

21 Jewlie 07. Hail Ryan! Thanks for yours of Jewlie 19th. China's plans for conquest of The Western Hemisphere, including the USA, have been a matter of record for a long time. I enclose some samples. Hitler warned about China, as did Napoleon. The Jewnited States did with China what it did with Japan in 1858: confer the latest White technology on an Asian people who would not only deprive Whites of jobs, but who would use White weapons against Whites, thanks to White stupidity, as the Chinese have mentioned. The jews are the chief betrayers of non-Chinese countries to the Chinese, just as they betrayed Babylon to the invaders, & Christian Spain to the Moors. There is nothing much new under the sun, as the saying goes. Yes, Virginia, there are also Chinese jews of whom the Soongs are foremost: a Chinese version of the Rothschilds, whose control of money enables them to control economics & politics on behalf of their power & profit.

When the USA was founded under Rothschild monetary control in the 1770s to the present, with a brief interlude under Andrew Jackson, 'our' USA was at least as anti-White as our new Chinese rulers will be, for the ZOG's wars, from the Civil War to the present, have killed millions of Whites, so as to populate North America with non-Whites. Perhaps the Chinese will maintain a select group of Whites, as do the Japanese with their Ainu, in some zoo, where their habits may be observed. After all, I'm also convinced that Whites are pretty weird critters, but so are duck-billed platypuses. One possible advantage of Chinese zookeepers for Whites would be that the Whites would be prevented from destroying themselves through race-mixing, as the^y love to do now.

Everyone should read Sun Tzu, the Chinese military strategist, for instructions on Chinese military operations. Sun Tzu states that the "superior" commanders 'fight' their wars by all possible means, other than military ones, so that their enemy is already defeated before the first shot is fired. Thus, the first shot of battle is really a 'victory fanfare' for the winners. Why should China get us into a shooting war, or, worse, a 'nuclear exchange?' That would destroy much of what China wants, which is about everything, except for the featherless bipeds who occupy the land China wants. Those, China does not want, as we shall likely see. As I see it, China & its jew globalist frontmen want to preserve North American infrastructure: dams, roads, ports, railroads, refineries, power plants et al. intact, & they want to preserve the natural resources, including farmland, forests, mines, water & oilfields, for these items are real wealth. Hence, a civil war/race war in the U.S.A. would likely trigger a Chinese invasion on a larger scale than is now occurring under ZOG, particularly in Canada alias China-duh, where Mandarin is the 2nd spoken language, no longer French.

Obviously, under ZOG, no presidential candidate who addresses relevant issues that cross swords with the jews can be elected in this Republic of the Rich. As long as the Goyim see themselves as part of the ZOG-system, they are most unlikely to thwart the Will of ZOG, for most are ZOG-loving, although they don't know what ZOG is. The Goyim are 'good sheeple', just as their Christian Judas Goats teach them to be.

Meanwhile, our edjewcation system dumbs down Whites & educates Yellows & other non-Whites. Chinese engineering students told one Ostensible White student why Chinese monopolized several engineering courses: "Whites too damn' lazy," was their opinion. When 'our' schools hold up monkey role models for Whites, it is not surprising that the normal White would prefer to be a Black athlete, rather than a nerd or geek. Jews & other Asians are not fooled! "No child left behind," under ZOG is also called "the convoy system," in which all ships had to maintain the speed of the slowest vessel in the convoy. ZOG teaches us so many ways to lose, as if Sun Tzu were in charge of 'our' schools.

Those Goyim who think they can beat the jews at their own usury game should study the latest bankruptcy laws. Our "national debt" is transferred to generations yet unborn, so it is possible that a civil debt can be transferred to one's estate, as a negative value. I advise extreme caution. One local bankrupt found himself chained to his outstanding debts until they were finally paid, with interest thereon. It's not so easy, & it is less so now. At my last job, the boss told me that I was one of the few whose paycheck was not garnished. One Black employee had to quit his job as soon as his child-support garnishee caught up with him, so he wasn't around very long.

Sorry, still no "88 Precepts." All the best & ORION!

Eric
