

15 DEC 06. Dear Michael: Many thanks for your letter of 5 DEC 06 & the 3 enclosures, which I have processed as you requested: Copies for you, me & J.W.G.; originals to Mr. Agar. I congratulate you on your competent handling of all these matters which relate to your health & freedom as you pursue justice in Zogland. What a tedious quest it has been! If I have nothing else to do, I also enjoy being useful to others, as long as they do not consider me a patsy whom they take for granted, as a couple of fellow residents tried to do. They figured that I was retired, like them, so I had 'nothing but time,' which they felt was theirs! Hence, they had no hesitation in banging on my door whenever they felt like it, asking me to help them in their perpetual-motion furniture-moving, &c. I politely & firmly drew their attention to the fact that I had interests which were important to me & had 1st priority on my time & activities. One Jew even derided my limited means of being a good citizen who actually exercised his freedoms & obligations under the U.S. Constitution. That was unheard of! Well, freedoms are best defended by their exercise. That's why my old comrade, Robert Frens, entitled his website FAEM, for First Amendment Exercise Machine. As you noted, one can defend his own freedom by defending the freedoms of others, in a society which recognizes precedents. If I were in your situation, I'd do as you do, & I'd hope that I could do it half as well.

One self-centered geezer asked me what I did that (supposedly) kept me so busy. I said that I conducted international correspondence. He repeated those words, with a sneer, to indicate that I was exaggerating. I asked him to turn around & look at the wall with all the pigeonholes for correspondence. I said: "The leftside is USA; next to it is Canada; next to that row is Europe, & on the right are Australia, New Zealand & Africa." He saw, he frowned. He shut up. Informing myself & informing others is a full-time job, which has kept me busy for almost 50 years. For 67 Years, I have been busy informing myself. Part of this job upsets the ZOG, & it has resulted in my deportation from 5 countries, beginning with the Jewnited States, back in 1969, & the destruction of my academic career by ZOG. One blightwinger says that I am a "failed academic." If gaining useful knowledge is the price one must pay for losing a career as liar-for-hire, then it was worth it, to me! The same blighter claims that I am or have been "too close to the ZOG to be reliable." Indeed, I have been very close to the ZOG, especially when I was handcuffed to an FBI agent.

Solitary confinement is cruel & unusual punishment, unless it is requested by the prisoner. The kindly old Cheka/Ogpu/MVD/NKVD/KGB/FSB of the Soviet Jewnion recognized that it was, so they'd watch the prisoner for signs of mental derangement. If they wished to keep the prisoner sane, they'd put him with other prisoners. I read the autobiography of a German prisoner whom they wanted to denounce his boss, Dr. Goebbels. They studied him & he studied them, quite similar to your "RIP" course technique. The man, who'd been a secretary to Goebbels, said that the commie Khazars always held out hope. Hope was their lever for prying out a useful 'confession.' The hope was that if the prisoner only covered a minor spot for the yids, his release could be 'processed.' If one covered several such minor spots, his testimony was interpreted to support a kosher concoction of allegations which the prisoner could not have imagined! This talmudic interrogation technique was also described by my favorite Hungarian Jew, Arthur Koestler, in his book, "Darkness at Noon." Soon after he revealed the truth about the Khazar converts to Judaism, "The 13<sup>th</sup> Tribe," he & his wife were found 'suicided' in their London apartment, as I recall. Khazars are not Semites, just because they have a Semitic religion. Arabs are Semites, the only Semites. Islam is a Semitic religion, as is Christianity, but most Moslems are not Arabs, & are therefore not Semites, either. Few Christians are Arabs, so the Jews consistently misuse the term, "Anti-Semite." If I convert to Confucianism, a Chinese religion, that does not make me Chinese, so I have no right to call real Chinese "Anti-Chinese," because they don't like me. To call an Arab an "Anti-Semite" is an example of the Jews' struggle against reality. "The Life of Brian" refers.

