

23 SEP 06. Dear Günter! Many thanks for your letter of 18 SEP 06 & the outstanding enclosures. Thanks for the ten 1¢ stamps. I did receive the dollars you sent, as I acknowledged in my previous mailing. Thanks again! I return your CDN stamps herewith.

I certainly appreciate the phoenix.com report on AIPAC's "time for war" feature. As you can guess, I have seen no mention of this important proclamation in any U.S. jews-media. I recall several items from the Internet which cited "Israeli sources" that war would occur against Iran around March of 2006, so this AIPAC statement could be a Zionist bluff. We remember that Judea declared war on Germany in 1933, but it was not until 1939 that the world war planned at Versailles officially began. We also know that World War II really began in 1918. Clausewitz & Sun Tzu point out that war goes on all the time, in terms of economics, demographics & politics, when war is not declared. The USA is guilty of waging outright war, in the form of bombardments & invasions, without declaring war, as we have long accused the Japanese of doing, only once, at Pearl Harbor. The USA has been doing it countless times since 1945. By our own definitions, the USA is guilty many times over of committing the very crimes of which we accused the German victims at Nuremberg. The USA is a mongrel empire, so it phrases its hypocrisy in clumsy terms, which reveals its hypocrisy for what it is. A current example is the U.S. regime's stance on torture. As I gather, torture is permitted 'certain' agencies, but not others, at least, most of the time. U.S. military officers fear that U.S. torture practices will open the use of torture on U.S. soldiers, based on U.S. ideas of "victor's justice." My view is that the USA is its own worst enemy because it is stupid.

Consider the incriminating photos made by U.S. personnel at Abu Ghraib Prison. First of all, who gave those monkeys digital cameras in the first place? The monkeys then broadcast the photos over the Internet. If I were in charge, I'd have said that the photos were fakes, done easily by digital technology, so the USA could deny all accusations of wrong-doing & blame the 'fake' photos on Al Qaeda. The USA invented Osama bin Laden as villain, so why not use him? Then, why admit that the USA has secret prisons & secret detainees? Why not add secret trials & secret executions to the secrecy, & be done with it? What's this 'peek-a-boo' policy of admitting PART of such policies, like admitting the tip of an iceberg of torture, & other programs which defy The Geneva Conventions? I think we are entitled, as U.S. citizens & tax-payers, to ask who's in charge of this mess? Of course, this question assumes that the American sheeple care, so they may go on sending their children to slaughter in The Middle East, merely to stir up the Moslem hornets' nest, as we allow them to swarm into our former countries.

As you say, the Pope, who more & more resembles a villain in a horror movie, is behaving like a senile nincompoop. I don't know what his alleged agenda is, although I suspect he vainly wants to preserve his rotten religious racket. I doubt that his timid, 'politically-correct' tactics will cause the Moslem invaders to be driven out of Europe, so as to make it safe for jews, who may decide to do their old sheenie-skedaddle stunt in Zionist Occupied Palestine. I guess we should stay tuned. Jewish intentions may very well

2) be to poison The Middle East with depleted uranium & nuclear weapons before they leave to live amongst their Goy slaves in Zionist Occupied Europe. More & more U.S. politicians are identifying themselves as jewish, & media jew, Scott Simon, said that jews like him are adopting Chinese orphans to raise as jews. Mexicans are also 'discovering' their jew racial backgrounds after living secretly as "conversos" or "converts" to Christinsanity. Since the two variants of Judaism: Islam & Christianity, believe in "conversions," the Pope may hope to "convert" the Moslems, while the Moslems hope to do likewise with the Christians, jews & other 'infidels.' When we are dealing with crazy conmen of Semitic cults, any madness is possible. As I see it, the main thing such cults have in common is race-mixing. American Jewish World Service is bringing Blacks into the USA from Somalia & The Sudan, so this could be another crop of "Black jews." Stay tuned!

I have read the latest issue of The Barnes Review, which promotes Zündel's Yiddessa from Odessa, & states on page 55 that Hitler wrote "Mein Kampf" in Spandau Prison! Such errors would deter me from recommending TBR to any history student, for I would not like them to be embarrassed by citing such stupid errors.

We have long suspected that "Ingrid" was part of a Zionist trap set for Ernst, based on his ego, lust & greed, plus his penchant for jewish-mama type females. His 2nd wife denounced him in Toronto, in as damaging testimony as possible, so now his 3rd wife, who enjoys his ill-gotten gains, has supplied Zionist Occupied Germany with the key to lock him up for as long as they want. "Ingrid" can thus build herself up as "Reviso-Queen", as long as her stupid husband remains in the thoughtcrime gulag. Such a deal! I hate to say that 'I told you so,' from the very beginning. Carto's motives in promoting her are murky, to say the least, as well as his carelessness with proofreading to catch historical errors. Cui bono?

Another tip of the demographic iceberg was revealed on the jewsradio: U.S. drug enforcement agents are trying to eradicate America's biggest cash crop: marijuana, in the NW USA. The marijuana plantations alias nigger-weed farms, are being cultivated by Mexican drug gangs, using illegal Mexican invaders, who are usually armed. Such pot plantations have been reported for decades in California on public lands, as in NW USA, so hiking in the woods is now dangerous. In the radio broadcast, sheriff's deputies were saying "how good" the captured marijuana smells & how valuable it is. We may therefore wonder how trustworthy the drug enforcement authorities are, who may be robbing the pot-growers of their profits, on behalf of theirs. A local DEA acquaintance assured me that he would not go hiking in the countryside without a helicopter gunship escort, on or off duty! Obviously, crime & corruption are rampant in this land with "the best government money can buy." I'll work on your ideas. Many thanks. All the best & ORION!

P.S.: Every anti-White abuse you cite points out the need for the ORION! concept. We cannot condemn what has NEVER been tried.
