

by a lot of money and disposes of great power, which, even though it is private, is very active. We find here again the presence of intimidation, which I find particularly shocking, whatever the origin of the pressure. It is particularly the case when all criticism of Israeli policies is defamed as 'anti-Semitism'. This

## Two French thinkers

**GUILLAUME FAYE** asks: "What are the goals of the new American Imperialism? To neutralise Russia; to stop a strong alliance between that country and greater Europe; to take away all substance from the European rival by having Islam in its midst (for example, Turkey for which the U.S. acts as godfather); by dominating the countries of Central and Eastern Europe; by leading a merciless economic war against the European Union to which the EU dare not respond."

**PIERRE VIAL:** "Meeting here in Moscow – French, Spaniards, Germans, Greeks, Austrians, Bulgarians affirm their solidarity with their Russian comrades and brothers ... Today the prime enemy has two faces: the foreign invaders and the cosmopolitan ideologists who justify the invasion. This is a two-headed serpent

"By prescribing *Euro-Siberia* as a great goal and a great destiny for all Europeans, we are putting into practice the ethno-political principle. If it were to be taken into account everywhere, this would be a means of finding balanced and equitable solutions for all peoples. The right of each to their own identity must be recognised. Otherwise – *listen carefully!* – you will hear the gallop of the four horses of the Apocalypse approaching."

Guillaume FAYE and Pierre VIAL (below)

Both Vial and Faye see the importance of Siberia for the white race. Many Westerners, betrayed by their own governments, are emigrating from their own countries in large numbers. They will eventually turn to Siberia out of geo-political necessity.

method of intimidation is very efficient. "The AIPAC lobby exerts heavy pressure directly on U.S. Congressmen and Senators, coupled with threats. There are many American Jews who criticise the policies of Israel, however sensitive certain Jewish organisations are. The question of knowing in what measure one can talk about the conflict in the Middle East without being exposed to claims of anti-Semitism is a problem which will become even more serious in the future."

## Errors & Historical Lies

**HISTORIANS** do fabricate history, as we saw in the Reynolds-Windschuttle affair when the fabrication of Aboriginal history by Reynolds and other left-wing historians was exposed by Windschuttle. In academia it was known as the 'historians' war', which also raged in Germany during the 1970s and '80s in regard to Germany's war record.

**DAVID BROCKSCHMIDT** in  
*Adelaide Institute Newsletter*

**THE** outcome of WWII very likely marked the end of any real hope for a continued white future, globally speaking, while offering victory to the world's anti-white forces working for our dis-possession.

Without Churchill, the limited war could have ended in 1940 or 1941, before becoming a "world war". Europe's nations could have kept their empires, and white racial idealism would probably have become the world norm rather than the taboo that it is today.

## Psycho-War on the Germans

**GUILT** propaganda is making Germans ill, psychologically and physically. The ZDF reports that each year 30,000 German children and teenagers attempt suicide. *Die Welt* reports: "In Germany almost every third citizen between the ages of 18 and 65 needs treatment for mental disturbance ... Every second German suffers from severe headaches." Psychosomatic illness is widespread.

Psychotherapists know that forcing a person to admit guilt for a deed with which he had nothing to do, can cause mental disturbance.

The Germans, branded with the term 'culprit' (*Tätervolk*), means that as potential murderers every German has a duty to feel shame and 'never to forget'.

Guilt psycho-terror is induced by hypnotic suggestion through the media and by poli-

ticians and institutions, and this is reinforced by a systematic programme of persecution. In effect, this means that a German may not *think* or *speak of*, or *question* the basis of his guilt. Even to his closest associates and loved ones forbidden thoughts may not be expressed, for fear of jail time for 'Holocaust denial' and 'race hatred'.

In the kindergartens and schools the youngsters, even at that age, are obliged to accept that their grandparents and great-grandparents were murderers, and therefore they themselves have to declare responsibility for the guilt and shame.

Added to this psycho-terror, is the horror of alien immigration, one result of which is that every third child under 6 years is from an immigrant family. Guilt-ridden Germans may not protest about this invasion, for fear of accusations of 'race hatred'.

## Views of Phoenix (Austria)

**THE** Brussels 'Euro-Bolsheviks' are celebrating the birthday of Trotsky-Bronstein, son-in-law of banker Jacob Schiff [who helped finance the Reds]. Are they testing the bath water to see how moronic the Europeans have become?

**AFTER** 1945, one-fifth of German territory was given to the Poles; the English and Russians took the machines, factories and shipyards; and the USA took all the patents, including jet propulsion.

**EVERY** new German Chancellor is obliged to sign a declaration, allowing the 'Allies' to control the release of information by the press, radio, publishers, etc. until the year 2033.

