

19 NOV 06. Hail Jason! Many thanks, indeed, for your letter of 14 NOV 06 & the great enclosure about the dancing jews of 9-11. I recalled hearing Netanyahu's slip of the tongue on the radio, so it is good to see it confirmed in print. Yes, 9-11 was "very good" for Israel. When a crime is committed, the first thing to ask is: Who benefits? Nutty Netty, who is a dual U.S.-Israeli citizen, sure let the cat out of the bag! Earlier, he had warned the U.S. State Dept. that we would suffer what Israel was suffering: terrorism from Palestinian suicide-bombers. The download reveals Mossad involvement in trying to implicate Palestinians in 9-11, but that didn't fly. Apparently, Mossad had other lethally-destructive acts planned in Jew Yawk Shitty for the same day, or thereabouts, like the bombing of key bridges &/or tunnels in the area. The U.S. State Dept. did not take Netty's warning seriously, as is obvious. There were no Palestinians to look out for, & we give the Mossad free access to the USA, so they can do whatever they like. Mossadnik Victor Ostrovski wrote in "By Way of Deception" that the Mossad refers to the USA as "the playground!" This means that they can flub the dub & always get away with it, as alleged for 9-11. Ariel Sharon stated that the rulers of the USA are firmly in Israel's pocket, so Mossad mischief will continue to go unpunished, under ZOG.

One possible advantage you may gain from your gulag's frequent lock-downs is that you will not feel homesick after you leave! That way, you won't want to return.

Thanks for any NSV Reports you care to send, but only when your comrades are done with them. I regularly receive White Voice from the RNPA, but Washington State zoggies do not allow White POWs to receive them, nor even to receive their White Christmas fliers, which say nothing bad about non-Whites, so I asked one fellow what do the zoggies hate, Whites? Christmas? What happened to our 1st Amendment? Some ZOG-gulags are more equal than others.

I understand that "Might Is Right" was written by an Australian, not by Jack London, as I first thought. It shows how society really works, as Veblen wrote in his "The Theory of the Leisure Class," which states that those who are least productive get the most, under our present plutocratic system (rule by the rich). The negative part of the book's message is that "Might IS Right" advises the man of ambition to join the crooks, rather than fight them. That's no solution to the White Man's problems! Unfortunately, I lent my copy to a reader who 'forgot' to return it. Maybe I'll learn not to lend books, one day. Burdi was promoting the book, which has an introduction by jew-Satanist Anton Le Vey alias Levy, so I'm not surprised that "Eric Hawthorne" so quickly sold out his race. "Might is Right" is a hymn to greed for wealth & power, so what else can we expect? When in doubt, sell out, is the creed it promotes. The Germans have a wise saying to contradict "Might Is Right": "It is better to eat from a clay pot, as a free man, than to eat from a golden plate, as a slave." When a reporter asked Rothschild bankster agent, J.P. Morgan, what he'd do if the poor came to get him. Morgan promptly replied: "I'd just hire half to shoot the other half!" That's why wars are the jews' harvests, for they lend money, which they create out of nothing, to both sides. That way, whoever wins still owes them money. Gentiles are willing to die for small things, as you say.

I don't know when the USA will leave Iraq, but I do know we will stay & die as long as the jews want us to, unless the Gentiles rebel against the ZOG, but as long as they become slave-thugs for 3 hots & a flop, as we used to say in the army, their dying will continue. Anyone who fights for ZOG & its kosher illusions is fighting against his race, be he White or non-White. That I do know.

I'll start sending you photocopies of "They Were White & They Were Slaves," by Hoffman, & I hope your zoggies will let you have them, after they've read them, of course. It's not a big book, just 137 pages. I'll see if I can find a copy of "Return to Spring Island" for you. It's on the Internet, so someone should be able to download it from [www.FAEM.com](http://www.FAEM.com). Ron McVan was betrayed by his female partner, "Katja Lane," who seems to be a real exploiter of trusting men, including her former husband. Hey, betrayal is par for the blighting, so beware of whom you trust. We can't even trust ourselves if we are into drugs & booze, so you are on the right course. All the best, & ORION!
