

24 AUG 06. Dear Tom: It was great to receive your letters of 11 & 14 AUG. It's always good to hear from you! Droughts seem to be in fashion these days. I recently heard a news report about the Odessa Aquifer in Washington State, which is rapidly drying up, as wells are drilled deeper & deeper to obtain diminishing supplies of hot, sulfurous water. Farmers want river water, but the Injuns refuse, on behalf of their mercury-contaminated salmon. That's why they also want to remove all the hydroelectric dams, &c. In Canada alias Soviet Canuckistan, Injuns have occupied land which Whites thought they owned, & the Canadian ZOG is wringing its hands, as it figures a way to buy off the Injuns. The funny thing is that the more Whitey gives, the more the Injuns want. Hence, a problem which was never solved, but worsened by subsidizing Injun birthrates has grown larger & more aggressive, & not only in Canada! "Perpetual war for perpetual peace" may come home to roost, so everyone will get his share of war without end.

Yes, the jewsmedia strive to maintain their version of reality, as in, "we're winning in Iraq," &c. The Internet has broken their monopoly of news & opinion, however. After Pearl Harbor, it took us 50 years to learn that FDR had planned it & set it up. Not so with our 2nd Pearl Harbor, 9-11. The Internet was soon revealing facts which FEDZOGUSA intended to keep secret, as in 1941. How times have changed! What the sheeple will do with such information, now that they have it, is the next question. I'm not sure how much reality must diverge from jewsmedia fantasy before the sheeple perceive the "credibility gap" which appeared during The Vietnam War, if I recall correctly. In my considered opinion, truth or falsehood is not important to the masses of asses, as long as they think themselves well off, even in the short run. The American Dream is basically Hawg Heaven. OINK! But our Moment of Truth will arrive when the slop runs out & Hebrewood fantasies can no longer distract. My attitude is that of a passenger on The Titanic who knows that we've hit the iceberg, & that our destination is the bottom of the ocean. That's why I do not fret too much about all the insanity going on around me, for events may drown it, sooner or later. Every day I see the lights go on, & that we are still afloat amazes me, & I appreciate this status quo, which I fear will not last much longer.

All the sacrifices which Americans put into their alleged wars of independence achieved nothing, as Cornwallis predicted to Washington at Yorktown. The King of England was a slave of The Bank of England, & Hamilton saw to our renewed enslavement to the Bank, so we signed away our purported sovereignty & independence 3 times, the last being our passage of The Federal Reserve Act, which gave U.S. sovereignty to the same kosher crooks as run The Bank of England, which is like The Federal Reserve: a privately-owned bank.

Sheeple don't seem to care, even if they know, that they live in a sewer. Nor do they have any plans for the day they get flushed with the Turd Worlders now pouring into their living space. As you say, viewing our current situation in terms of Bible mythology may comfort the asses, who don't wish to know how much of the fables are also fantasy. As demography indicates, American demagogues should probably phrase their scams in terms of The Koran. Islam is said to be North America's fastest-growing religion. "It is written!" An Islamic slant might be to blame our current misfortunes on Allah's wrath, which would be stayed by giving the religious shyster the usual shekels. "Pray & give me money!" The attraction of religious 'solutions' is that they require no material sacrifices nor sensible actions on behalf of problem-solving, similar to warmongers who want others to fight their wars. As you point out, certain Yahweh cultists equate the ZOG of Britain with divinity, exactly as the promoters of British Israel intended.

From what I gather on the jewsmedia, Democrats may profit from voters who are disgusted with the Republicans, but the Democrats also claim to support our Zionist disaster in The Middle East, with jews like Kerry & Mrs. Clinton in the forefront. This reminds me of the jew, Kerensky, who took over from Tsar Nicholas II, but wanted to continue Russia's disastrous participation in World War I. In his speech which I heard in 1956, he seemed not to realize his error, but merely wished he'd had "loyal troops." That was hard, for he had sent all of them to the front! The Bolsheviks suborned the rest with promises of "bread, land & peace" in a Russian workers' paradise, if they refused to go to the front. With that, Kerensky became a prisoner in his own capital: St.Petersburg/Petrograd/Leningrad/St.Petersburg. The Reds would not send him to Siberia, since they did not control that territory in 1917, so they chose the next best place: Palo Alto, California. After all, Kerensky was a nice jewish boy. I understand that the last Soviet leader who pleased the powers that be,

