# Trader may have had knowledge of Sept. 11

25 MAY 02

THE GLOBE & MAIL  
BY PAUL WALDIE, TORONTO

A popular U.S. short-seller arrested on charges of insider-trading and racketeering may have known about the Sept. 11 terrorist attacks, a prosecutor in San Diego said yesterday.

Amr (Anthony) Elgindy, 34, called his broker on Sept. 10 and asked him to liquidate his children's \$300,000 (U.S.) trust account, Ken Breen, an assistant U.S. attorney, said yesterday.

Mr. Elgindy was arrested this week in California in connection with allegations that he used police information supplied by two FBI agents to short stocks over the past two years.

The agents and two of Mr. Elgin-

dy's coworkers have also been arrested. Some of Mr. Elgindy's trading was allegedly done through a Vancouver-based brokerage.

Short-selling involves selling borrowed shares in the hope of buying them back at a lower price and pocketing the difference.

Mr. Elgindy "made a comment [to his broker] predicting the market would drop to 3,000," Mr. Breen told a federal judge yesterday during a detention hearing in San Diego for Mr. Elgindy. Mr. Breen did not name the broker. (The Dow closed at 9,605 before the attack. It sank to around 8,376 in the two weeks afterward and has since rebounded to around 10,000.)

"Perhaps Mr. Elgindy had preknowledge of the Sept. 11 attacks. Instead of trying to report it, he tried to profit from it," Mr. Breen said.

Mr. Elgindy was born in Egypt and his brother, Khaled, is an active member of several Islamic groups including an organization that delivered humanitarian aid to Iraq in 1998.

His lawyer, Jeanne Knight, confirmed that Mr. Elgindy called his broker, but suggested the timing was coincidental.

"It seems like the government, for lack of factual evidence, has decided to smear my client with terrorist innuendoes," Ms. Knight told the court. "This is smacking of racial profiling."

A judge ordered Mr. Elgindy held without bond and said he was going to "disregard" the terrorism suggestions. There was no suggestion the FBI agents in question supplied terrorism information to Mr. Elgindy.

Mr. Elgindy ran Insidertruth.com (now defunct), a popular Web site for short sellers; AnthonyPacific.com (also not in operation), a subscription e-mail newsletter; and Pacific Equity Investigations, a San Diego-based company dedicated to stopping improper on-line investing.

Amr (Anthony) Elgindy in 1999. Federal prosecutors allege Mr. Elgindy got insider information from two FBI agents that he used to profit from short-selling stocks. Investigators raided his California home this week.

He gained a huge following on the Net for blunt commentary (he once called a company "an overinflated pig") and profitable stock picks.

Earlier this week, the U.S. Federal Bureau of Investigation raided his \$2.2-million mansion near San Diego, where they found tens of thousands of dollars in cash and gold coins. The U.S. Attorney's Office is also seeking a court order to seize Mr. Elgindy's Bentley, Jaguar and Hummer sport utility vehicle, along with money in bank accounts in the United States and Canada.

Douglas Garrod, president of Vancouver's Global Securities Corp., said Mr. Elgindy had an account at the firm for 18 months.

"He's not a big client, but he's a well-known short-seller," Mr. Garrod said yesterday. "We don't know anything about the subject matter of the charges, that's for sure."

He said Mr. Elgindy had other accounts in Vancouver, but he would not provide details.

"I do have some of that information, but unfortunately, I am not in a position to pass it on. Not because it's client confidentiality but for other reasons," he said.

The FBI investigated Mr. Elgindy last fall as part of a massive police probe into the Sept. 11 attacks. The Wall Street Journal reported Sources say he was cleared of any links to terrorism, but agents uncovered his alleged stock scam.

U.S. officials allege that in 2000 Mr. Elgindy began receiving information gleaned from FBI computers by Jeffrey Royer, an agent in Oklahoma. Mr. Royer resigned from the FBI in December, 2001, and joined Mr. Elgindy's company. In March, 2002, Mr. Royer allegedly recruited Lynn Wingate, an FBI agent in New Mexico, to supply the FBI computer information.

21 NOV 06. Dear Shappa! Many thanks for your letter of 15 NOV 06, in which you indicate that you have lots to keep you busy, even when you are confined in the ZOG-gulag. Most residents complain that they are bored, & have nothing to do.

