

16 APR 07. Hail Jason! Many thanks for your letter of 8 APR 07 & the great enclosures. It looks as if a certain KKK leader talked to the wrong sheeple, & so talked his way into the ZOG-gulag. Can we live & learn? Apparently not. Yes, there are 2 Jasons. More I cannot say.

Thanks, also, for the issue of Separate Living. It's a surprise to me that I have the power to 'crown' kings, according to Kent. Popes & priests used to do that, but I am neither a pope nor a priest. Napoleon crowned himself Emperor, instead of letting a priest do it.

Good luck on showing your Christinsane pen-pal the right way. ZOG works in devious ways its victims to enslave. An old, old trick is to recruit dupes with sex. Ernst Zündel was such a victim, & got suckered into the ZOG-gulag. New tricks are unnecessary if the old ones still work.

Sorry, I never heard of Jim Ring. Thanks for the news about the tricks played in The U.S. Holohoax Museum. An anti-Zionist jew who visited Auschwitz 52 times (!) told me that suggestion is used, along with rigged lighting which discourages one from inspecting the 'exhibits' too closely, much as in a church. A 'guide' tells you what you are 'seeing', instead of what you can really see. Another old trick, & it also works, especially on Goyim who are taught to be gullible. Josef Ginsburg, another anti-Zionist jew who witnessed the "Holocaust" of World War II, & saw the Zionists working with the Nazis, told me that "jewish suffering was NOTHING, as compared with German suffering." Hey, if it comes from a jew, it MUST be true!

George Orwell alias Eric Blair described our future under ZOG in "1984". I understand that he was going to call his book "1948," but his publisher objected. Basically, he used the Soviet Jewnion as his example. The Cold War Hoax was what he described, in which the phony war is waged against another country's ZOG, but the real war is waged by ZOG against the governed in each country. The Cold War Hoax was used to justify slavery & other sacrifices made by sheeple in the USA-USSR. Now, our ZOG calls it "The War Against Terrorism," of which our ZOG is the author, & which the sheeple suffer. Anti-Zionism is pro-White, even if non-Whites support it. Anti-Zionism can unify everyone against our main enemy.

Orwell wrote about "Newspeak" (jewspeak or p.c., meaning "politically-correct speech"). The Communists insisted that certain words be used in certain ways, & certain words NOT be used at all, OR ELSE! Our present jewspeak is just updated commie jargon. Orwell explained that the dictatorship alias Big Brother wanted to shackle people's minds by restricting & perverting their thoughts. This was done by means of words. If "freedom" is removed from our language, how can we even think about it? I understand that the Black word for 'freedom', "uhuru," refers to an antelope running across the plains or veldt in Africa. Whites note that the antelope may be running from a lion or other predator, so this word does not describe "freedom" of inquiry & expression; freedom FROM & freedom TO, in the way Whites use the word. We can see how correct Orwell was when he said that "tyranny begins with the abuse of language." His "1984" dictatorship used slogans such as, "Freedom is Slavery;" "War is Peace;" "Ignorance is Strength." The jew, Djughashvili alias Stalin had a perpetual villain, the man who could be blamed for all things bad: Bronstein alias Trotsky. In "1984", Big Brother's eternal enemy was "Goldstein," who may not have existed, although his picture would appear in movie theaters for the "two-minutes' hate." Our perpetual villain used to be Hitler, even after his death. Whoever our ZOG hated was deemed "Hitler." Now we have the CIA asset, Osama bin Laden, who may live forever in virtual reality. Present ZOG-propaganda proves that we have become increasingly stupid, since sheeple cannot spot the obvious similarities between present ZOG-doings & Orwell's long-published little book. The scary thing is that we may be as stupid as George Bush! Aargh! That would mean our situation is hopeless, but not serious. In that case, we have nothing to worry about.

As I try to warn Whites: ZOG loves tattoos. The Puritan settlers used them to identify offenders, such as branding them. An "A" meant that the person so branded had cheated on his or her spouse, &c. A "T" would mean that the person had been punished for theft. There was no brand nor tattoo for a witch, for she'd be drowned or burned at the stake. Tattoos are much like wearing one's rupsheet so everyone can read it. I wrote that I could have worn a Swastika armband when I applied for work, but I didn't, so I got a job. I wish you similar success!

Correction: I studied about Latin America. I did not study Latin. In Latin America, the two major languages are Spanish & Portuguese, which I did study.

All the best & ORION!
