

8 NOV 06. Dear Michael: Many thanks for your letter & enclosures of 5 NOV 06! Great photos. I return the 3 photos of Page herewith, ZOG willing. Your Freedom From Discrimination Month flier arrived intact & in good condition, thanks be to ZOG. It reminded me of the record album cover from The Beatles' Sgt. Pepper LP, which featured almost everyone except Hitler. Satanist Crowley appeared in the "group photo," as well as Oscar Wilde, as I recall. It was not my record, since I was not a Beatles fan. ZOG does not seem to know that "Diversity" means Differences, not only in looks, but in beliefs & behavior. "Diversity" is what we're embracing in Iraq. Boy, do the jews hate Shockley. I wonder why they are not so hard on Einstein, who was a fake & a plagiarist. You don't think it has anything to do with Einstein's being jewish, do you? As we know, jew writers are always objective & even-handed. Ha! Thanks, also, for the USA Today essay on racism & segregation, according to race & sex. Maybe prisons will catch on, for everyone's good. On the school front, it appears that segregation by social class is in vogue with the privatization of formerly public schools. I guess the zoggies were smart enough not to start "coed" prisons. Perhaps the pendulum of discrimination is swinging back toward sanity. It used to be, not so long ago, that a person who was discriminating was viewed positively. Discrimination in diet would mean that the diner knew the difference between food & dirt, which I soon learned to discriminate as a kid when I tasted a homemade mudpie. Discrimination is not usually the product of prejudice, but of experience, ZOG to the contrary. ZOG's policy toward forced racial integration is similar to forcing people to eat mudpies.

Your zoggies are treating the Reintegration Program as if it were The Manhattan Project for the atom bomb. Why the extreme secrecy? This impresses me as "mens rea," the guilty mind in action, on the part of the zoggies.

Phil has been away for almost a month. That's why he can't do a graph on inflation.

I may have sent your flier on Discrimination to another correspondent, but if I did, I'll send you another version. I'll make copies of your appeal, as you wish, so John gets his.

Sr. Cedeño may not have been honest in addressing our concerns when he wrote to say he had no "specific information" on victimization resulting from forced integration of cellmates. If that is so, as I suspect, then the "criminal types" in the gulags may include administrators as well as inmates. As you say, it does not bode well for policies in Washington State Prisons. I hope Abu Ghraib will not be the pattern for U.S. prisons!

Re Asatru: I sent my VA article which included the quote from McNallen to Ron McVan. Sorry! I saw no such quote in Karl's depiction of the newspaper article, in which McNallen allegedly claims that "Asatru is for all races."

Yes, if we are serious about race, then DNA testing is the only way to go. As you say, the hebes will likely provide bogus test results, but DNA-test data are increasingly becoming part of one's personal I.D., & it is used more frequently in medical testing. Of course, it depends who is doing the testing, for lab tests get mixed up, as well as botched by incompetent lab workers. Racial composition is often revealed by behavior. I recall a Canadian acquaintance who was chatting with a co-worker. His workmate complained that his wife would be drunk when he came home, & she'd throw whiskey bottles at him. My acquaintance said: "Well, what do you expect when you marry an Indian?" The co-worker exclaimed: "How did you know she's Indian? You never saw her!" My acquaintance said that he only needed to hear how she behaves to know what she is. Finns are also dangerous when drunk, as I learned from my experience in Sweden. Others report similar experiences with Finns: when the booze goes in, the knives come out. Our medical racket likes to prescribe drugs on a one-size-fits-all basis. This explains why over 100,000 Americans die every year from mis-prescribed & mis-dosed medications, according to the jewsmedia. It seems that our quacks are profiting from killing their patients. Such a deal! As the saying goes: Doctors bury their mistakes. Let the patient beware!

So far, no response from Sr. Cedeño in regard to the specifics I sent him, just as you suspect. It is interesting to read about ZOG's response to an officer's complaint about the inclusion of Ho Chi Minh on The Diversity Calendar. Why not include Tojo? In Orwell's "1984" the dictatorship kept switching allies & enemies, JUST LIKE THE USA! Orwell was describing the USSR under Stalin, but since the USSR was founded by the USA, the resemblance is not surprising. What else can one expect when the same tribe runs both countries? Yesterday's terrorists can become tomorrow's totems of political-correctness. Shamir, Begin, Mandela & Mugabe come readily to mind. Of course, mass-murderer Stalin quickly became "our gallant Soviet ally." Memory is the enemy of tyranny.

