour in, to take the jobs which are left. The USA is not a self-ruled country. To be self-ruled, you must be INDEPENDENT economically. This means that you must make the things you need, as well as being able to feed your people. If you do not control your money supply, & you must import essential items, you are not INDEPENDENT & not self-governing. All your domestic decisions must take foreign interests into account, especially when you allow foreigners in, in huge numbers, as we do. The USA was NEVER sovereign (independent & self-governing) in terms of these criteria.

I sent you the reports on Zimbabwe, since I'm from there. I left before Mugabe took over. When Blacks rule, Whites should leave. The White farmers who stayed were stupid. They lived to feed their Black enemies, so they could multiply, & some may want to repeat their mistakes. White Rule cause a Black population explosion in Africa. Blacks cannot feed themselves with their Stone Age values, even when they wear White Man's clothing & have a White Man's education. You can teach a crook all sorts of things, dress him up nicely, give him a big car & house, but if he still is a crook, you will achieve nothing. He will just be in a better position to ruin his people! When will Whites ever learn, if that is possible? White colonialism in Africa & Asia, as well as the Americas, has been a disaster for Whites, just as Black Slavery has been a disaster. There is no such thing as "cheap labor." This is another myth which is destroying Americans' standard of living. "Cheap labor" in Asia costs us our jobs. "Cheap labor" allowed to invade the USA costs us jobs & tax money, as well as adding crime & disease to our society. Those who promote the myth of "cheap labor" are stupid &/or criminal. The stupid believe the criminals, & the criminals make profits, for themselves, in the short term. In the longer term, they destroy their own society by enriching themselves at public expense.

The only winners from U.S. involvement in The Middle East are likely to be China, Russia & Israel. The USA has already lost, thanks be to ZOG! All the best & ORION!
