

21 OCT 06. Dear Claude: Many thanks for your letter of 9 OCT 06 & the outstanding letters to others which reveal a panorama of current events within historical context. You rightly point out the disasters resultant from such Christian myths as "lions lying down with lambs." I blame Walt Disney in going one further: humanizing animals in the minds of the western masses. When I worked for the U.S. Forest Service in the 1950s, I heard of a man-made ecological disaster in Arizona's Kaibab Forest: We all know how beautiful & innocent deer look. Walt Disney made much of that in his "Bambi", so the Goyim were firmly on the side of the deer, along with the anti-hunting division of the eco-freaks, who think that man has no right, whatsoever, to live off Nature. All the 'nasty' predators were shot out of the forest. Predators are 'nasty' because they eat meat; they rend sweet Bambi with their claws & teeth; they devour her or him, as Christians are told to eat the flesh of Jesus & drink his blood. Besides, predators usually have bad breath, because they do not brush after every meal. Result: no predators. The deer had the forest to themselves. Did we create a deer paradise? No, we created a deer graveyard, for the deer multiplied beyond the land's food-production capacity. Soon, the deer were numerous & soon they were ill from starvation, after which they were soon dead. The deer population had plummeted, so that deer were very hard to find, if any. In those days, man was able to observe & draw conclusions from his actions. No predators meant no deer. Deer had existed in the Kaibab before man meddled on behalf of sentimentality. Solution: bring back the deer AND the predators! Belatedly, it was realized that the 'nasty' predators were beneficial to the deer. For one thing, they killed the unfit, thereby making the deer population healthy, & they protected the deers' food supply. When deer multiplied, predators also multiplied, thus maintaining equilibrium with population & food supply. Man could once again take predator pelts & venison from those Kaibab denizens, as long as man did not become too numerous & too greedy.

On an aside for Karl May fans, we have long heard that the "evil White man" killed all the American bison alias buffalo in the 19th century. Now hear this: Bill Irontail, a member of the Sioux Confederation whose grandfather fought Custer, told me that the "crazy White man" knew next to nothing about buffalo. City dwellers would take trains onto the buffalo-filled plains to shoot whatever they could hit, usually the biggest ones. But the Indian knew buffalo, so he would consistently select those with the best meat & hides. With the White man's rifles, he would kill only the female calves. In a relatively short time, the plains teemed with aging bachelor buffalo, & then there were none, save for a few scattered remnants. White men actually preserved the surviving buffalo, sufficiently that the population could be reintroduced in some areas. The Indian has erroneously acquired the label of "conservationist" conferred upon him by anti-Whites. The Indians' method of hunting buffalo before the White man introduced the horse into North America was to set fire to the prairie & drive a herd over a cliff, where the "noble savages" could feast at the bottom. That was the original meaning of "the bottom line," I suspect. Individual hunting was less productive, apparently. Of course, most of the meat would be wasted from such mass-carnage, since there was no way of preserving such a quantity. Hence, savage life was truly one of feast or famine. With the introduction of the horse, buffalo-hunting became more efficient. The hunter could select the quality of his meat on the hoof, kill it with a well-placed spear or arrow, with the help of his fellow hunters, butcher the meat they wanted, & take meat & hide home with them, to their teepees, the North American Asians' version of the Mongolian yurts, minus the wheels, which were unknown in The Western Hemisphere until the most recent appearance of the White man. With the introduction of the White man's rifles, buffalo-hunting became even more efficient for the Indians, even too efficient, judging from results: the absence of buffalo, which were the Plains Indians' source of food, clothing, shelter & fuel. I have held buffalo robes & clothing, & buffalo sinew is much superior to White man's thread, at least before the White man invented nylon! I have observed that the Indian only preserved his habitat because he lacked the means to exploit it as rapaciously as the White man. By the way, the Indians are allowed to fish with gill-nets, which are denied to White fishermen, under treaty. As I understand, Indians are also free to fish & hunt out of season. Since "Indian" status is based on fractional composition, down to 1/16th or even 1/32nd, perhaps a mestizo of that degree would be found 1/32nd legal & 31/32nd poacher, if it came to trial. If the White man 'killed' all the Indians & all the buffalo, why are there still so many? It's like the jews' Holohoax: the more allegedly 'killed,' the more there are! As you can gather, I have no bias for or against savages, but as a White man, I root for my own, as every non-White does for his own.

2) In White-ruled America, as in White-ruled Africa, a native who learned how to play the game could prosper in his society, as well as in White society. When I lived in Salisbury, now Harare, I was shown "Millionaire Row," on which Black plutocrats lived, such as the Dubes & Kozimamurewas. The latter aspired to achieving chieftdom in his own clan, to duplicate the wealth & status he'd achieved amongst the Whites. Similarly, I've read of very wealthy Indians in the USA, who played by the White man's rules, as well as their people's rules, in both societies. Blacks in Africa & Indians in America had tribal lands. It would be interesting to consider what I could have achieved, in terms of wealth, had I been entitled to a piece of land, amongst my own people, as a birthright. For the U.S. & Canadian Indians (mestizos) the buffalo are gone, & now casinos are proving just as essential to their tribal economies. Such a deal!