It appears that your zoggies are robbing themselves of a good asset by abusing you. What ever became of trusties, prisoners who were assets to their prison & fellow prisoners, rather than liabilities? Do your zoggies get their jollies by persecuting men of good character? That would be very kosher, since Judaism prescribes the persecution of the innocent on behalf of the guilty, by scapegoating. Maybe you have been confined in a yiddisha talmudshul, instead of a lawful prison! Your example of grace under pressure must be educational for everyone, zoggies included. We are all students & teachers, so those who pay attention can benefit. Knowledge is a Jew's nightmare, for it is not a thing which can be traded. The

2) knowledge I get from you is still yours, & the knowledge you get from me is still mine. In Black Africa, Blacks complain that the Whites stole their knowledge by stealing their artifacts, hence, no Black wheels nor sails! I can understand how one can lose an object, but how does one lose an idea? Blacks claim that Whites stole their highly-advanced Black civilization, which must have been unique, since it had no basis in ideas, just things. I have visited the pyramids of Egypt, rode a camel to The Great Pyramid & entered The Queen's Chamber; explored the ruins of Zimbabwe in the legendary vicinity of King Solomon's Mines. In Cairo, our tour guide told us that we were now standing before The Sphinx. He asked me why I kept looking up. I said I was watching for The Sphincter which had excreted The Sphinx, so I could get out of the way, in case it dropped another one. This guide stopped speaking to me when I commented, upon entering The Queen's Chamber, that it was awfully nice for The Queen to allow us into her intimate quarters. The Egyptian guide said, solemnly: "The Queen is dead!" I said I was sorry to hear about it. Hey, try to be nice, & see what you get. He later tried to sell me an Egyptian postcard, but was offended when I offered to sell him a French postcard instead. He said, "No, effendi!" I replied: "Well, I'm not offended, either." Well, we went to dine at The Cairo Hilton & came away with virulent cases of "Gyppo Tummy," which makes The Aztec Two-step seem like mild indigestion. A generous Japanese doctor supplied us with his latest anti-dysentery pills, & we, who were about to die, soon viewed life as worth living, in short order, as we steamed through The Red Sea on our ship, the S.S. Vietnam, a former French troopship which saw service in the Indochina War.

I appreciate your appreciation of my confirmation of the knowledge you would have discovered, eventually, but why not discover what you need to know sooner, rather than later? One thing which does not become obsolete is Truth, which merits our widest possible circulation, & is important for everyone, especially those who hate it. B'nai B'rith's ADL is attempting to impose the same thought-crime laws in the USA as exist in Soviet Canuckistan alias Canada alias China-duh, in which it is stated that "Truth is no defence." Zionists define Truth as "hate." Orwell noted that "Who defines controls." He also observed that "Tyranny begins with the abuse of language." P.C. is the equivalent of Newspeak, the p.c. language of "1984." As you say, we, on the outside, should encourage our activists on the inside. Secrecy is the ally of the Dark Forces, so we need people like you to expose the otherwise unknown abuses practiced in our ZOG-gulags, just as we needed to know what was going on in our ZOG's Iraqi prison, Abu Ghraib. Those who obtain knowledge are called "enlightened," for good reason. This is why we must throw more light into the ZOG's darkness, for our own good, on behalf of Truth, Freedom & Justice. Zoggies must know that their alleged ignorance of what occurs within their purviews, for which they receive their salaries from the tax-payers, does not get them off the hook of accountability. After all, we hanged a Japanese general because it was his responsibility to know exactly what Japanese troops were allegedly doing in his jurisdiction, even when he was pinned down in his bunker with no means of communication! Imagine how lame your zoggies' excuses would be before a serious human rights tribunal. "Obeying orders" is no excuse, either, as we showed at Nuremberg. When the tables have turned, as they usually do, good deeds, as well as bad deeds, are put into the balance of Justice, & one's fate depends upon the scale. Even guilty minds have consciences which serve to warn them of such possibilities, for ZOG policies can have but one outcome: civil war, here on the homefront. I do not advocate it, but I see it coming, based on my studies & experience, & I'm not the only one who sees it. A North American Civil War is not a matter of IF, but WHEN, as our ZOG pursues its malevolent intentions.

The contradiction in your zoggies' depiction of you as some mighty-manipulator becomes obvious: How are you capable of such alleged feats in view of your consistent confinement & mistreatment? ZOG amputates your legs, then accuses you of kicking people! Everyone must find your example as very instructional. ZOG reveals itself in its mistreatment of you, so you are the teacher for everyone. Keep up the great work! DOWZ! & ORION!

P.S.: Are those "Russian" prisoners Khazars, by any chance? Russia's mafiya  is kosher throughout. Black males behave around White males as they do around White females: Whites who get close to them get raped. It's like getting close to African crocodiles. Don't. White parents who do not protect their young are devolutionary facilitators of degeneracy, like animals who do not protect their young from predators. Dr. Albert Schweitzer warned: "Treat Blacks as equals & they will devour you." I've lived amongst them in Africa, & distance is one's protection. The same rule applies outside Africa. Behavior learned by experience is not prejudice.
