Dear Mr Maynard

## REQUEST FOR MR MANDELA TO INTERVENE ON MR ZUNDEL'S CASE

We acknowledge with gratitude receipt of your letter dated 13 November 2003.

Unfortunately Mr Mandela cannot reply to your request, as he is not in the office busy writing his book and has to complete the book within a certain period of time.

Mr Mandela has asked that I send his best wishes to you.

Yours sincerely

John Samuel  
Chief Executive

27 FEB 07. Hail Ron! Many thanks for your 2 mailings & your letter of 26 FEB 07. The 'historic' document on Matt Koehl is sure a bit of blightwing bumbling & back-biting, a tribute to Ego Über Alles. In my rummaging through various papers, I came across a now defunct letterhead for Rick Cooper's NSV Report. Cooper & Covington both launched a campaign of 'exposure' & denunciation of Koehl, but Koehl took the money & ran, after selling Rockwell's old H.Q. in Arlington, VA. Koehl made substantial profits from real estate, including the house which Joe Tommasi donated to the NSWPP. The Zud may have scammed more zogbucks than did Koehl, but living in solitary for another 5 years with mucho dinero may not be such a good deal, especially if one's jewish wife is spending it on herself & her pet race-mixing projects.

Holohoax Revisionism is the domain of anti-white, pro-race-mixers. The anarchist adulterer, Bradley Smith, the jew, Mark Weber, & Zündel, + Toben, as I understand, want to divorce revisionism from Hitler & White racial interests. This, aside from eternal ego, is one reason my revisionist writings have been banned by the race-mixing revisionists. I asked Bradley Smith to explain why National Socialism is 'bad', if there was no Holocaust. He spent the afternoon mumbling into his taperecorder. Weber wanted to "denazify" revisionism, in his own words. Now, this group seem willing to admit a wee dab or two of support for the Holohoax in terms of "jewish suffering." As Joseph Ginsburg declared: "Jewish suffering was nothing, compared to German suffering!" He was a jew & he was there. He noted that much jewish suffering was inflicted by the Zionist gangsters who founded Israel, & who worked closely with the Nazis. He calls such jews "Zion-nazis," in his writings. Revisionists need to research (1) Nazi-Zionist collaboration & (2) Nazi-Communist collaboration following the Hitler-Stalin Pact of August 1939 to June 1941. This pact made Commies allies of the Nazis, hence the sabotage & labor strikes in North American war industries, & I strongly suspect, the fall of France in 1940. Anyone who thinks WW II was a simple matter of black & white is a victim of propaganda, which continues to spew from the jews-media in much greater volumes than during the actual shooting war. Most of what we 'know' about events subsequent to the official end of WW II are Zionist lies & disinformation, designed to goad & gull the Goyim into serving jew-bankster-gangster interests. The number of gullible Goyim sacrificed in Bushy's 'holy war' in Iraq prove my point.

I'm sorry to learn of your disappointment following your former friend's visit. As I see it, friendship is a functional relationship: the more shared functions, the stronger the friendship. If one's bond of friendship rests on one item, only, that item must be of great importance, indeed, to sustain friendship through life's many changes & challenges. Most sheeple mistake shared consumption & physical proximity for 'friendship', especially if it occurs for a year or more. Perhaps sheep which graze together find comfort in companionship, but I've never seen a sheep risk its life nor comfort on behalf of other sheep. Most Americans resemble sheep in many respects, except that real sheep are more honest. I say "Bah!" to that. Theft is disrespect, & disrespect is not a sign of friendship.

That cult of the 6-pointed Death Star combined with the Swastika is a real hodge-podge of adulteration. Another kook-cultist promotes his phantasmagorical pantheon of Norse & Semitic gods. Maybe he has included some more, such as Hindu & Voodoo deities, by now. Such inner diversity would likely generate inner conflict, for even the jew-book warns that no man can serve 2 masters, let alone a pantheon thereof. That would be like a king trying to serve a mob of feuding anarchists. To paraphrase Frederick the Great: He who would achieve everything achieves nothing. The same approach to food would likely cause indigestion, & that would be a real holocaust, which may cause one to yearn to become a bar of soap or a lampshade. Oy veh!

Hmmm, proper cat disposal is fraught with religious significance. I understand that the ancient Egyptians thought so highly of cats that they mummified them, & interred them with their jewelry. I understand that funerals in flaming longships may be impractical in land-locked areas. Obviously, it's up to you. Please give Jamie my best regards.

Meritocracy is certainly essential to racial survival, which is why our own rascals work with ZOG to prevent it. All the best & ORION!