Tribal rivalries in Black Africa are bound to worsen as resources become scarce, relative to population-growth in the near future. If left to their own devices, Blacks will diminish from disease, starvation, warfare & corruption. This is what the Chinese are apparently waiting for. They are too wise to live amongst Blacks, I gather, but I see no reason why they would not occupy Africa, formerly Black Africa, were it largely vacant. Why fight, when you can just walk in, as the illegal immigrant invaders are doing in North America, including the Chinese? Chinese profit-seeking in Africa is intelligent, rather than 'humanitarian,' for the Chinese are not hypocrites, although they are sincere liars.

As you say, in regard to your participation on a talk-site for "intelligent people," such types will still be talking in their cooking-pots, which they think are 'hot-tubs.' Perhaps a gathering of "intellectuals" could produce enough hot air to lift them in a hot-air balloon. Günter has a great idea: Why doesn't Brian go to Scotland, where White gangs are killing their White opponents? That would be a worthwhile effort, instead of talking to the mongrels of France. Brian could approach the savage Scots as an 'honest broker,' since he is Irish. Of course, the risk is that he'd be thumped by all participants to the conflict, as are interlopers in Afghanistan. It's known as 'fishing in troubled waters,' &/or 'pouring oil on troubled waters,' depending on how the Scots see it. I knew people who liked to fight in Toronto, for which they'd be arrested. I suggested that if they liked to fight & didn't mind being arrested, why would they not want to don a sandwich sign, fore & aft proclaiming that "The Holocaust is a Hoax"? Then they could just walk on Yonge Street from Lake Ontario to the North Pole, with guaranteed fights & arrests in the first few miles! Such a deal! But no takers. In Toronto, denizens express their dislike for someone by telling him to "walk south until your hat floats," since the lake forms Toronto's southern limits. In the USA, the advice is general: "take a long walk off a short pier." I guess "take a long stroll in the summer Sahara" would achieve the same result for one who accepts advice uncritically, as do most Goyim. The Jews say that it's time to go to war in Iran, Goyim, so do it. Unfortunately, it appears that we will. This is Nature's way of culling White idiots.

Criminals do illegally what soldiers do with state approval. Having been a soldier, I view criminals as I view enemy combatants in war. Crime is a war against society, so I am in agreement with your view that enemies must be eliminated, not fed, clad & housed at public expense. Having learned of the role played by criminals in 1917 Russia, when they were released by the Bolsheviks, I can easily foresee such an outcome in the USA, which has the world's largest prison population, & increasing instability. I would treat the prison population as the kosher commissars of Stalin did in wartime: march them in front of our military to absorb enemy fire & landmines, with instant death if they retreated. The Jews learned the lesson which the Tsar did not: no regime sends its best to the war front, while keeping its worst in prisons at home. Stalin apparently had no trouble with revolts during World War II, as the Tsar had in World War I. The great movie, "Nicholas & Alexandra," teaches us that wars of long duration, lasting more than 3 harvests, usually brought Tsarist Russia to the brink of civil war. When regimes are too stupid to change, they are swept away. I would not be surprised when this happens to the Zionist regime in The District of Corruption. I am only surprised that the day of reckoning has yet to arrive! As I have said to Wayne: No change of place can save Our Race. Only change of mind can save Our Kind. If we can't change our values & beliefs on Earth, then a mere move to Mars will just spread the problem, as our move to the Americas did. The New World, with all its space & riches, was an indication of what would occur on Mars, when space-travel becomes easier & cheaper. I understand from reading Hoffman's "They Were White & They Were Slaves," that the Pilgrims brought White slaves with them on The Mayflower.

3) Hoffman observes that the Blacks were merely added to the pre-existing White slave system in the colonies of White, Christian Britain, whose vast majority of slaves were also White & Christian, as well as capitalist. ^{victims} We can easily imagine the outcome of a global capitalist settlement of Mars, for the purpose of infinite exploitation of the planet & the people thereon. If we cannot correct such monstrous criminality on Earth, how would we correct it by fleeing to another planet? Our folly follows us everywhere, so we must learn not to be fools, wherever we are, as soon as possible. Perhaps the only solution is to let Nature & Her unconscious helpers eliminate the majority of the fools, as you describe in your excellent letter to Canon Chris Chivers of 15 SEP 06.

Many thanks for liberating us from the Gandhi Myth, who was just as racist & class-ist as any pukka sahib. I suspect that Gandhi was not so much of a hypocrite as he was selectively under-reported, as with Jefferson & Lincoln, who believed in Black repatriation to Africa. Jefferson was much more of a hypocrite, since he wanted Blacks to leave, as soon as he'd obtained what he wanted from them! Black Communist, Martin Luther King, loved White whores. I understand he was shot & killed by a sniper, while at a whorehouse. King is our Black "Gandhi," a myth created by the jewsmedia, what else? Apparently, some-group has gone to great lengths to allege on the Internet that American Blacks invented all sorts of useful items. Unfortunately, the U.S. Patent Office says otherwise. We are told by the jewsmedia that Whites "stole" everything: lands, cultures, inventions & the non-Whites whom they "stole" as slaves. That makes us sound like jews, who brag of doing or wanting to do the same crimes of which they accuse others. When one points a finger of guilt at another, he points 3 back at himself.

