Ce Cocu De Blanc ... !
This White Cuckold ... !

19 SEP 06. Hail Jeffrey! Thanks for your letter postmarked 15 SEP 06 in which you express your interest in White Nationalism. The credo for White Nationalism is simple: If you are White, the question you must always ask is: "Is it good for Whites?" If you ask this question about everything you do, you will be a White Nationalist. A nationalist puts the good of his people ahead of his own selfish interests. Those who put their selfish interests above those of their nation are not nationalists, but traitors.

Books on White Nationalism are unnecessary. The entire U.S. Constitution is no more than a pamphlet. There are books, however, which describe the struggles & experiences of White Nationalists & those who would have been White Nationalists. I can recommend such books as "Mein Kampf," "White America" & "Sex versus Civilization" for White Nationalists, so they can see themselves in the realm of the possible & the vision of the desirable. Naturally, nothing should be subordinate to White Nationalism: no religion nor economic system must take precedence, least of all the foibles of one's family members & associates. White Nationalism is total commitment, but it does not omit the prospect of fun, as long as one can affirm that it is good for Whites. That is the only rule which we must follow, as White Nationalists.

The individual White should therefore improve himself in terms of skills and knowledge, & he or she should maintain his or her health. We need warriors, not weaklings, & we need wisdom so we can best use our skills & our knowledge on behalf of Our Race. White Nationalism must begin in our minds before it can appear on a map, & before it can manifest itself in White Communities. Without White communities composed of White families, White Nationhood cannot exist beyond an idea, but that idea is required if we are to realize the essential whole of White Existence. All our actions & inactions occur in a context of politics, economics & demography, so we should know everything possible about that context, so we will know if what we do or don't do is good for Whites. We can not do everything, but we can do our part toward the benefit of the whole: The White Race as a whole.

A nation is a people, not a place, contrary to the jew-liars & their dupes who think that nation = place. I see how they like to mis-define "family" as a collection of people who are living in the same building, regardless of blood relationship. Nation is biology, not behavior. If I can speak Japanese fluently, I am not Japanese, any more than an English-speaking jew is "English." If we are to follow jew-logic, then a woman who enters the Men's Room becomes a "man." Ha! A concrete example of the true definition of nationality is in the fact that a member of The Yakama Nation remains a member of his nation, regardless of citizenship & place of residence. Only by race-mixing can he destroy his nationality. Of course, American Indians are all mestizos (Eurasians) in terms of DNA, so they can deem anyone a member of their "nation", as the U.S. empire may "naturalize" anyone as a "citizen," regardless of dual citizenship. The Romans did the same, so we can view the fate of Rome as similar to ours, so nation is not location, even if The Yakamas & the USA claim that it is. The Yakamas' concept of "nation" is still more accurate than the Judeo-American definition thereof, which is totally wrong.

Inmates of the ZOG-gulags have time in which to learn & think. Most of us on the outside don't have that luxury in the Judeo-American ratrace, so I hope you will make the most of your enforced leisure. Sheeple afflicted with the consumer mentality do not appreciate the value of a cause beyond their immediate physical gratification, so they are victims of their vices. On the contrary, those of us who serve a cause greater than ourselves benefit in important ways, as well as in satisfaction in continuing the struggle. Had I not been a White Nationalist, for example, I might still be in Zimbabwe, under the Black Marxist dictator, Robert Mugabe. Others who were not W.N. remained to suffer the consequences of Black misrule. Being a White Nationalist does not make one bulletproof, but racial awareness can direct one out of harm's way. As the jew, Benjamin Disraeli, said: "Those who do not understand race can never understand history," & as I say, if you don't know who you are, you won't know what's good (or bad) for you.

As a White Nationalist, I can have only one motto: ORION! (Our Race Is Our Nation!) When I arrived back from Africa, I saw whole lists of loyalties, such as for "god, race & nation, 14 words, 88! &c." We should not divide our loyalties, so we may concentrate our energies & our focus on White Nationalism, in thought, word & deed. Our best defence is in knowing who we are & therefore, what we want, so from now on I shall stick to ORION! All the best.

P.S.: Thanks for the stamped envelope.
