

15 NOV 06. Hail Chad! It was great to get your letter of 11-11-06. Since your zoggies object to Thor's Hammer in metal or wood, why do they permit, as I understand, crosses of both materials? Would a Thor's Hammer made of paper or plastic be 'kosher' with them? If not, why not? It sounds like religious persecution to me, in violation of our 1st Amendment. Would it be all right to wear a cross upside down? If so, would it be permissible to remove the cross part, thereby leaving an upside-down T? If not, why not? Good luck with your new chaplain. He sounds conscientious.

If White Nationalism is 'bad', isn't jew nationalism equally bad? In debate your jew-zogges' arguments are called "special-pleading," in which an exception should supposedly be made for one, but not another. Special-pleading is deemed invalid in debate, as are ad hominem arguments which attack a person, rather than his points of discussion. Example: If I say that today is Wednesday, & my opponent in debate says: "You're just a Nazi!" Any debate judges would disqualify that retort as a non-rebuttal of my statement.

If you are required to watch movies of struggling Black males, why not struggling White males? Or struggling Yellow males? Or struggling females? Zoggies promote the specious idea that all our problems stem from failure to communicate, & to make ourselves understood. A Black fist in a White face is definitely a form of vigorous communication, for example, so must a White reply in words, rather than action on the same level? Blow for blow is indeed communication. If I am spoken to in Spanish, why should I reply in English, when I am bilingual? Silly zoggies! Two men may agree that they are hungry. They may also agree that there is bread which can feed only one of them. Can we thus say that their resulting fight for existence is due to "lack of communication?" Hardly! The Duvall drama only points out the need for DNA-testing, not kosher crapology. Let's consider athletes: Suppose one wanted to be a basketball star, & he 'thought' he was 7 feet tall, until a coach measured his height & found that he was only 5' 10" tall. This fact might cause our would be all-star to rethink his goal, as well as his identity. Life can be full of surprises.

Why do zoggies consider their Holohoax propaganda more factual than serious research into the matter? It is you who should be teaching them, rather than they indoctrinating you. I used to believe in the Holohoax, as I used to think Hitler was The Bogeyman of History, but, thanks to jewish propaganda & its rabid contradictions, I began to wonder how Hitler could be so many things at once, like a "crazy-brave coward," a "womanizing woman-hater," a "cool-headed, hot-headed fanatic," &c. I was taught in the U.S. Army that the best tactic is to hit your enemy when he least expects it, preferably from behind, when he is asleep. I therefore thought it was quite clever of the Germans to trick their jew enemies into believing they were going for a free shower at Auschwitz et al. As the jews kept repeating & exaggerating their lies, & I became more experienced, I began to doubt the Holohoax, & I considered the possibilities, as well as the impossibilities, as outlined in "Simple Arithmetic vs. the Six Million Myth" written by a jew, Herzog, who lived in Southwest Africa, now Namibia. In courts, contradictory statements by a witness usually disqualify his testimony. If he alleges that he saw the accused "perfectly well" when it was dark, we are entitled to wonder if he is being truthful. So it went when one jew-liar testified under oath that he'd seen "burning pits" at Auschwitz which were over "9 meters deep." Our defence attorney asked how that could be when the watertable in such a swampy area was barely 4' below the surface. The jew replied, under oath, that the groundwater was frozen solid. Our attorney asked him why the "intense heat" which he mentioned did not melt the ice & thus flood the "burning pit". The jew claimed that the Nazis had 'somehow' made the water stand still, as only Yahweh could do, previously, when he allegedly "parted the Red Sea" for the passage of his sacred sheenies. Boy, those Nazis must have been godlike, since they could defy the laws of physics, & also, of chemistry, on a routine basis. Nazi crematories could zap a jew into ashes within seconds, whereas normal crematoria can only do the job in 1½ hours, under ideal conditions. Wow! As you pointed out to your zoggies, our best Holohoax-debunkers are usually jews, like my source, Ditlieb Felderer, who visited Auschwitz 52 times, & took pictures of the swimmingpool, the brothel & delousing facilities where Zyklon B was used, but where no one was "Gassed," according to the Holohoax Museum authorities. Zyklon B was allegedly used, but not where "millions were gassed," as alleged by the holohoaxers. It is a typical example of talmudically-twisted jew-think to claim that a life-saving agent for killing lethal lice was used to kill people, instead. All German internment camps had delousing facilities, like those at Ellis Island, U.S.A., where hydrogen cyanide (Zyklon) was used for delousing clothing & bedding, but no one claims that immigrants were gassed at El-