2) Thanks for explaining who & what "WAU" & "KTF" stand for, & Julie's relation thereto. I'm glad you can use the E-mail addresses from J.B. Campbell. He fought in Rhodesia, as did Thomas Chittum, author of "Civil War Two."

In a book on "One Upmanship," all One Upmen are advised to carry with them at all times a map of Bulawayo, Rhodesia(now Zimbabwe),with the north or south section shaded, so the One Upman can impress his listeners with his expertise. Having lived in Bulawayo for five years, I can appreciate the importance of that advice. In fact, I read "One Upmanship" in the Bulawayo Public Library, & I laughed out loud when I read that passage. A One Upman is at a party, for example, where an expert is monopolizing all the females with his erudition. The trained One Upman nods with approval as the expert makes his points, say, on The Vale of Kashmir. When the expert winds up his discourse, the One Upman will conclude by saying: "quite so, but not in the east or west,"&c. The listeners will thus assume that the One Upman knows everything the expert knows, plus additional information, superior to that of the expert. Double-double good! Ha!

I'm glad you are continuing your righteous struggle on the mail hold up & your property 'disappearance.' Keep up the good work!

I listen to NPR jewsradio, so your designation of "Jew-lyin' Coldsnow" is appropriate. I note, recently, that jews are going Oriental in their choice of wives & adopted children. They seem to favor Chinese. I strongly suspect that they intend to sell North America to China, in exchange for all the kosher funny-money the Chinese have earned. The jew, Schwartz, of Loral sold or gave China the latest U.S. missile guidance technology during the Clinton regime & Israel has a very cozy relationship with China, in regard to transferring U.S. military technology to China. Dumb Goyim tell me that "Israel is our lifeline to The Middle East." I reply that it is really a hangman's noose around our necks.

It's hard to figure how American Renaissance will respond to our gulag racial project. If Taylor's wife thinks it's not kosher, they may ignore it.

I appreciate your evaluation of your zoggies' paranoia about The Third Reich. Hitler is history, like the Kaiser, Napoleon & Caesar. Would your zoggies object to Roman emblems, pictures of legions, &c. as signs that you are affiliated with a "security threat group?" Do you have a current NSDAP membership card? It is quite different to be an admirer of The Third Reich, rather than a member of the "Nazi Party." Zoggies should know that. Imagine that you liked to collect pictures of German warships. Would the zoggies accuse you of being a member of the German Navy, which ceased to be a security threat group in 1945? Since when does one's interest in a period of history constitute membership in a security threat group? It is possible to admire historical figures without thereby becoming a follower of Hitler, Napoleon, Caesar or the Kaiser. One may admire the Confederacy, but would one's oath to President Davis have validity today? ZOG should know! Obviously, small minds do petty things. A jew would advise your zoggies to "get a life." I'd suggest they try tiddly

winks, which requires more skill & physical coordination than grabbing your stuff. It also focuses the mind on therapeutic play, rather than pernicious paranoia, & pathological phobia concerning historical figures. I understand that Drake the pirate so spooked the Spaniards & Latin Americans that even today, parents tell their spicklettes: "If you don't behave, Drake (El Draque) will get you!" The horror, the horror... I guess an inmate of a Spanish prison would not be allowed to have a picture of Drake & The Golden Hind in his cell, if Spanish zoggies behave like yours. Pirates are definitely security threat groups, & they are still in business in the Caribbean, the Malacca Straits & off the coast of Somalia. Since I've been in those places, I await news that the blightwing also accuses me of piracy, although that would be pretty tame, compared to their previous accusations. The latest, to my knowledge, is that I am "a former CIA supervisor of Mossad hit-teams, & I was working as a parking attendant at minimum-wage in Yakima to protect my cover." Some readers want me to write my autobiography, but I leave that to my critics whose imaginations are much better than my factual tale of trivial experiences on tight budgets. I don't even have my shaded map of Bulawayo to prove my expertise. I therefore leave it to others to make a truly horrendous character out of me: E.T. alias Eric the Awful alias Thomson the Terrible. Aargh, shiver me timbers! DOWZ! & ORION!

P.S.: Great Aryan Ninja outfit !

Your beard reveals that you are
a Learned Elder of ORION!