As you indicate with the Chinese: why till land when you can get others to do it for you? However, China is apparently in need of air & water, as well as raw materials & energy, for its commercial expansion & for its existing population, plus more to come. Why not export that population, so as to control those sources of essentials? Why not save transport costs by consuming such items on the spot, from whence they come? The deal is one in which China exchanges its U.S. funny-money for real wealth. At least, that's what I'd do before the Jewnited States dollar went the way of the dodo in international exchange, as it appears to be doing. The Chinese colonization of The Western Hemisphere is already substantial & growing rapidly, especially in Canada, where they are taking over increasing portions of financial & media enterprises, from coast to coast. The jews made a concerted effort to take over such sectors of the Goy economies, so it appears that a big deal has been made between the jews & the Chinese, who are now deemed 'kosher' with the kikes. The jews didn't trust Goyim to own major media, so they worked to drive them out &/or subvert them in place. So now, why do the jews appear to trust Chinese in such positions of power? Maybe they are Chinese jews, as I suspect, connected to the Soon^g bankster clan, who are the Chinese equivalent to the Rothschilds. I would not be surprised.

If I were a betting man, I'd bet that the South Africans cannot build the necessary stadia & infrastructure in time for The World Soccer Cup, unless some Whites were to airlift them ready-made.

I'm glad the newspaper printed your article on The Gandhi Myth. Perhaps Yockey's prediction was correct: that in an age of total politics, that is, biopolitics, people will find "politically correct" censorship of thought & expression so onerous & disgusting that people will become more truthful & honest in their discussions of important matters. This will require the jews & their Zionist minions to shout their lies ever louder, until they become hoarse, as they strive to round up the ever more vocal dissidents.

I view the blightwing much as you do: it's much more a business than a 'cause', & it is a conglomerate of egotists promoting their particular personality-cults. Any good it happens to do for Whites is purely coincidental for those "paytriots-for-profit" who seek publicity for the purpose of lining their own pockets. I do not condemn them as ZOG-agents, like their blightwing competitors, for they are no better nor worse than their supporters. Those I object to are only those whose statements & actions endanger MY freedom under ZOG, as occurred recently, so I have taken all necessary steps to protect my interests against possible folly &/or possible ZOG action, in terms of precedents established by ZOG. Whites show no more awareness now than they did in Rhodesia & South Africa, before the sellout, so large numbers will perish when FEDZOGUSA decides to hand over the continent faster than it is doing at present. All the best & ORION!

End

NATION

III

Surprising gift to white supremacists

MASSACHUSETTS - Richard J. Cotter Jr. moved comfortably in Boston society. At Harvard, he was a friend of John F. Kennedy. He saw service in World War II, had a stint as an assistant state attorney general, then private law practice.

At his death at 81 in Duxbury, though, he shocked many of his friends.

The lawyer left more than \$650,000 of his \$5.4 million estate to white supremacist and anti-Semitic causes and figures, including the author of the book "The Hitler We Loved and Why."

Zündel took the money & ran, but not far enough!

THE GENETICS OF THE JEWS: "Jews are not White," says Professor Leonard Fein, who teaches Politics & Social Policy at Brandeis University in the U.S.A. Fein was addressing the 17th biennial congress of the Jewish Board of Deputies in Johannesburg, South Africa in May, 1972. "You are not White, either symbolically or literally, as anyone knows who goes to Israel," he said. Professor Fein, besides being a specialist in Jewish community problems in the U.S.A., is a specialist in Black-White relations in the cities. RAND DAILY MAIL, May 15, 1972.

"Jewish blood is different," says Jew Dr. Michael Kaback of the John F. Kennedy Institute in Baltimore. Jewish blood lacks an enzyme called Hex A and often results in a condition called Tay-Sachs disease. Over 90% of the Tay-Sachs disease is found in Jews. This disease causes convulsions, paralysis, idiocy and death."

A TV documentary featured the story of a Jew who called himself "German". He mated with a Cajun woman. Their child was born with Tay-Sachs disease and died in infancy. Jews of all parts of the world have specific genetic similarities, even common fingerprint characteristics, according to Dr. Leo Sachs, who heads the genetics section of The Weizman Institute of Science in New York, in collaboration with Dr. M. Bat-Miriam.

"The Genetics of the Jews" by A.E. Mourant et al., Oxford University Press, 1978, reports the findings of Jew hematologists, whose work was originally published in The Lancet, the journal of the British Medical Association. They report that "even the blondest Jew has Negro marker genes... which are due to concubinage (prostitution) and slavery." For more information, contact RACIAL LOYALTY.
