

7 OCT 06. Hail Jason! Many thanks for your great letter of 1 OCT 06, the boycott flier & the self-addressed, stamped envelope, which is always appreciated. "Sieg Howdy" has a real Nazi cowboy feel to it. I know some humorless American NS types who'd say that sounds "too American." Well, guess where we are, folks? It ain't the Weimar Republic! Thank Tina for putting you in correspondence with me. She does great work, & I'm glad you enjoy my letters. From you, I deem it quite a compliment. Yes, I'm instilled with Folkish Spirit, but it's too chilly to be going around in Lederhosen, here in Brownest Yakima, & the closest I can get to Wienerschnitzel on my budget is baloney, but I only buy 'the best,' whatever that may be, but I know when I'm well off, as I am now. Harry Truman told us that we "never had it so good," & so, after 60 years, those words now apply to me! Such a deal.

Re boycott: La Voz de Aztlan has proposed a diamond-boycott, which I also support. To them I have proposed a **kosher** tax protest on food & food-related items, which really constitutes a violation of the separation of church & state, based on the 1st Amendment. The permission to allow Jews to tax items in interstate commerce represents the establishment of Judaism as our country's religion, in violation of the U.S. Constitution. When Cornwallis surrendered to George Washington at Yorktown, he predicted 3 things to Washington: (1) You will be back under The British Empire before you know it. We were, as soon as the traitor, Hamilton, proposed the establishment of the 1st U.S. Bank, which used Bank of England currency for its backing. The imposition of Bank of England currency on the American colonies was what had sparked The American Revolution in the first place. (2) You will destroy your people in a 'holy' war. Does "The Battle Hymn of the Republic" ring a bell? (3) Your religion will be Judaism, but you will not know it. Hence, the kosher food tax on most food items. Food wrapping materials & dishwashing products also get the kosher tax. No word from La Voz on the kosher tax, to my knowledge.

I knew Ben Klassen, who wanted me to lend him \$3 million so he could open COTC franchise operations across the USA. I asked him why he thought I had that sum of money, & he said he thought I did, or my comrade, George Dietz, did, since we put out such excellent publications. George & I looked at Klassen in wonderment, & George said: "We're broke because all our zog-bucks go into our publications!" This revealing conversation took place in Reedy, WV, in 1976. I had no objection to the content of "The White Man's Bible," &c., but I suspected that Ben wanted to use The Church of the Creator as a tax-shelter, like so many other religious profiteers, including all the established ones. I note a recent federal case which originates from an "Episcopagan" church whose preacher made allegedly partisan political sermons, the gist of which was against the Iraq War. I wasn't sure how long FEDZOGUSA would give the COTC a tax-exemption, for what the ZOG giveth, it taketh away, whenever it wishes. I am aware of NS economic programs, but I am not aware of such programs in relation to COTC. National Socialism describes a political-economic system, without mentioning race, beyond the German people. I am a White Nationalist who would incorporate the form of economy which serves Our Nation best. I see the role of religion as NOT being an obstacle to White Nationalism, since Whites have so many religions or none, as the case may be. Other than my putting ORION! first, I have no preferences. In everything, we must ask: Is it good for Whites? DOWZ! means Down With ZOG!

I never had a chance to read my friend, John Coey's book, for I knew him when he was a combat medic in the Rhodesian Light Infantry. I tried to talk him out of his vain sacrifice, but he had the same thirst for adventure & self-realization as I had, so I knew it was useless for me to argue against that motive. I tried to refute his rational reasons for chasing Blacks in the bush, which I recall were 3: He wanted to put his FN rifle at the service of some sky-jew. I said if that sky-jew needs your FN, he must be weak, indeed. Then he said he wanted to fight Communism. I said that Communism 's H.Q. is in the USA, from whence the USSR was founded & Red China is aided. I said, by now, he must realize that the Black Africans have been commies, in practice, long before we ever heard the word. He said that he wanted to introduce the concept of combat medic into the Rhodesian forces. I congratulated him, but I said that Ian Smith, our Prime Minister, has already sold out White interests in Rhodesia, so I advised him to return to the USA & have lots of White children, as his best contribution to the causes he espoused. His last argument was to ask me what I was doing in "sold out Rhodesia." I replied that I had to be here for "reasons of health," since I had been assured by the FBI that my return to the USA would be most unpleasant, after they had destroyed my academic career, with the confiscation of my doctoral dissertation on Latin America, in which I exposed the dual role of the USA-USSR, to the discomfort of the zoggies. The Orwellian hoax of the "Cold War" I had discovered in Latin America! John Coey died bravely, as I heard, in

2) an ambush, coming to the aid of his fallen comrades. I was deported from Rhodesia for pro-White activism in 1976, March, as I recall. Next stop, Toronto, Canada.

