

Hail 20 APR 07, Leif! Many thanks for yours of 16 APR 07. Thanks for sending me the rest of The Nazi War Crimes Disclosure Act. As I understand, this legal 'time machine' was concocted by ZOG to enable the jews of the O.S.I. (Office of Special Investigations of the Jewstice Department) to persecute anti-Communists who lived during the World War II era, usually in Europe. Those who committed war crimes for the Soviet Jewnion are, of course, exempt. That's why USA is called a hypocrisy, rather than a democracy. NPR jewsradio reported that FEDZOGUSA is giving a terrorist (our terrorist) kid glove treatment by letting him live in Florida, under "house arrest." This fellow worked for the CIA, for whom he blew up civilian aircraft, public buildings, vehicles, &c. The name was garbled by the hebes, but it could have been Posada. In any event, the terrorist who worked for the USA is a former Cuban citizen. Among other things, he blew up a Cuban airliner loaded with teenagers who were bound for Venezuela to help as medical assistants in clinics for the poor. So, what does this reveal: it reveals that the ZOG can't get its act together. A sane ZOG would snuff a liability, pronto, for its own good. A sane ZOG would not bite its own tail, as do cattle afflicted by mad cow disease. A sane ZOG would keep this business out of the media, but our zoggies have informed the world of our hypocrisy in regard to "terrorism." By enforcing the Nazi War Crimes Disclosure Act, the zoggies admit that they admitted "Nazi war criminals" & they employed them, with full knowledge, in our NASA space program, as did the Soviet Jewnion. In other words, we first use them as slaves & then we punish them! Our slaves got U.S. citizenship. I knew Dr. Arthur Rudolph, a former NASA scientist, who was stripped of his U.S. citizenship & deported to Zionist Occupied Germany, BECAUSE he filled out an O.S.I. questionnaire, unlike the other "Old-Timers" (Nazi rocket scientists of NASA). A sane ZOG would never reveal that it knowingly hired Nazi "war criminals" in its space program, but our ZOG lets the world know about our hypocrisy. Such sabotage would not occur in the former USSR-ZOG, for such admissions would be deemed as enemy action against the state. For some reason, USA-ZOG shoots itself in the foot, time after time. The torture scandal is notable: USA-ZOG has resoundingly condemned the use of torture, only to reveal that it uses torture. In effect, we have condemned ourselves by our own rules. Why was this admitted in the first place? Only a regime which seeks condemnation & punishment would do such a thing, hence my conclusion that our ZOG is insane.

Another aspect of USA-ZOG's insanity is our blatant betrayal of people who were, a short time ago, our allies, such as the Taliban of Afghanistan. Suddenly, but only after they'd helped us get what we wanted, we deemed them to be enemies. The Taliban had not changed, but we sure did! Our ZOG seems not to know who or what it is. Perhaps some zoggies know whose interests USA-ZOG serves & why USA-ZOG is used by them like a piece of toilet paper. It appears that USA-ZOG's days are numbered.

I could translate the SS Oath into German, but I understand your zoggies do not permit items in German. If you can clear it with them, I'd be happy to send you a translation. I have had this experience previously, at the hands of your gulag-zoggies.

Thanks for the news on your family. I certainly wish you & yours all the best!

I've also heard that Crooked Katja resides in Europe, with a new 'boy-toy.' I wonder who is looking out for her kids. It sounds like an episode of "Dysfunction-Junction," if that were to become a TV series. However, we can see why the parts are dysfunctional, since they represent the whole society under ZOG: If ZOG betrays its own, then it's not surprising that ZOG's denizens would betray each other, on behalf of perceived immediate gains.

The Law of the Contrary should serve as a warning: if honor & honesty are 'just words' & money is of 'real value,' the lack of honor & honesty can only erode trust, which gives money its value in the first place. Promises are only as good as those who make them. Money is only as valuable as those who create it & use it. Laws are no better than those who write them & those who abide by them. Paper can never substitute for people of substance. I merely state the obvious, since it should be obvious. There are no 'big secrets', for they are 'hidden' in plain sight. What we must do is to see through ZOG's smokescreen of lies & illusions & avoid its distractions. "The truth is out there," but it's much closer than we may think.

All the best & ORION!
