

29 OCT 06. Dear Steve: Many thanks for your letter of 18 SEP 06 & the great enclosures! I have photocopied the edition of STORM for the benefit of my readers. As I see our task, it is to inform others by breaking through Zionist censorship of information via their jewsmedia. Uninformed Goyim are gullible Goyim, ZOG knows! And, worst of all, most Goyim are asleep, & mistake Zionist-induced dreams as 'reality.' In my essays, I discuss "objective conditions" for Whites to bestir themselves in the interests of their own survival, but this discussion assumes that Whites are awake. In my experience, they are not, but only think they are. I was born into a family of slaves to plutocratic masters. They did not use their intelligence to understand their problems, for they were asleep. Their dreamworld was one of constant toil, & increasing debt, which pursued them, despite all their efforts. They were haunted by the specter of poverty, which they had experienced during the Great Bankster Depression of the 1930s. Two incomes were barely enough to keep us off the street, which I thought absurd. I recall asking my mother, when I was around 10 years old, "What are we running from?" I proposed my intention of turning around to face the 'bogeyman', for in Hebrewood horror movies, the unseen bogeyman is more frightening than the one who appears. The visible bogeyman is the vulnerable bogeyman. In the bankster fable entitled "The Wizard of Oz" (Oz meaning ounce of gold), the heroine, Dorothy, is in the great hall of The Wizard, when her little dog, Toto, runs over to a booth & pulls away the curtain, thus exposing the operator of the fearsome "Wizard" who thunders: "Pay no attention to the man behind the curtain!" But the ruse had been exposed, & Dorothy knows that "The Wizard" is a fake. Our sleeping fellow Whites think "The Wizard" & his illusions are 'real.' Specifically, they think that "democracy" is worth dying for & that jew I.O.U.s are 'wealth,' rather than symbols thereof. We have proved sufficiently that 'our' governments & elections are our fundamental enemies, who work for alien interests. Good sleepers sacrifice their lives on behalf of such enemies, as did John Coey, who I knew in Rhodesia.

The Sleeper Theory explains the obvious disconnection between Whites' behavior & reality. Rhodesia was one example among a multitude: The traitor, Ian Smith, was elected & re-elected by a majority, to whom he promised "No majority rule in my lifetime." Henry Kissinger stopped by to tell him that it was "time to sell out," in 1976. By 1980, the deed was done. I could see Smith's sellout coming, as a few others did, but the majority behaved like sleepers who saw illusions as 'reality.' Many focussed their attention on 'their' property, refusing to acknowledge that a Black Marxist government would deprive them thereof, with the stroke of a pen &/or the stroke of a machete. Friends of mine were hacked to bits on the road to 'their' farm. I had warned them that the same would befall them as befell White farmers in other former White-ruled colonies in Africa, when the Blacks took over, but they told me: "Our Blacks are different." They never woke up. The Whites in America are also asleep. One Goy declared: "I have my deed to my land!" as if a piece of paper could stop a bullet or blade. Sleepers sometimes talk & even shout in their sleep, sufficiently loud that they wake up, for a bit, but what they do when awake is to go back to sleep. Perhaps I woke up because I did not find my Zionist-induced dreams at all pleasant. In my version of nightmares, I dream that I am performing tedious tasks in bleak surroundings. This prompts me to wake up & perform real tasks which are not nearly so tedious! To me, the Judeo-capitalist dream has always been a nightmare, even in its talmudic terms of 'success.' I sometimes feel as if I were a visitor from another planet, & that I am now on a "Planet of the Apes." When I was in Portugal, I was dining at an open air cafe by the road in the countryside. A flock of chickens was moving about in search of food. In their midst was a young cat, which was pecking & scratching like a chicken. From time to time, the cat would look around, as if wondering what its 'fellow chickens' got out of their pecking & scratching. Perhaps the cat suspected that it was not a chicken! Cats do not eat seeds & gravel, & I did not enjoy eating the flesh of Jesus & drinking his blood when the meaning of the jew-book's words hit home. That's another time I woke up. Like the cat which was apparently raised with chickens, I was raised with Christ-eaters & sheeple, but I was never one of them. Unlike the cat, I knew it! My mission on earth was to find my people, as the character did in "Return to Spring Island," one of my shortstories, which came in whole, out of a dream, as do^{es} most of my fiction. The only effort my fiction requires is to copy it down before I forget! Some people, perhaps druggies, do "reality-checks" to test if they are awake. Whites certainly need to do some reality-

2) checking!