I know your health matters give you lots to do, as I'm sorry to read, & family matters can be even more exhausting, mentally & physically. I've been luckier than most people in those respects, so I know when I'm well off. Good luck!

The RIP course seems aimed at instilling White Guilt in its guinea pig Goyim. The previous Victim Awareness Education Program was aimed at blaming Whites for everyone's ills, that is, scapegoating Whites. One RIP guinea pig mentioned that he was required to view films about Black males facing challenges. I understand that O.J. Simpson has just come out with a book entitled "If I Did It," in reference to his racist murder of his former wife & her jew boyfriend. He seems to be somewhat challenged, especially by the jew-boy's father, who pursues the 'poor Black man' for his every shekel.

Yes, the mind & the means of manipulating it are very interesting. ZOG-prop includes (1) Capture the Goy's imagination & (2) Fill it up with Zionist (jew-serving) illusions. Christinsanity did this very well. Dr. Oliver said it destroyed our mental immune systems, so we can fall for any other jew-scam, illusion & bogeyman, as our behavior reveals in Iraq, for example, where our slave-thugs die on behalf of "democracy", which does not exist in the USA, & has not existed, historically, except, maybe, in the Viking Things or popular assemblies. Even the New England town meetings were plutocratic (ruled by the rich) & not democratic (ruled by the majority). One old socialist said that it was impossible to have a political democracy without an economic democracy. That is certainly true! I seem to recall Plato stating that democracy becomes plutocracy when the rich can buy votes, as they buy candidates in U.S. elections.

I scanned "The Black Sun," but I took it with a grain of salt, in view of a jew's previous book on Hitler & the "Holy Lance," which are both "hidden down in German Antarctica," according to the author, Tawani Shoush. I have read lots of factual & speculative material on such things as Hitler's escape, Nazi UFOs, Nazi A-bombs & Nazi Antarctica. As for Hitler's alleged death in 1945, the more I have read, the more doubt I have. According to U.S. jew ambassador, Averill Harriman, Stalin told him that Hitler had escaped via Spain to Argentina, as if it was no big deal. In 1947, Admiral Byrd's massive Antarctic Expedition, "Operation Highjump," was called off prematurely for 'unpleasant reasons'. Byrd babbled to Chilean journalists about, "They're down there. We must blockade the poles. Nuke Antarctica" &c. Such statements were reported in El Mercurio, as I recall. When Byrd returned to the USA he was confined in Bethesda Hospital & when he came out, he said nothing about his last expedition, as I understand. I knew Thies Christophersen, the Auschwitz agronomist in charge of the Russian dandelion plantation, which provided the small quantities of natural rubber necessary for the German Buna S formula, which made rubber out of coal. The USA stole the formula, so virtually all of our rubber is made from hydrocarbons, in this case, from oil, rather than coal. Leuna was the German plant for making oil from coal, which is the process used in South Africa's Sasol I & Sasol II plants. "Black Sun" claims that Auschwitz III, that is, Monowitz, was used to make atomic bombs. Monowitz is still Poland's largest chemical plant, as I've been informed, so the existence of nuclear refining equipment, uranium enrichment processes, &c. should be easily detectable, IF any existed. There should be traces of radioactivity, as at our local nuke museum at Hanford, WA. One German acquaintance said that the 3 bombs used by the USA were of German origin, captured when German territory was invaded in 1944. The 3 bombs used the same explosive principle, as I understand, but they all looked different. That is a German characteristic, for USA-USSR items for the same purpose usually look the same, & are copies. "The Black Sun" seems well-designed to give jews a bad case of heebie-jeebies, if nothing else! I learned from a British source that Combat 18 was infiltrated & sabotaged by Harold Covington, although it may have been a Brit-zog-op to begin with, as was Canada's CSIS-sponsored "Heritage Front," & the current "NW Pioneer Army" whose P.O. Box is in Nanaimo, B.C., China-duh. It's funny that I've had so much to do with subjects mentioned in "The Black Sun." I even knew Dr. Arthur Rudolph, Werner von Braun's NASA colleague, at whose immigration hearing I assisted, in his defense, after he was stripped of his U.S. citizenship at the behest of the jews' OSI which persecutes anti-Communists of the World War II era in North America, under 'our' Dept. Of Jewstice.

I'll send this off a.s.a.p. Take care. ORION!
