

10 APR 07. Ave Jason! Many thanks for your letter of 4-4-07 & the s.a.s.e. I did read "The White Man's Bible," which I likened more to a White Man's Talmud. For me, "soul" as I used it means inspiration, an appeal to one's imagination, one's reason & one's being. Soul can mean all sorts of things. It can also be a word without coherent meaning. In geometry, I learned to base my thinking only on what is stated, without other input. It proved useful in multi-cultural situations, for I could behave on what was done or not done, rather than imagine what the other person may have intended. Let's go back to Square One: I am not stereotyping about groups. I only described people whom I've met. People who tell me they are or were COTC may all be liars. I only tell you who said what. The skinheads whom I've met, individually & in groups, I have tried to encourage to be as good a White man as you claim to be, for I did not want them to destroy themselves with drugs, booze &/or foolish behavior.

In fact, there are just 3 races: Black, White & Yellow. Subdivisions of races are nations. Races are not places. If that were true, then Eskimos would be true "Nordics." Nations are subdivided into tribes, then clans, then families, down to the individual. Mongrels are not races, since they revert to their parent stocks according to Mendelian law.

You appear to be battling your own assumptions, rather than my alleged prejudice. I tell you only what I have seen & heard, & I do not extend those views to all skins or COTC members. That is not prejudice, but true reports of my firsthand experience.

I am indifferent about lies which describe me as a ZOG agent, for I'm not a blighting shekel-grubber. Earlier, I've been described as "a committee of former Gestapo officers, not a real person." The latest of my alleged job descriptions, to my knowledge, is that I am "a retired CIA supervisor of Mossad hit-teams." People are free to use my knowledge or not, on its own merit, for I seek nothing from them. I live FOR the Cause, not OFF it.

There were many jews in the Wehrmacht in World War II: 150,000 of them, according to one source. There were jews in the NSDAP, such as Heydrich, Funk, Ley, & even Streicher. Hitler is also said to be a jew or part-jew, off & on, by the same people who denounced him in so many ways; they led me to learn what I could about Hitler. As I understand, the head of the British SS was a jew. When I find it again, I'll let you know. I've come across it several times in my research. Suppose that all the members of the NSDAP whom I met were jews. If I say they were jews, that does not mean that I deem ALL NSDAP members to be jews. That is merely your mistaken conclusion. I appreciate your eloquent promotion of Our Race, which I certainly support, for I am also pro-White, as you are. I also congratulate you on your enthusiasm. Your words about "waiting for The One", the singer who best sings the song incorporating the doctrine of the COTC, was described by Savitri Devi in her book, "The Lightning & the Sun," in which Hitler said, "I am not The One, but I shall have to do until He comes along." This reveals that great minds do think alike in regard to important issues which we confront throughout history.

Daniel sent me the appeal on behalf of COTC recognition in the ZOG-gulags. I forwarded it to Liberty Rights Advocates, who are doing heroic efforts on behalf of equal religious rights for Whites. I enclose a copy of their flier. We need to keep them up to date in regard to any developments. I heard that the Idaho Observer was kosher in regard to race. Thanks for confirming that.

One book I can recommend is "Sex versus Civilization" by Elmer Pendell. I lent my copy to a Zündel son, advising him that this is the most important book he could ever read. I still believe that. Pendell says in few words what it took Simpson thousands of words which over look the problem of Problem-Makers outbreeding Problem-Solvers who create civilizations. The little book even had a practical program for the voluntary reduction of the Problem-Makers in society. If Persians = Aryans, then Black denizens of Harlem, NY = Dutch.

Incluyo un chiste mio: Hubo un paletero empujando su carreta de paletas. Un niño le preguntó: "Sr. Paletero, como se llama su vehículo?" El paletero contestó: "Es mi paleta-carreta." "Y como se llama, si se pierde las ruedas?" El paletero le contestó: "Entonces, se llama mi paleta-maleta." Latin devolved into its vulgate versions. The present lingua franca is a mixture of Romance languages & Arabic, as I encountered in the Mediterranean. English is a lingua franca which permitted trade between the Germans & Scandinavians in Britain, according to a BBC program on the English language. A linguist told me that the present language most like classic Latin is Romanian, not Italian, even though Romanian has lots of Slavic words, just as English has Latin words, but is a Germanic language. It is said that the optimist learns Spanish & the realist learns Mandarin. All the best & ORION!

THINK NATIONALLY. BEHAVE RATIONALLY.

*End*
