

22 MAY 07. Hail Michael! Thanks for your letter of 17 MAY 07 & the informative enclosures. I shall circulate copies thereof for my correspondents in hopes that they may provide assistance, for I am on a limited & declining income as prices rise + sales taxes. I note on one of your enclosures that one may not earn more than \$55 a month, regardless of how many hours worked. Such a deal! Who said slavery is dead?

I appreciate the Declaration (report) on the Angela Davis lecture at your ZOG-gulag. My impression was that she is no longer a Black agitator per se, & that her agenda has become a ZOG-loving one. Perhaps she reflects ZOG's intention of converting Black Rage Against the Man into imperial-participation. She behaved, as I gather from the report, as a purchased promoter of 'diversity,' unlike her former Rockefeller-funded Black militant role, of the sort mentioned by J.A. Mitchner (sp?) in his novel, "The Drifters." Her new persona resembles that of Bomber Mandela's change into a 'kind, wise old man'.

Angela's evolution into the Zionist Establishment reeks of bankster-bucks. "Co-opting" is nothing new, of course. Mexican dictator Porfirio Diaz was said to 'kill' his opponents with "silver cannonballs" (bribes). The offer is "plata o plomo?" (silver or lead?). Those who will not sellout are shot out. It reminds me of the rather sudden shift by patriot G. L.K. Smith into the Bible-banging business, safely out of politics.

Political (people-power) Analysts from Machiavelli to Strauss have recognized that we are not "equal", but potential shepherds & sheeple. The rulers are advised to tell the masses only what they 'need' to know, along with lots of religion to damp down any spark of dissent which may linger in the rare specimens.

General Fuller of the British Imperial War College noted that "democratic warfare" re-lies on propaganda in lieu of pay to enlist its soldiers. With the invention of newspapers, Napoleon was able to gather many more troops than many of his traditional opponents, who had to PAY their troops. But in life there is always a price to pay. The price the USA will pay for its "cheap labor" here & overseas is its own destruction. The price countries' people must pay for "cheap propaganda" is a lingering residue of hatred amongst the masses. This residue of wartime propaganda interferes with peacetime policies of mutual benefit, so Orwell depicted the dumbing-down of the masses in "1984", in which the population lacked a memory. The people's lusts were thus directed by propaganda; their hatred was directed against a Satan or Hitler icon who was blamed for all problems, regardless of the 'enemy' of the moment. This Eternal Villain label could be imposed on anything or anybody, thus justifying the alleged policies directed against the alleged opponent of the regime, as in the Kosher Cold War. All we lack in the USA is a Big Brother figure. Our policies resemble the outrageous descriptions of "1984", which indicates the success of our regime's dumbing-down programs. As I see it, Blacks think of Angela Davis in her former militant, racist image. The residue of Black Panther propaganda lingers, so Angela's apparent job is to make it 'mellow', similar to Bill Cosby's message, that Blacks must behave responsibly, rather than to behave irresponsibly & blame "Whitey." I know "Indians" who blame Whitey for their consuming 'firewater'. I suppose they would blame their Great Spirit for 'causing' them to drown in regular water. This penchant for externalizing responsibility for one's actions or lack thereof harks way back, even before Marxist & Anarchist propaganda which deemed humans to be subjects, rather than masters of their environment; that crimes do not result from criminals, but from society. This view is extreme & therefore inaccurate, for people & places must interact: Lower the temperature & I'll put my coat on, even if I think the coat makes me look disreputable. I am responsible for donning my coat, but who is responsible for lowering the temperature? Is the Blame Game relevant to all such situations? Often not. Hitler reduced crime by creating productive jobs, thus proving that few people preferred criminal behavior in German society. The latter stage of Weimar resembled trends in the USA: inflation, unemployment, welfare & a growing prison population.

As I see it, Angela-ZOG's problem is to clamp down on the commercial "gangsta-rap" image promoted for Blacks & Whites as their image of manhood. Whites prove how malleable they are under ZOG's propaganda, but are Blacks likewise? Stay tuned!

