

'DIGNITY'

It's What Niggers Claim Is All They Really Want

Stop the racial slurs, performers urged

Rappers included in new push by blacks

LOS ANGELES — Black leaders Monday challenged the entertainment industry, including rappers, to stop use of the racial slur that Michael Richards uttered in his tirade.

The Rev. Jesse Jackson and others said they will meet with television networks, film companies and musicians to discuss the "n-word."

"We want to give our ancestors a present," Jackson said at a news conference. "Dignity over degradation."

Jackson also asked the producers of the television season 5 that was released last week.

Richards, who played neighbor Kramer on the hit show "Seinfeld," was heckled during his tirade at the West Hollywood premiere.

Richards, in his tirade, said he was "a nigger" and "a f---in' nigger."

was motivated by anger. Richards, appearing on Jackson's "Keep Hope Alive" show, said he knew his comments hurt the black community.

He told Jackson he had not used the language before.

"That's why I'm shattered by it. The way this came through me was like a freight train. After it was over, when I went to look for them, they had gone. And I've tried to meet them, to talk to them, to get some healing," he said.

Richards noted that the racial epithet he used is frequent in the entertainment industry and acknowledged that it could have consequences.

"I fear that young whites will think it's cool to go around and use that word because they see very cool people in the show business using that word so freely," he said. "Perhaps that's what came through in that ... the vernacular is so accessible."

Michael Richards, left, has made several apologies; the Rev. Jesse Jackson calls for "dignity over degradation."

At Monday's news conference, comedian Paul Mooney said he has used the "n-word" numerous times during stand-up performances but will no longer do so after watching Richards' rant. "He's my Dr. Phil," the black comedian said. "He's cured me."

Rep. Maxine Waters, D-Calif., charged that only situations such as the Richards incident turn mainstream media attention to issues involving the black community.

"This is not simply about whether or not the black community forgives or forgets; this is about understanding that this is pervasive, that this happens in all of our institutions, one way or the other," Waters said.

But dignity and respect has to be earned. It is not earned by demanding everything be handed over to you on a silver platter.

If Niggers really want to earn respect and dignity let them return to Africa and build up their own country like our White forefathers did to this country. Let them create their own society, their own infrastructure and their own civilization and culture.

To be honest, we don't think they can. They don't have the guts or the genius. Even they know this is true, which is why they cling to the White man's trousers instead of embarking on a perilous and challenging journey like the White pioneers did on this continent.

Instead, all they want is to take from us and make more and more demands, and that is why they'll always be 'Niggers' and no amount of ill-placed goodwill, multi-racial propaganda, cosmetic makeovers or semantics can or will change that.

5 DEC 06. Hail Jason! Many thanks for your letter of 27 NOV 06. Here's wishing you a Yule which is both White & Bright. Brownest Yakima has a nice blanket of cold White stuff, & it's racist, for the Mexicans appear to be out of sight, most likely pumping out more welfare spicklettes. Even their automobile traffic is reduced, seemingly, by the cold weather &/or the high price of fuel. I'm glad you have people outside the ZOG-gulag who supply you with reading material & opportunities for you to share your creativity. Unfortunately I've not heard of Volksfront, but everyone is welcome to download & publish all my writings. I understand they appear on VNN & www.FAEM.com. It's good to know that people enjoy my two shortstories, "The Awakening" & "Return to Spring Island." I enjoyed writing them. Thanks, as always, for your S.A.S.E. They come in handy!

Thanks for the Stormbird Press address. I'll pass it on. Beware of Covington. He has crossed the zogline from liberation fiction into open advocacy of what he imagines. So far, he has done what ZOG needed to arrest The Liberty City (FL) 7: If a ZOG agent-provocateur advocates illegality, such as armed secession & other 'terrorist' activities, those who read his words or hear them are guilty of "terrorism" & "co-conspiracy," if they do not denounce the ZOG-agent to the ZOG. Rockwell, Stoner & Pastor Miles were victims of such zoggies, who actually committed the crimes about which they blabbed to their incredulous listeners. I was with The Western Guard Party in Soviet Canuckistan to witness its destruction by a ZOG agent-provocateur, for the same statements & actions. When the hebes impose the same thought-crime laws upon the U.S. sheeple as exist in Zionist Occupied Canada, Europe & Australia, any expression which the powers that be hate is deemed "hate", & is therefore a crime. The jews lament that the USA still has a 1st Amendment, but, come January 2007, indications are that they will make a concerted effort to ram their thought-crime, i.e. hate laws, through a compliant Congress. Sheeple claim "it can't happen here," just as they did before such laws took effect in Canada alias China-duh. It appears that the USA is the last English-speaking country to enjoy freedom of political expression in print media & on the Internet. I learned of this Orwellian attack from a Canadian source & from truthtellers.org. I asked a local newspaper reporter if she had heard anything about it, & she said she had not. After all, her job is supposedly to report news, & this item would sure be news! The law states, officially, that "truth is no defence." In Zionist Occupied Europe et al. defence evidence is deemed 'criminal,' & your attorney can be arrested for attempting to present such evidence. The Zud is a conman & a shekel-grubber, so he is exactly where he belongs. If the U.S. thought-crime laws are passed, his Yiddessa from Odessa alias Rimland will be as guilty as her hapless husband. ZOG willing, they might become cellmates. As for me, I shall retire from my attempts to spread Truth, on behalf of Freedom & Justice, & hope that the new jew law does not become retroactive. I have spent decades in my efforts to lead Gentiles to knowledge, but you cannot make them think. Truth frees no one, if it goes unheeded. I have lived in dictatorships & banana republics, so that experience prepares me for such kosher calamities. Big changes are in store for us.

When William the Conqueror defeated the Saxon king at the Battle of Hastings in 1066, he pulled a clever trick which few Goyim have noticed: Harold was "King of the English," but William called himself "King of England." Thus Nation was sacrificed for territory. The USA was never a nation, but always an empire, subordinate to the Bank of England & its minions. The idea of Manifest Destiny which sought to incorporate territory, along with the racial aliens thereon, was politically & biologically detrimental to Whites, who outnumbered Blacks as slaves. See "They Were White & They were Slaves" by Hoffman. If I recall correctly, Wellington was informed of the U.S. invasion of Mexico, & he opined: "The U.S. will conquer Mexico & be destroyed." We postponed our racial destruction by refusing to annex all of Mexico, but we willingly allow the Mexicans to annex the USA, which they call The Reconquest. They even call the USA "Aztlán." The Rothschild rulers of the former British colonies always wanted to rule a multi-racial empire in The Western Hemisphere, beginning with a politically unified North America: A North American Union of Mexico, Canada & the USA, as Bush et al. desire. The outbreak of civil war in Mexico may bring this Union about. I tried to point out that political union starts with economic union, as in Europe. De facto, we already have a demographic & economic union, so all that remains is de jure political union, as the USA dissolves under Zionist Globalism. A Mexican president declared: "To govern is to populate," & he was not referring to over-populated Mexico. Neither the USA nor the Confederacy were worth one drop of White blood. I've heard English people say, "There'll always be an England," but I ask them if there will be any English thereon, in another century. Their silence is most informative. All the best & ORION!