\*

**MAKE** war – not love! These are the "birthpangs of a new Middle East," says Condoleezza Rice. "It's all going to be different. It will be tough." And she admits "It will be very violent."

\*

**THE** Bilderberg meeting in Ottawa in 2006 must surely have had as their motto: Demolition by Israel; weapons by USA; payment by Germany. Their official agenda included oil markets; Iran as a threat to security; terror and immigration. Neo-con Richard Perle spoke of "maintaining order"!

Inducing guilt and shame in the young

18 June 07. Dear Claude: Many thanks for your letter of 10<sup>th</sup> June & all the great enclosures! I think you have described what ails Wayne & his attempt at founding a religion. For the years I've corresponded with him, I've discussed with him that something important seems to be missing from his idea. I think you've noted that missing element: a mythology which can capture the Aryan imagination, such as you suggested: that Whites are the original space travellers & explorers, as I seem to recall in one of your letters to him. His version of Cosmotheism, with the addition of the Logos, appears to be about as 'inspiring' as a math textbook, at least to me. I'd guess that it may affect others similarly. In fact, Wayne may have invented a subject to cure insomnia, for it seems to lack inspiration & any cosmic adventure potential. In my analysis, causes, religions, &c. consist of singers & songs; leaders & doctrines; salesmen & their goods. Religions have succeeded in attracting adherents because of their proponents. It is rare that a doctrine attracts adherents by itself. I wonder what the doctrines would have done without St. Paul, Buddha, or Martin Luther. Who else would have been around to sing those songs so effectively? My opinion is that Wayne is lacking as a singer, & Logos Cosmotheism is lacking as a song, which cause those who hear it to lack interest. My letter to Wayne dated 12 June 07 refers.

Thanks for the information on Treuernicht. That name sounded bad when I first heard it, like Schleicher. Bad omens!

I was afraid your civil service strike would halt the mail, but your mailing reassures me that the post office carries on in S.A., at least for the moment.

Yes, I admire the Swiss hero who grabbed all the Austrian lances, but your father noted the possibility that he was possibly an unwilling hero. Ernst used to protest: "I'm not Mr. Holocaust!" but I guess the Jews thought otherwise, as if they needed an example: "This is what we do to you, Mr. Holocaust-denier!" My letter to Günter refers.

It is interesting to learn the political power of a song, "De la Rey," which means, as you probably know: "Of the King." I like your Portuguese "a luta continua." Had I been able to find work in Brazil, my Portuguese would be much better, since I only studied it in university.

I agree that big changes are oncoming, but as long as Whites are satisfied with their lot, they are unlikely to do anything relevant in defence of the race. As piggish as it may seem, Americans don't care about their losses in Iraq & Afghanistan, as long as other Goyim go in their stead. A renewal of the military draft might focus their dim minds on that topic, I would suspect. As is said in bullfights, the draft renewal will be "the moment of truth," for it might spark a revolt. The U.S. Blacks are boycotting the war in Iraq, since many of them are Moslems or pro-Moslem. As the "Time to awake" article says, the brunt of the casualties in Bushy's War are Whites. The non-Whites seem to smart to die for Israel.

Many thanks for your correspondence with Eric Margolis. You have done a great job of summing up the bankster-driven conflicts of the 20<sup>th</sup> century. I also enjoyed your ideas for a brighter, whiter future in "Eurosiberia." By describing what would be right, you have highlighted what is wrong in Europe today. I'm reminded of the adage: "For evil to triumph, it is only necessary that good people do nothing."

Re Nationalism: It was interesting how the Jew-bolshevik heir, Djughashvili alias Stalin, used appeals to Russian Nationalism to destroy the Russians on behalf of the Yids & their international bankster empire. U.S. Goyim are urged to leave the USA to foreign invaders in order to 'fight for democracy' in The Middle East. Meanwhile, our Zionist Occupation Regime in The District of Corruption also admits more & more Moslems, only to discover that 'some' of them don't like U.S. imperialism. Apparently, the U.S. version of the Roman Empire trusts in its ability to corrupt all who enter, like a Great Whore. But some who enter may not be sufficiently corrupted into changing their values & behavior, on behalf of Zionist Capitalism. Those who retain loyalty to their peoples shall overcome Zionist Imperialism, while Jew-dazed zombies gawk in wonderment.

Thanks for the download on your tedious debate on Cosmo-whatever. I think I was born a National Socialist, for I deem all necessary work as honorable, including child-rearing & sewer-cleaning. The Oriental mind deems hard, dirty work of 'lower value' & would demean those who perform such essential tasks. Veblen pointed out the semi-barbaric traditions in White societies of honoring & rewarding the predatory & the parasitic, rather than the productive, similar to kicking one's golden goose. Woe unto those who eat steak & condemn butchers. All the best & ORION!

Eric