Speaking of reality, I note that some of your readers want you to compete with the electronic media, for daily news updates, thereby showing their ignorance, which you've largely corrected in your reply. Your words reminded me of the credo of those who founded the weekly news magazines known as TIME & Newsweek. The founder of TIME, Henry Luce, if I recall correctly, wrote that TIME would deal with "slow news," which combined news deemed important with editorial analysis thereof. In other words, the writers of TIME articles would relate news items with reference to past events, so the current news appears within a historical context, in order to be understood. This is what I do, to a large extent, & some of my readers refer to my articles as "timeless, but always current!" I consider that as quite a compliment.

I'd like to correct the slavery issue, that is, the White slavery issue: Some of my relatives were brought to America as White slaves in the 1600s, as reported on the Internet. The vast multitude of slaves brought to British colonies in the Americas & the plantations of the Caribbean were White. A good reference source for this information is a book by Michael Hoffman entitled "They Were White & They Were Slaves." The British are likely the world's foremost hypocrites. Britain did not abolish slavery, instead, it adopted euphemisms, such as "servant," "bondsmen," "indenture" & even "employee," as used to describe the child-slaves of industrial Britain & America. Whites were bought & sold by their owners, as was done to Blacks, who merely got plugged into the pre-existing White slave system in the Americas. Black slaves were more expensive, so Blacks were better treated than were Whites. When Black slaves were hard done by, they would complain that their master treated them "like Irishmen." Few White slaves/indentured servants et al. lived into their 20s. In Africa, Black slaves were kidnapped by other Blacks who were slave-traders. In Britain, White slavers kidnapped Whites, but most White slaves were poor & deemed 'surplus to requirements,' so they were funnelled through Christian charitable organizations. Most White slaves were Christians & their tormentors were Christians. Nowhere in the Jew-book, neither OT nor NT, is slavery deemed sinful. On the contrary, Jesus commands slaves (bondsmen, servants, &c) to be loyal to their masters. Nietzsche was correct in describing Christianity as "a slave religion."

The section which you kindly sent me from Daniel Deville's "Separate Living #1" included a drawing of a Ku Klux Klansman in his traditional Freemasonic garb, meant to scare niggers at night. The KKK was established after The American Civil War by Freemasons who were in favor of White supremacy, NOT separation; if I may correct the KKK author Charles Lee. One of the founders of the KKK was none other than Albert Pike, a high mucky-muck Freemason, who promoted construction of The Washington Monument, a gigantic obelisk or phallus used in Egyptian sex magic. It was Pike, as I recall, who advised, "be it known^{un} to the brethren of the 31st & 32nd degrees that Freemasonic doctrine must be preserved in its Luciferian purity." That explains "Annuity Coeptis" (He approves our work) on The Great Seal of the USA which appears on the back of the \$1 bill. It was 33° Freemason, FDR, who ordered that The Seal be printed on the back of the U.S. dollar. Indeed, Lucifer must approve of the work performed by the USA, on behalf of "NOVUS ORDO SECLORUM" (The New World Order). American Blacks have noted that in the South, Blacks would be welcomed to "get close, but not up," whereas in the North, they were welcome to "get up, but not close." The relations between Blacks & Whites in the KKK's South were notably intimate, as they had been in the days of official Black slavery. Hence, Lee is talking absolute nonsense. The Freemasons were established by Jews, for Jews, over Goyim who WANTED to be Jew-slaves, & the Freemasons established the KKK, to keep Blacks close, but down. Separation was for public places, but not for the southern homes. A Jew reporter revealed that KKK members hated the Nazis, because Nazis believed in doing their own "nigger jobs," which was anathema to the often not so White supremacists of the KKK, who neither believed in White Unity, nor in racial separation. Perhaps some KKK members believe in those ideals now, but not "always," as Lee alleges.

The problem with prisoners' publications in the ZOG-gulags is censorship. I have many prison correspondents, but I cannot share my letters with other prisoners, as a matter of prison policy, however, one advantage is that my letters are read by the zoggies as well as the prisoner to whom I write. This ensures a wide audience for my ideas & information. Keep up the great work! ORION!