2) Gorbachev, lives in exile in San Francisco's scenic Presidio. What a sacrifice that must have been! But, speaking of sheenie survivors, I understand from the Internet that Markus Wolf, who headed the East German Stasi (deemed a terrorist group by the U.S. State Dept.) & Primakov, former head of the KGB, now work for their kosher crony, Chertoff, at Homeland Security, which some knowledgeable people consider to be a reincarnated Cheka. AS you say, FEDZOGUSA may wish to dust off an FDR-style 'recovery' scheme, such as drafting sheeple in to a Labor Corps, like the CCC & WPA, as well as the military. But people do make a difference, & U.S. demography no longer resembles that of the 1930s & 1940s. All it would take to set off the U.S. tinderbox would be some Black or mestizo demagogue to say: "Why go to die in Iraq, &c., when you can stay & win yourself & your people a part of the USA?" In truth, land belongs to those who occupy, & Mexican invaders sure occupy lots of it! A professor of Latin American history said that the U.S. State Dept. could predict coup d'etats in Bolivia, based on the price of bread, within a few centavos. If bread went up, Bolivia's regime would fall, so U.S. aid was essential in keeping any particular regime in power. That is known as "flour-power." Our National Guards used to be the major force to quell domestic disorders, but Bush has successfully destroyed them, in addition to diluting them with 'affirmative-action' personnel. Imagine a repeat of the Watts Riots, in which Black National Guard troops were ordered to put down Black rioters. Guess what might well occur. Black soldiers would likely join their fellow Black rioters, with nasty consequences for the outnumbered police! The jews have stoked up non-White nationalism in the USA, so non-White military units, mixed with a few token O.W.s (Ostensible Whites) would show their racial loyalty, rather than their Zionist imperial loyalty, against firing upon people who looked like them. FEDZOGUSA faces a dilemma similar to the former Austro-Hungarian Empire, which had to shuffle its military units around the Empire, to avoid pitting "Austrian" Serbs against Serbian Serbs, "Austrian" Poles against "Russian" Poles, &c. Of course, that empire did not make the mistake of mixing diverse ethnic groups in the same units, to avoid them fighting amongst themselves, as we found out with a tiny mixture of Moslems in U.S. units ordered to invade Moslem territory & kill Moslems. Methinks that the jews' U.S. Empire relies mainly on myths, funny-money, bribery & bluff for its existence. Militant Moslems are now in the process of calling that bluff, which will be very educational to the majority non-White population in this Land of ZOG. U.S. enemies have learned from the U.S., so they know how best to fight what remains of U.S. Imperial Legions, just as aviators learned how to down the once-mighty Zeppelins, with one incendiary bullet into the hydrogen, as seems to have occurred when the Hindenburg docked in NJ, when it was within range of a hunter's rifle. As I recall, 37 passengers & crew died from contact with flaming wreckage, as the airship slowly went down to an otherwise safe landing.

The Zionists' U.S. Empire has always been unstable, by its very composition, but our great space & abundant natural resources insulated us from the consequences, for a time. Rapidly-increasing diversity & rapidly-decreasing space & resources guarantee that instability can only increase, as well. ZOG's foreign policy, in favor of Israel, guarantees that our destabilization will accelerate. One writer predicted that we shouldn't worry so much about oil, when our real emergency will be lack of drinkable water.

As you see, also, a new ZOG army made up in accordance with the jews' stated desires would be an unwieldy, strife-ridden monster, more dangerous to itself than to its chosen enemies, Star Trekkies to the contrary. It is often noted that belief in one's own propaganda can be dangerous. Blacks have apparently learned to avoid being used as cannon-fodder. There are so few Whites now, that their opinions don't matter, & there are signs of Mexicans' objections to the same role. When bribery & bluffing fail, the USA will go the way of decadent Rome. Using "terror" on behalf of tyranny is an old trick, but ZOG's timing is off, in terms of our demography. Even ZOG's money is a bluff, so its ability to bribe will fail, I think, around the time its ability to browbeat also flops. Sheenie Skeddaddle Time approaches, unless they do a deal with China, in their Old Testament Tradition of Host-Betrayal. I heard on the radio today that real estate is very expensive in China, but is becoming cheaper in the USA, much cheaper. So guess who is likely to buy up 'cheap' U.S. real estate? Ha! All the best. DOWZ! & ORION!