Now to other points mentioned in your great letter: It appears that ZOG-gulag censorship policies largely depend on individual interpretation of their general rules. Sometimes they are interpreted punitively, other times permissively, which just proves that there is no such thing as "a government of laws," but only "a government of men." The fact that the zoggies allowed the Zion-nazi flier to reach you proves my point in the arbitrary nature of gulag censorship policy.

2) I shall send other items which you requested, & which you received previously, & I've made copies of your latest mailing, including your letter of 17 MAY 07, for all my correspondents in hopes some may respond favorably. I'm in contact with Forseti, Sons of Albion, THORINK & Liberty Rights Advocates, in addition to my regular correspondents.

I shall be on the lookout for the infamous Integration by Bayonet at Little Rock, & I've advised my network to do the same so you can receive a copy. I note a tendency: What ZOG was proud of, it now seems to hide. Bayonets never look nice & Bayonets for Brotherhood is absurd & ridiculous. Bad ZOG-prop, that. I confirm that all my correspondents are being mailed "Calculated Integration" + supporting documents, especially publications for prisoners, above mentioned.

I also enjoy our victory over the absurd restriction on "Internet pages," but now our struggle will be on the definition of "inferior" in regard to group distinctions. "IM10" apparently deems "inferior" to = identification. If I were to send you a publication in which Jesse James was called a "Bandit" & passengers on a train he robbed as "victims," your IM10 zoggie would likely construe "bandit" & "victims" to be an accusation of 'inferiority.' This is a malicious misuse of English, as it would be in any other language but jewspeak. The fact that anyone may perpetrate a violent or criminal act is not an accusation of "inferiority," IM10 to the contrary. I suggest ^{that} we must learn how your zoggies censor is relevant, rather than how the rules read, for words are subject to interpretation, & 'might is right.' Our appeals will therefore need to be specific in regard to items, rather than generalities. Another issue is the interpretation that any information may constitute "an incitement to violence" &/or fomenting a "Security Threat Group." Hence, a photo of Hitler or Stalin would be specific, as would a picture of Grant or Lee. I'd suspect that an "IM10" ZOG-scanner, which is likely a crude prototype for R2 D2, would accept Stalin & Grant, but not Hitler or Lee photos, based on a microchip defect which would allow mention of The Civil War or World War II, but would delete information about which side fought them, if one fell into IM10's "un-p.c." category. A Zulu War was fought in Africa, in fact 2 of them, but such conflicts might be "un-p.c." in regard to facts in the IM10 data bank. Perhaps the entire IM10 circuit board should be replaced, not just the defective microchip. A new English program should also be inserted, if there is any hope for repair of the unit. Good luck!

According to my sources, the federal thought-crime law may be passed, putting us on par with Soviet Canuckistan alias China-duh, Europe, The Land of Uk & Australia. It will be interesting how the law against "hate-speech" will be enforced & when. It's no longer a matter of IF, according to my sources. Perhaps Angela already got the message, although I doubt ZOG will enforce its thought-laws equally. It has never done so in countries in which such laws exist. My guess is that the Internet will go down first, as it has in the thoughtcrime countries, including China. Net-nerds are not anonymous. In fact, they can be victimized by anonymous hackers who insert bogus statements attributed to their victims. Can false statements be denied effectively? Stay tuned! ZOG also zaps 'selected' people who log onto the 'wrong' websites OR who have been accused of logging thereon. In thought-crime countries the law states that "truth is no defence," since truth is likely the 'crime' for which the defendants were charged. As Orwell said: "Who defines controls." When truth becomes "hate," then we learn that might makes 'right.'

Simultaneously, our ZOG is laying the foundations, economic, political & demographic, for its CFR/Rockefeller-approved North American Union incorporating Canada, USA & Mexico. Then ZOG will have even more pawns for its game of Divide & Rule. Will the same tactics work against the Chinese? Again, stay tuned!

All the best, DOWZ & ORION!

P.S.: I note a different internal gulag address on your envelope: H340L. Is that correct? I'll take a chance by sending this reply to your H3 B 40 address.
