

22 DEC 06. Hail Jason! Many thanks for your letter of 15 DEC 06. Yes, the YID-lids are still poking up all over Brōwnest Yakima. I'm surprised the local sheenies do not de-nounce them as "hate," since everyone can step on them. Oy veh!

Thanks for your attempt to justify "JOG" versus ZOG. The jews would be ineffective without their Gentile traitors who serve them. A Zionist is a jew-supremacist who is often not a jew. Zionists declare themselves as such, openly. Churchill said, "I am a Zionist," back in 1945, as I read. Our persecutor, Attorney General Roy McMurtry of Ontario, Canada, announced that "I am a Christian Zionist," complete with a sheenie-beanie, on the steps of a Toronto synagogue. Zionists are not just evil jews, but their evil Gentile stooges. As shabez Goy frontmen, they are our foremost oppressors. A jew occupation government can only be occupied by jews, so I stand by my description. ZOG is widely-recognized by Zionists & anti-Zionists alike. I'm not worried about where jews will go. I just want their jew-serving regimes off our backs. I suspect "JOG" represents a typical blightwing penchant for ego-fuelled disunity, in which we lack both Selbstbild & Feindbild (our picture of ourselves & our picture of the enemy). JOG was also supported by Idiot Identity cultists who deem themselves the "true jews," for whom Zion is a 'holy' word. I go by what people say about themselves: if a jew says he is a jew, I accept that, & if a Zionist (Israel-firster; jew-supremacist) says he is a Zionist, I accept what our enemies call themselves. I do not believe that we should concoct our own esoteric terms to describe our enemies, so as to avoid confusing those whom we seek to convert to our way of thinking. Propaganda is not what we like. Propaganda is what works. ZOG works; JOG does not. If I'd seen a JOG oppressing us, I'd have said so, but I see too many Goyim doing the jews' bidding in 'our' governments. In biological terms, a White racial enemy is no better than a non-White racial enemy. A White slavemaster is worse than a jew slavemaster, because Whites tend to trust one of their own, as the Boers did, to their cost, in South Africa. I know that "JOG" may be a dogma of COTC, so carry on, but don't be surprised if people wonder what you mean. ZOG is deemed "Nazi propaganda" in Canada, so it is officially banned as "hate speech." JOG lacks impact, so it is still 'kosher' in Canada.

ORION has not the bellicosity of RaHoWa, which ZOG is likely to deem "hate speech" as soon as the ADL gets the federal "anti-hate laws" it wants, so COTC's declaration of war may be deemed as "terrorism," for our ZOG treats words as punishable as deeds. The Anti-Zionist Alliance makes use of all people who want freedom from the present power of Israel & their Zionist minions, but allies are not kinfolk. That is no reason why we should not work with them, to the extent they work with us. Politics is the art of the possible, so we should use effective means to reach our goals. The concept of one's race being one's religion would justify Ben Klassen's inclusion of non-Whites in his COTC, according to former COTC members who worked with him in Otto, NC. Race is biology, not theology, despite those who think there is a "Christian race."

As you say, jews hate us because they are jews & our own people hate us because they are Zionists, who want to serve the jews against us. I understand that Matt Hale took refuge on an Indian reservation before his arrest. How could he do that, as a White man? I certainly could not hide out on our local Indianland, for I'd need their permission, which would be denied to a White Nationalist, as soon as they found out my affiliations.

Thanks for the caution on the first depleted uranium article. Apparently, other articles allege the same things, but come from other sources.

Yes, I think it was Wellington who may have said that "the USA will conquer Mexico & be destroyed." It was Cornwallis who predicted to Washington that we'd be back under the British Empire (Bank of England) before we knew it; that we'd destroy our nation in a 'holy war' & that our religion would be Judaism, but we wouldn't know it (the kosher tax on goods in interstate commerce).

No, I never count us out in our struggle for racial survival, but first, we must decide that we want to survive as Whites. This appears to be our foremost problem. We sure live in exciting times. Good Yule, Happy New Year & ORION!
