

11 Jewlie 07. Hail Mel! Thanks for your letter of 8 Jewlie 07, with the information on a pen-pal's status. I wondered if he was on vacation. What is going on appears to be an escalation of Judeo-Soviet/Red Chinese style torture, with the goal of mind-destruction. British writer Orwell predicted, after learning Soviet mind-manipulation methods, that the talmudic tyranny alias Big Brother would not permit sullen obedience, but would insist on enthusiastic praise for Big Brother & his policies. We must 'prove' our lack of racism by forsaking our own race for those of others. The ADL download refers. Not only that, but we must loudly proclaim love for other races & hatred for our own. Of course, this policy applies to Whites, only.

Some cynics say, "There is nothing new under the sun." ZOG's Goy slaves must now sing their masters' praises, similar to the slave songs of Stephen Foster, which depicted a warm-fuzzy relationship between slaves & masters, which "Uncle Tom's Cabin" sought to reverse, to the other extreme. The jews had two bites on the Hungarians: One from Bela Kuhn (Cohen), post WW I; the next from Rakosi & Company, post WWII, when Hungary was incorporated into the Soviet Bloc. In 1956, Hungary's ZOG wanted to squeeze more out of its Goyim, so the ZOG decreed that women should go to work. We American zoglins would have been surprised to learn, in 1956, that Hungarian women were largely exempt from working. Their job was to stay home & raise children, which anyone knows is a full-time job & then some! The Goyim revolted, for they knew what no American seems to know: that the family is the basis of society. The jew regime knew that, too. It also knew that the family was the antidote to the official edjewcation/indoctrination in the public schools, attendance at which was compulsory. Every Hungarian parent had to decide when to provide his or her child with the antidote to jew-bolshevism & its incessant propaganda\*, which was anti-Hungarian, in Hungary! Their propaganda was similar to that of the Christians: "You are all sinners, doomed to go to hell." The Communist version was: "You're all criminals, a nation of criminals, whose crimes can only be corrected by devout belief in Marxist doctrine." "Building Communism" was the slogan for all sacrifices. Friends of mine who survived & escaped East-ZOG, only to discover the kosher reality of West-ZOG, where many were killed, told me how they were selected for hard labor on summer school vacations, to "build Communism", because their family background showed behavior deemed pro-Hungarian, pro-Czech, pro-Russian, &c., rather than pro-Communist.

So, healthy home-schooling was necessary to counteract the kosher-commie indoctrination in the schools & the media. That meant women were needed to raise their own children. Forcing women into the labor force was the last straw for Hungarians, so they revolted against their Judeo-Soviet masters in 1956, as they were urged to by Judeo-Capitalist propaganda from Radio Free Europe et al. This was the same as the Soviet propaganda which urged Poles to rise up against the German occupiers, with the promise of immediate help from the nearby Red Army. The Poles rose up; the Red Army rested on the Vistula & the Germans mopped up the resistance, since those same Poles would have resisted the Reds. The Poles had fallen for the same trick in 1939, when the Brit-zoggies told them to smash Germany & "We'll help you!" Perhaps the Poles chose not to read the other part of the agreement which said the Allies would not defend Poland from an Eastern (Soviet) invasion. Some people never learn. The Hungarians fell for our lies, so they revolted, & the USSR forces steam-rolled them. The USA stopped a Spanish shipment of anti-tank guns, which the Hungarians desperately needed. Later, in 1968, East & West ZOG collaborated in quelling the leftwing student uprisings in France, since France was in the USA sphere of influence, as Hungary was in the USSR's.

I received my education at home, for the well-funded organs of edjewcation could not teach me to read, spell, tell time, or do simple math, like multiplication & fractions. In other words, my expensive edjewcation deprived me of the basics for learning. Once we learn the 3-Rs, we can do the rest ourselves. As one professor admitted: "We are all self-educated." ZOG does not want such sheeple in their flocks. The download from sheenie Strauss reveals the content & intent of our ZOG: Control of belief & thereby of behavior. ZOG is not satisfied with behavior alone. That is why it persecutes unkosher beliefs in its gulags. If ZOG has its way, it will be a crime to be White. Stay tuned! All the best & ORION!

\*The danger was that children were encouraged to denounce their parents for politically-incorrect statements or behavior. Every child was a potential camcorder for Big Brother, who had "reedjewcation" camps for Goy dissenters. The Goy parent could choose to lose his child to the ZOG or to lose himself to the ZOG, similar to life in the USA.
