

WANT TO END WAR IN IRAQ? END ASSISTANCE TO ISRAEL.

War for Iraqi oil is a myth. Saddam Hussein was not restricting Iraqi oil. But Saddam Hussein was the most dangerous enemy of Israel in the region. Coincidence? The war was planned a decade in advance by men like Richard Perle and Paul Wolfowitz. Coincidence? Alliances are made for *mutual* benefit. Israel is no benefit to America. It is a liability. Its political operatives in AIPAC have dragged America into an unnecessary war. Israel does not deserve American aid. Write your congressman today to end all assistance to Israel.

2 MAR 07. Dear Tom: It was great to receive your letter of 25 FEB 07, with your cogent comments & informative insights. I like that slogan: "Nothing goes right 'til we go White." Diversity is our blight.

Orwell stated that "tyranny begins with the abuse of language." So-called aristocrats are most often the products of privilege & inherited wealth, rather than merit, so they don't deserve to be called aristocrats. Nowadays, sheeple refer to the rich rascals as "elite," because they are on top of our plutocratic, kleptocratic society. Once again, "elite" includes "superior," which also refers to merit. Our rulers are not on top of our society because of any merit, nor superiority, but because they are scum. Scum rises to the top in a corrupt society, as well as in a cesspool. We should refrain from using the enemy's propaganda, for Orwell also noted that "who defines controls." Otherwise, we appear to be denying our "elite" their moral & material dues, which is certainly untrue.

It is true that the wrong man using the right method will produce the wrong results. Ernst Zündel was indeed the wrong man to lead a pro-White Cause, as results prove. He got donations under false pretenses & bugged out with his ill-gotten boodle. He thought he was fleeing to safety, but he ran right into a ZOG trap, which was apparently prepared for him. He has been sentenced to 5 years for thought-crime in Zionist Occupied Germany, so he may use this opportunity to reflect upon his folly of ego, lust & greed. One journalist wrote of him that he may now be a "legend in his own mind."

Perhaps "Usrael" has been set up for a great fall by the jews, as Imperial Russia was set up by the Zionist imperialists of Britain & the USA, who supported the Japanese against the Russians. So much for U.S. gratitude for Russia's altruism in helping Lincoln defend the USA from other imperial powers during the U.S. Civil War.

The Bush regime may find itself in a situation similar to Kerensky's Russian Provisional Government in 1917: The armed forces were at the front, too far from the capital, which became surrounded by Bolshevik forces, from whom Kerensky was just able to flee. Domestic turmoil could topple Bushy's imperial regime, or a planned crisis could serve to justify our ZOG's intended "North American Union." The sheeple of the USA may be hit from many directions at once, or by one or another crisis at any moment. Economic & demographic pressures are mounting, & what we are doing & not doing are making those pressures worse. U.S. sheeple will probably be surprised when the manure enters the ventilator, but my only surprise is in seeing how things continue without major malfunctions, so far.

After Israel's misadventures with Hezbollah in Lebanon, I have an impression that our expensive military hardware may be obsolete, to one degree or another. Battleship admirals thought it was 'unfair' that a cheap little torpedo could sink their big, expensive administrative apparatus. Cheap submarines & cheap aircraft could sink those battleships with cheap torpedoes. Huge, hydrogen-filled zeppelins could be downed by even cheaper incendiary bullets, as has been alleged in the Hindenburg holocaust. U.S. helicopters are not filled with hydrogen, but they are also expensive & surprisingly vulnerable from cheap ground fire. Our vaunted Abrams tanks have proved to be no match for certain rocket-propelled grenades, as with the equally-vaunted Israeli tanks. As a former infantryman, I'm interested in cheap weaponry which allows a man on foot to destroy such powerful war machines, just as the SAM-7s did to U.S.-supplied armor & jet aircraft in the 1973 Yom Kippur conflict with Sadat of Egypt. When the Soviet Jewnion refused to resupply Sadat with those shoulder-fired missiles, Egyptian forces had to retreat.

Aircraft carriers are as vulnerable to submarine attack &/or missile attack as were the battleships the carriers replaced. Much has been said about our "military-industrial complex", which is often designed for profit, rather than military prowess, as proved by our repeated 'surprises' from new tactics &/or combinations of new weapons with old tactics, as we learned in Lebanon, Iraq et al. Unfortunately, our ZOG seems incapable of learning, especially when it appears to believe its own propaganda lies. Ignorance in war incurs exorbitant tuition fees, even if the losses are "only Goyim." One writer warned of our imperial adventures in The Middle East that "strength without wisdom leads to disaster!" I'm reminded of the old anti-war song with the chorus: "When will they ever learn?" If wars remain the jews' harvests, the hebes are not keen on us ever learning. We sure live in "interesting times," as the Chinese curse goes. DOWZ! ORION!

Eric
