

3 SEP 06. Dear Paul: Many thanks for the great selection of downloads! Your analysis is both outstanding & scary in regard to the gutting of Ford in a financial version of kosher slaughter. No doubt the jews still have a grudge against Henry Ford, who must be doing a high-rpm spin in his grave, as you stated. Thanks for the information about the sheenie swindle to keep the stock market from plunging. Few sheeple can grasp the meaning of the scheme for the unfortunate majority. NPR jewsradio announced today that the "economic recovery" applies to CEOs, but not to middle management & just plain workers, whose incomes do not keep up with inflation. As you say, inflation for the many will occur for the jew-banksters' rewards to the few, whom I call "fatcat felons." Years ago I noted the correlation between the stock market & job-losses: When workers lost jobs, the stock market rose & vice versa. I concluded that the financiers are the enemies of the workers, since their gains were the workers' losses. Our system rewards the parasites & punishes the productive people, as if you didn't know. I passed your Ford article on to a former bookkeeper for a supermarket chain. She is justifiably worried about collecting her pension, accrued from a lifetime of faithful service. The name for the pension game is now "renege." Hey, if the airlines can do it, why not a supermarket chain? And good luck to those who have Enron pensions! In his time, Herman Melville wrote that trust was lacking in the USA. As a kid, I wondered why the companies did not pay their employees their earnings right away, instead of withholding what was rightfully theirs. Now, we find out that the employers were not to be trusted in the first place. Social Security may be next, ZOG willing. Years ago, a group of 9 (count 'em) jew economists stated that if you were not already collecting Social Security, you could whistle Dixie or the tune of your choice in lieu thereof. Thus, we have the best government money can buy, & one you can't trust in or out of your sight.

You are no doubt familiar with insurance policies which are invalidated by "acts of war." Well, our ZOG proclaimed that 9-11 was an act of war, & that we are now at war with the alleged perpetrators, here, there & everywhere, ad infinitum. So, how does the sheenie Silverstein collect on the insurance for The World Trade Center? With all the words of war, Congress has not declared war. Is this how the Trade Center's insurance remains valid? I suspect so. As I understand, an act of war without a declaration of war constitutes "a war crime & a crime against humanity!" Were the USA on trial at Nuremberg, it would be found as guilty as we found "them Nayzies," many times over! I understand that the Trade Towers were formerly owned by the Reichman brothers, who own or owned Olympia & York investments in Canada & invested heavily in The Canary Wharf Project in London. I heard, vaguely, that they experienced financial difficulties, which may have led to their sale of The Trade Towers. Thanks, also, for the latest "who's jew" in the Russian kosher criminal oligarchy. If Jacob Rothschild bought the Russian oil giant, Yukos, from the former Soviet Union, using the jew, Khodorkovsky, as frontman, it is likely that Rothschild recovered his initial investment of \$100 million, since the article states that K. "still has somewhere below \$500 million." Oy veh! Shall we take up a collection for this imprisoned oligarch? This long list of kosher crooks is great reference material!

Many thanks for the most complete exposé of the Einstein Hoax that I've yet encountered. Excellent background material. When I studied chemistry at Occidental College in the 1950s, I had a brief discussion about Einstein with a math major who said: "What is correct with Einstein is not original, & what is original is not correct." Like Picasso, Einstein was a product of the jewsmedia's promotion. As Picasso admitted in a 1935 interview in Le Soir: "Sure, I'm a fake, & if the damned bourgeoisie are stupid enough to pay for it, they deserve to!" Like Einstein, Picasso was another jew-commie. I understand that he was left alone during the German occupation of Paris. I guess the Germans deemed him to be a fake commie, as well as a fake artist.

Don't let the bastards grind you down. DONZ! & ORION!

Eric
