

8 JAN 07. Dear Steve! Happy New (jew) Year, & many thanks for the latest issue of STORM. I'm glad to read that you & yours are receiving my mail. I also understand why you write your letters on the outside of your envelopes, for I recently heard on Internet radio that our ZOG sees fit to open all mail without search warrants, as in the past. Still, I prefer not to have my messages obliterated by cancellation ink, as happens frequently to return addresses in the USA. So far, your messages have arrived legibly. Thanks for informing me that you find the enclosed stamps of interest. In ancient times, used postage stamps were enjoyed by collectors, but I like to use them as teaching aids so children can learn geography. A postal clerk asked me about "Geebung." I 'explained' to her that Australia is in the Southern Hemisphere, where seasons are reversed, so that's how they spell "bungee." She seemed to look skeptical at that statement. I told another that Australians are known for their beer-consumption, & that bungs are used to seal beer kegs, so when Aussies step on stray bungs & lose their footing, they traditionally exclaim, "Gee, bung!" I suspect that foreigners who are accidental bung-treaders just say, "Aarrgh!" or "Aaaiiiee!" as they fall. I added that many Aussies are of Irish origin, so they tend to be poetic in their expressions. I was told years ago that one can easily prove that one is Irish: Lock him in a bare room with a writing table, lots of paper, pens, &c. & a large bottle of whisky. Check him around noon the following day. If has not composed a work of literary merit & passed out by that time, he is no Irishman! Here's to barley & blarney. A Rhodesian hotel manager told me that there were rules against public drunkenness, as clinically expressed in this formula: "He is not drunk who from the floor can rise again & drink some more, but he is drunk who inert lies & cannot drink & cannot rise!" He said that his enforcement was even more rigorous: If a customer, in attempting to rise from his table, overturned both chair & table as he fell to the floor, the waiters were instructed not to serve him for an entire hour. I therefore complimented him on his heroic defense of sobriety. "You are bung on," I said. "Gee, thanks," he replied.

Yes, the war against Whites has its vanguard of anti-White Whites, who reveal themselves by their non-White offspring, which they display with a mixture of defiant righteousness. Were I a genie, I'd willingly waft them to wogland or Africa. On the 'plus' side, Whites may have to see themselves as a besieged minority before they realize what & who they are, & that **surrender = suicide, not self-defense**. So far, all we see is White Flight, but Whites are not dying out fast enough to escape the Mud Flood, & where there is life, there is hope, as some have said. Obviously, we shall see great changes within our own lifetimes, as we are seeing now. Incidentally, I had no intention of fleeing Rhodesia. I was deported for pro-White activism by Ian Smith. I understand that former Rhodesians now live in various lands of the former British Empire, where they have their little clubs. I knew the 3 types of Rhodesian Whites: Those prepared to fight it out; those preparing to bug out, & those preparing to sell out. Many of the sellouts discovered that they'd best bug out, including the jew promoters of Black Marxist Misrule, such as the infamous Harry Oppenheimer, who fled South Africa for London in the Land of Uk.

Thanks for including the report on the political persecution of J.G. He provides a current example of the likely fate of many outspoken Whites in the Jewnited States, if the Zionists achieve their "hate-speech" (thought-crime) laws on the federal level. That's why many pro-White & pro-Freedom activists are downloading all they can from the Internet, in case it is shut down by ZOG, as has occurred in Canada, Europe &, as I understand, Australia. People living in those countries can be prosecuted for attempting to log onto U.S. websites which are deemed to purvey "hate," i.e. anything jews hate for others to discuss. Moreover, "Truth is no defence," as I have read in official Canadian trial transcripts from so-called Human Rights (sic) Tribunals. There is no limit to "hate," which may be extended to include what others call "love." Even expressions in English, as opposed to some other language, may be classified as "hate-speech."

The writings of Chinese military strategist, Sun Tzu, should be read by all Whites, so they can recognize such ploys as subverting old White fatcats by use of young Chinese females, & by bribing White politicians to sell out their own people. Goy parents largely fail to confer survival skills on their young, unlike animals, whereas jew parents pass on their predatory skills to their young, so they can gull & gut their ignorant Goy victims. Yes, we have lots to do & very little time in which to do it. All the best. DOWZ! & ORION!