Congratulations on forming your study group! That's the first thing I did when I joined The Western Guard Party in Toronto, for I saw the need for such knowledge. My reasons were the same as yours, so we will know why we should love our race.

My writings are on the Internet, to my knowledge: www.FAEM.com & VNN. If someone can download them, that would provide the 'hard-copy,' but who would do it, I do not know. I am in contact with 2 prisoner publications, but both seem to be having production problems, as I gather. I hope such problems are temporary. I could send you copies for postage stamps, as time permits, ZOG willing. I cannot send you anything in book form, since I'm not a publisher, but I can send 8 1/2" X 11" pages, unbound, as your zoggies seem to prefer.

Yes, Armand Hammer was a jew. That is so well-known that I wonder how anyone could doubt it. Saudi Arabia is hypocritical about dealing with jews, especially if they are in the oil racket. Maybe Hammer bought off their consciences with a shabez Goy or Gentile frontman. If they do business with the Rockefeller interests, then they are doing business with jews, for the Rockefellers are also jews, via Holland & before that, Spain. One source even said that J.D. Rockefeller's father was a rabbi & a jew peddler in the oilfields. Yes, Ayn Rand's real name was Rosenbaum, according to a biography which I recall was written by "Nathaniel Brandon", if I recall the author's name correctly, since I read it years ago, but you can find it in a library. The content mentions her birth to an upperclass jew family in Odessa, where she would walk to her private school, noting the starving Goyim in the streets. Oy, such 'poiseucution' she suffered under kosher Communism in the Soviet Jewnion! "Ayn Rand" was operating in the San Fernando Valley, near where I lived as a kid. Her Goy husband, upon whom she was cheating, in favor of her young jew lover, "Brandon" alias Nathan Blumenthal, did not attend her "Objectivist" group meetings, which was all kosher, as I recall. One member of her group was Alan Greenspan, later to head The Federal Reserve.

I dislike some people's tendencies to label anyone they dislike as 'kosher', without doing research into their family backgrounds. Jews sometimes claim that Hitler was also a jew by race. I ask them to do a DNA test of Hitler's living & dead relatives: any Afro-asian genes would prove them right! So far, silence from the sheenies. White is White, based on biology (DNA), not geography. "Slavic" is a language group, not a race. "Anglo" refers to an English-speaker, for many Anglos in America are Eurasians or Anglo-mestizos, like so many Hispano-mestizos alias "Hispanics," whom FEDZOGUSA deems "White" for perpetrator status & "non-White" for affirmative-action privileges. ZOG purposely confuses language with race, so why would a Black who speaks only English not be an "Anglo?" Ha! Blonde, pale-skinned people can be Eurasian, which means they look White, but aren't White. Non-Whites can be political allies, but not kinfolk. Were I to consider having children, even at my age, I'd sure check my DNA, as well as that of my intended mate. If I were to discover that the race on my birth certificate is false, I'd simply be a member of AZA, The Anti-Zionist Alliance, like righteous jews & other non-Whites. Zionism (jew-supremacism) is "the enemy of all mankind," as the Romans used to say of the jews. Zionism includes jews & their stooges, like the Christian Zionists who slavishly support King George (Bush) II, on behalf of Armageddon.

Don't confuse 'jew' with religion, as many do. Cardinal Lustiger said it best: "I am a Christian, but I remain a jew." This is like saying: "I am a Buddhist, but I remain English." One is religion, the other nationality. Biology, specifically one's having a jewish mother, determines if one is jewish or not. I knew a girl from Poland who thought she was jewish, because her father was, but not her mother. She discovered she was not deemed jewish when she tried to emigrate to Israel. A biography stated that the present Queen Elizabeth II is jewish, because her mother, Sally Bowes-Lyons, is of the famous jew teahouse firm of Lyons. That would explain her son 'Charles' circumcision by a mohel or rabbi, as reported in The Canadian Jewish News. According to jewish sources, two thirds of jews living in Israel are non-practitioners of Judaism, that is, secular jews. We can't say "secular" for anyone who practices or attempts to practice a religion. Ayn Rand's philosophy of pure materialism is what we see in the USA today, for materialism & self-interest do not preclude the abuses she so well described in "Atlas Shrugged." Criminals can also be "Objectivists," & capitalists profit from the Marxists they fund, as did Armand Hammer, a good friend of the jew, "Lenin" alias Vladimir Illych Ulyanov & the Rockefellers, who championed such Marxist tenets as the graduated income tax, while protecting their wealth in trusts. Keep up the great work. All the best & ORION!
