RE:Policies

The Unit Policies will be enforced

If you have not read the unit policies, now would be a good time to do so.

Do not get caught being stupid in a "No Stupid Zone".

The 3rd floor is a "NO Stupid Zone".

22 NOV 06. Dear Michael: I'm sorry to hear about your persecution at the hands of the zogies, & I shall forward all materials, including copies of our correspondence to John for action, as you requested. As you say, E-mail would be best for contacting your gulag authorities.

I also appreciate your description of your Devil's Island-style solitary confinement in this ever so humane Zionist 'democracy'. We who read of such dungeon confinement in romantic novels cannot understand the grim, squalid, prolonged reality, for our reading is conducted in comfortable surroundings, with snacks, &c. We need only put the book down to end our imaginary confinement. This is like 'experiencing' warfare on a video game, minus the grit, gore, terror & pain. Your gulag experiences are of great value for those on the outside, for they can happen to anyone under ZOG. The sheeple simply do not know.

Recent warnings appear from various sources, including the Internet, of the jews' plans to eliminate the USA as the last Zionist Occupied Country with freedom of expression, so we will join the other kosher countries with thought-crime laws, like Europe, Canada & Australia. The Orwellian scheme is directed against "hate-speech." In practice, this means any speech which jews hate, even if jews are not mentioned. As Orwell wrote: "Who defines controls." Although the thought-crime laws & subsequent "hate laws" are general in their wording, they mean just what jews intend them to mean. That's how they are enforced. One group of Christians fears that the biblical injunctions in the Old Testament will be made illegal. They will be made illegal, as in Canada, but only for Goyim. Bush I declared that "the Noahide Laws are the basis of civilization." This means that Goyim will be forbidden to worship the jews of their choice, & also forbidden to quote the jew-book passages they may deem important. For sane Goyim, the issue will be that we can no longer question historical events, nor government policies, nor incumbent politicians, unless we don't mind being arrested for thought-crime. Der Tag is allegedly scheduled for January 2007, when the Democrats take office. I caution people that such warnings are often erroneous, as the many warnings broadcast on the 'net about World War III beginning in April or May of 2006. We hear cries of "Wolf!" so often that we are lulled when the wolf finally does appear. However, I pass this news along, for what it's worth, since it is not being reported on the mainstream jewsmedia, & I don't receive B'nai B'rith/ADL publications.

It is said that knowledge obliges the knower to pass it onto others, for "a people is destroyed for lack of knowledge," to quote the jew-book, more or less, as I recall. However, we have no obligation to put knowledge in the snouts of sheeple who do not want to know &/or who just don't care. I have lived under Big Brother before, so I shall cease & desist expressing my thoughts if or when the ZOG passes its projected thought-crime legislation. I have never broken the laws of any country, although that has not kept me out of jail cells in many countries. **In fact**, I have never been charged with thought-crime. Mere suspicion was sufficient in those days, with or without thought-crime laws. If ZOG defines a reporter as a 'spy', then the journalist is treated like a spy, especially if he has no kosher capitalist to back him up. After all, no Big Brother can afford to have little Goyim exercising their freedom of inquiry, for they might learn what is going on! Worse yet, they may even tell other Goyim; even that does not matter, for the most part, no matter how important the information may be. Most Goyim cannot see farther than the bounds of their feed troughs, & they have no wish to see. If they don't care, then neither do I. It does appear that we have become what the jews call us: cattle, beasts of the field, &c., for that is how so many of us behave. I mention this fact not to discourage people, but to correct their behavior, on behalf of their own survival. I just feel as if I've been preaching to the Elohi in their rush to the "air raid shelter," & the hungry Morlocks.

Meanwhile, I shall continue to tap out S.O.S., C.Q. on the USS TITANIC. I understand that ice cold saltwater can be 'bracing'. DCWZ! & ORION!

Eric
