

22 MAY 07. Hail Daniel! Thanks for your letter of 12 MAY 07. I shall convey your respects to J.D. & I'll also tell him to make his letters more legible. It is another example of The Law of the Contrary, that one who writes most makes it almost impossible to read. Commander Rockwell wrote how important fiction can be, for it captures the imagination of the reader, so he can "dream better dreams," as Mark Twain advised. Comic books with illustrations are also potent means of communication, & are not to be scoffed at. If they were, no one would read them. Humor is also great for expressing important truth, for tyrants hate to be laughingstocks, as Twain also wrote. Satires & political cartoons also convey messages, which people find entertaining & amusing, in addition to which they 'get the message.' Rockwell wrote an excellent treatise on "Propaganda, From Ivory Tower to Privy Wall," in which he recommends a 'supermarket' approach to the communication of ideas. As Dr. Goebbels may have said: "Propaganda is not necessarily what we like; propaganda is what works." He did say that an idea is best expressed in few as possible words, which boil down into a slogan, like "our race is our nation."

Re your question on the form of a nation-state: Nation is a biological fact, so all we need is to be aware of it within ourselves & govern our behavior accordingly. In other words, our realization of our Nationhood must begin in our own minds. The state, which includes territory & government, is more material than the concept of Nation, but we need the Idea of a Nationstate in which our Nation may live. History shows Nations without states & states without Nations, or with a multiplicity thereof (empires). We may compare examples of a Nation without a state: Gypsies. Then there are Nations who bring their states with them, wherever they go: jews. Whites are confused Goyim, as a rule, for they do not know who they are, nor what a Nation really is, nor what a state comprises, just as their Zionist-bankster rulers intend them to be. The Kurds are a Nation without a State, but they're working on the establishment thereof. Kurds have been divided amongst other states (empires) so they must fight for territory of their own, under their own government, to realize their Kurdish Nationstate. The ZOG strongly objects to Kurdish self-determination, for it says that Nationstates are 'out of fashion,' except for Israel. The rules apply to Goyim. The exceptions apply to jews. Goyim are purposely confused so as not to distinguish between the land & the people who dwell upon it, as serfs were attached to the land, & included in the property value, as a house with furniture. In 1066, William the Conqueror changed the title from "King of the English" to "King of England." "King" stems from "kin", so William the Bastard was, in fact, a landlord. With the advent of the jew "anthropologist," Boas, "Nation" became synonymous with land, not people. This would be as absurd as equating "family" with <sup>an</sup>apartment house. Well, ZOG claims that people who live together in one location are "family," thus ignoring kinship. Members of a Nation remain members of their Nation, regardless of their location. Just because ZOG claims the contrary does not make it true. Since apartment houses have walls & cities have walls, the denizens of Jew York Shitty, as some pronounce it, could also be deemed "a family." DNA would say otherwise.

Might without an idea usually gains disaster. As I have always said: "No change of place can save Our Race. Only change of mind can save Our Kind!" White Flight proves this, for without a change of mind, there is no change of behavior. White Flight merely transfers the evils from one place to another. It is no solution, per se, to White problems. We all need secure space in which to survive, but if we have no desire to survive by defending our biological interests, the space will not protect us. It only remains to be filled by hostile invaders, as is occurring presently in "Aztlán", the invaders' name for former U.S. territory, which they now occupy. We are born with bodies, as well as minds, so a Nationstate based entirely upon 'telepathy' would lack the territory for survival. Nietzsche noted that "man has his stomach to remind him he is not a god." No land = No food. Our first job will be to create our state within ZOG's state. Without an idea of who we are & what we want, "leaderless resistance" will likely be counter-productive for Whites, as recent events prove. ZOG's demolition of its Murrah Building in Oklahoma City served to blame White militias & to obscure ZOG's Waco Massacre, whatever McVeigh may have believed. Militia leader J.B. Campbell wrote that HIS own group turned out to be FBI informants. Such a deal! White Nationalists need to study 'The American Revolution', which was not even an independence victory. We freed ourselves from the King of England, but not from the jews' Bank of England, thanks to Alexander Hamilton, & later, Zionist stooge Woodrow Wilson, whose CONgress passed The Federal Reserve Act in 1913, along with the income tax act. What the ancient Spartans knew, we must also know: that economic self-sufficiency is the only sound basis for political self-determination. It would be nice if other states would

2) recognize our new White State, but it does us no good to wait. I agree with Prince Eugen who declared: "March first, then we shall find allies!"

