

3 June 07. Hail Daniel: Thanks for your letter of 22 MAY 07 & the MAY 07 issue of Separate Living. Great stuff! I'm sorry that someone stole the pages on post-Communist Russia from your encyclopedia. As I understand, Red Russia was a State Capitalist economy, as if Standard Oil would be the owner of all means of production in the USA. When the change came, kosher commies changed from being Soviet commissars to kosher capitalists. The state-owned resources & industries were sold off to kosher criminals. Putin wanted to save major resources & industries for Russia. The kosher "oligarchs" wanted to grab the Russian economy for global kosher capitalism, but Putin put up a fight for Russia's future & sovereignty, much to the displeasure of globalist traitor Bush, whose loyalty is to Exxon, BP et al, in addition to Israel.

As you say, the electrification of Russia's great railway system indicated to me that Red Russia was not prepared for war with the Zionist-Capitalist West, for that was where its support came from. Such information confirmed my suspicions that the Kosher Cold War was an Orwellian hoax.

In regard to wars & their effects on Russia, I recommend "Nicholas & Alexandra" on this subject. I saw the movie version, but I believe that there is an original book version. The gist of it was that Russia could not afford major wars which lasted over 2 years. The Russo-Japanese War was 'too long', & so was World War I, for mobilization of military-age males took men out of food production, caused food-shortages & starvation in the cities, & led to political unrest, as with the jews' attempted 1905 Revolution, & their successful 1917 overthrow of the Tsar (Nicholas II). As if Russia had not bled & starved enough, the Menshevik Provisional Government under the jew Kurbis alias Kerensky, vowed to continue the war. "Kerensky" was overthrown by his kosher Bolshevik cohorts & retired in California, where Gorbachev now lives. "Kerensky" lectured at the college I attended in CA: Occidental College. "Stalin" was able to fight WW II because of all the supplies he received, including food, from the USA via Allied Occupied Iran & Alaska. Such U.S. support from the kosher FDR regime enabled the USSR to mobilize its manpower for fighting, rather than food-production. U.S. trucks & aircraft were of great value in the Soviet war effort, which enabled "Stalin" to devote more resources into tank production, &c. Had Tsar Nicholas II enjoyed such support, the outcome of World War I for Russia would have been quite different.

Indeed, the German Economic Program worked "too well." So did Americans' colonial scrip currency which was debt-free & Lincoln's Greenbacks (also debt-free). John F. Kennedy also issued large-denomination Greenbacks (United States Notes), which resulted in his assassination. He had muscled in on the Federal Reserve's racket. When I returned to the Jewnited States in 1964, all U.S. currency was Federal Reserve Notes, under the Johnson regime. The Romans would ask "Cui bono?" when a crime was committed, for the one (s) who benefitted from the crime were usually guilty. Who stood most to gain from JFK's assassination? The Federal Reserve, which is a private, jew-owned bank.

The blightwing blundered into the kosher cage that the USSR became 'jew-free' under Djughashvili (Jewson) alias Stalin, after his purges of Trotskyists, who were also jews, including Lev Davidovich Bronstein alias Trotsky. When the Khazars adopted Judaism in 700 A.D., according to jewish sources, including The Jewish Encyclopedia, they changed their national name from Khazar, Chazar et al. to Yid, Zhid, Jew, so we are not talking about a small group of kosher conspirators at work in Russia, but the representatives of a jew nation, the Ashkenazim. When jews fall out with jews, they remain jews. Goyim (us) can't seem to understand that! When "Stalin" killed "Trotsky", both remained jews, but one was alive & the other dead. According to my source who recently visited Russia, the jews are still there, for it seems that not all jews are Zionist Israel-Firsters. Just as Benjamin Franklin predicted: Most jews don't want to live in Israel, "for vampires do not live off vampires." Rabbi Elmer Berger said in a speech I attended that "a Zionist is a jew who collects money from a second jew to send a third jew to Israel, & no one wants to be the third jew!" Francis Parker Yockey fell for that version of the jew-lie, likely because of wishful-thinking, as did many blightwingers. The truth is quite different. I've known quite a few anti-Zionist jews, who I deem allies against the ZOG, but I do not consider them kin, for they are not. The Anti-Zionist Alliance is separate from White Nationalism, so we fight ZOG together in order to live separately.

All the best & ORION!