2) his Island, as yet (I hope!). Before 1960, all German internment camps were deemed as "death-camps" where "gas chambers" killed "millions," but, suddenly, around 1961, the Allies changed their lies to claim that NO ONE was gassed in any camp outside of the six camps in Poland: Auschwitz, Belzec, Maidanek, Sobibor, Chelmno & Treblinka. Thus, we know that Zyklon B was used in all camps, but suddenly, only six camps in Poland were deemed as "death-camps," even though people died of starvation & typhus in all camps. In conclusion, camps where people died were not "death-camps," but only camps which "gassed" people. So why is a death not a death? ZOG only knows! Another 'miracle' occurred in 1961 when all the alleged gasees jumped from their previous locations into the six camps in Poland! The 'official' Holocaust figures change rapidly for each camp & from every source, but the "Six Million" figure remains, regardless of subtractions. The Jews are guilty for lying & for insulting our intelligence, if we ever have the courage to use it, as few Goyim do. One can still go to prison in Zionist Occupied Europe for questioning any aspect of the Hebrews' Holy Hoax. Since when did truth ever have to be backed by guns & prisons?

Obviously, your zoggies wish to inflict bogus guilt upon you, as they did with their previous indoctrination course. This is what I needed to know. Many thanks! DOWZ! ORION! 88!

*End* P.S.: You raised a good point in regard to why I would vote for Bush II. Decades ago, I read an aphorism by Nietzsche in which he declared that he intended to help those who are falling fall faster & those who are rising rise faster. I also read about the frog in the pot of gradually heating water, in which tolerance for gradual change can be deadly. The Jew, "Lenin," described "objective conditions for revolution" as being a situation in which the masses are all adversely affected by major events, at once. If your house is on fire, most people's behavior does not change, but if most people's houses are on fire, at the same time, most people will notice & change their behavior. Russian Nihilists/Anarchists were instructed to kill only the good officials of the existing regime, & leave the bad & the stupid alone, so they could bring the regime into disrepute in the eyes of the majority. Boer commandos were instructed to avoid shooting British officers, because they would lead their troops to slaughter, due to their stupidity. Why kill an enemy who is doing you a favor? So must the Jews & Chinese see Bush II, whose Zionist madness urges him to seek "Armageddon" so as to bring on the "Anti-Christ", so "Jesus" will come again, blah, blah, &c. In saner times, one who is criminally-insane would be confined in an asylum, so the closure of asylums not only put looneys on the streets, but into The White House. As others have noted, American sheeple are asleep, & my motherly old sergeant warned: "Yer gonna sleep yer lives away!" Too bad he's not around to tell Americans to wake up, but if anyone can wake up the sheeple, it will be Bush II, in my opinion, with his worst efforts.

Politicians have repeatedly told me that the myopic & ruthless selfishness of the public must be seen to be believed. One went so far as to say: "In the USA, there is no public interest, just a Babel of private self-interests, reaching into the tax-payers' pockets!" It is unfortunate that the general practice in politics is to couch pernicious private interests in terms of the "public interest." This borrows a trick from the Jews who promote 'universalism' on behalf of tribalism. The Jews prate of "mankind" & "human beings," when they really mean themselves, & nobody else, least of all us Goy "cattle." Bush II is firmly in the Israel First/Zionist camp, & I have seen biographical evidence alleging that the Bush family are Jews by race, if not by religion. Even if Bush II does not consider himself a Jew, his loyalties to Zionism & to Israel are obvious.

Are soldiers also patriots? I say, yes, if they remain U.S. citizens & if they apply the U.S.-established Nuremberg Precedents at all times, during their military service. The USA required that all German soldiers filter each & every order they received through their consciences & the Geneva Conventions. If such orders failed to pass those filters, they were supposed to be disobeyed. Since the U.S. & its allies enforced these rules by hanging German soldiers for "obeying orders," we should behave accordingly. Bush swore to "defend the U.S. Constitution," but he has suspended the Bill of Rights, unconstitutionally. One cannot be a patriot & also fight for Bush & Israel. Sleepers awake! Your present & future are at stake, as well as your children's. It's time we learned the meaning of "self-government."