A recurrent problem is not so much our program, but our people, specifically our chosen 'leaders'. We must choose trustworthy people, since leadership is a two-way street: The leader must be true to his people & the people must be true to their leader. The Chinese advise that "the wrong man with the right program" will be a disaster, whereas, the right man with the wrong program can remedy its faults. Politics is indeed people-power, so who the people are is of fundamental importance. I can speak from experience. I didn't just read about it. One can make good promises, but he must keep them. Yes, we should be able to learn from our enemies, but without BECOMING our enemies thereby.

Speculation on people & programs is useful, if nothing more than to keep our minds exercised on relevant issues. I liken it to planning a trip by studying the map, plotting the distances & considering the things we shall need on the journey. We must also figure the price for the trip! How many are willing to pay it?

Unfortunately, Ireland is proving to be a racial disaster, now that the inhabitants are admitting hordes of non-Irish & non-Whites into the country. I wonder who the new landlords of Ireland will be, in addition to the present kosher ones. The lesson is that nothing remains the same, & that change can be sudden, but no less permanent, such as an Africa without Blacks & an Ireland without Irish. We do not live in a demographic vacuum.

In Rockwell's time, it was Whites vs. Blacks, but no longer! It is a matter of the White Minority amid a non-White majority, of which Blacks are but one part. As I understand, 1965 was the fatal year in which formerly White Majority countries changed their immigration laws to admit non-Whites, many of whom were fleeing from their own newly-independent countries, as are the Mexicans fleeing from Mexico. In 1965, I was in Fascist Spain.

Nothing the Communists did would have worked without jew-bankster funding, & even with their funding, it didn't work. Rothschild agent J.P. Morgan said he'd just hire 1/2 the poor to shoot the other 1/2, but it was said of the USSR economy that 1/2 was hired to guard the other 1/2. A jew from the former USSR told me that "in Soviet Union we pretended to work, & they pretended to pay us." I complimented him on saying the most cynical thing I'd ever heard. But isn't that becoming true for the Jewnited States, under the same management? I fear so. There was much more than symbolism in the fact that the USA-USSR both had 5-pointed stars as their emblems, one white, the other red. The Soviet Jewnion was never independent from the international ("globalist") jew-banksters, from 1917 to the end, although it easily could have been with its huge amount of natural resources. Its jewish rulers would not have attempted such a thing, any more than they would wish to restore U.S. economic independence by restoring our manufacturing sector. In the present USA-Russia conflict, Bush wants Russian oil for globalist petroleum rackets, but Putin wants Russian oil for Russia. No self-rule without economic self-sufficiency. This is why I advise all Nationalists to stay debt-free & shun TV as the first steps in getting free of ZOG slavery. As Zogbusters say: "Usury is slavery. In hock signals vanquished." I ask bank clerks to give me the one word which means: "One ring to rule them all & in the darkness bind them." When they give up, I answer: "Credit!" I get stricken nods of comprehension, for words are too dangerous. They don't want to lose their jobs, & I don't blame them.

Another important factor to bear in mind is that Hebrewood has depicted Nationalists as misfits & losers, so Goyim believe that, if they are misfits & losers, they qualify as Nationalist leaders. This illusion is usually shattered by reality, if one cannot figure it out beforehand, but many sheeple are in love with the Hollywood Nazi image. The NSDAP was not made for losers & drop-outs, but for winners & doers. None of the Nazi leaders needed The Party to be 'somebodies'. They joined because of what they could GIVE their Folk, not for what they could get. That's why I shun those who self-promote on behalf of personal prestige & profit, whose message is basically "me-me-me" & "gimme-gimme-gimme."

Please get some rest. All the best. ORION!
