Subject: Reply to your condemnation of David Lane: United Church of YHWH (May 31, 2007)

To: Pastor Williams <conquerwemust@gmail.com >

I didn't see the broadcast about David Lane. Nor do I want to. Beverly told me about it. Wise choice to have excluded me from that particular mailing. Why do you join in with the enemies of our race, especially judeo christians who have embraced race treason under the guise of religion, in condemning a fallen hero to your religion's "hell?" If you didn't like his religion, fine & well. You needn't have indulged in your religious myopia, but could have, as would have the late Richard Butler, who you & your colleagues once claimed to have been a successor, eulogized David Lane's sacrifice for our cause, refraining from your difference of opinion over religion. To condemn one of our own like you have is inexcusable. Far from my "feelings being hurt," as you so smugly put it with your usurped moral righteousness, I am totally outraged. Using your logic—or lack thereof—Jerry Falwell is in your heaven along with a host of other race traitors, while heroes of our race are condemned to your hell. Perhaps, as an Odinist, David Lane is in a much better place—Valhalla. LibRA's position is one either supports the political prisoner or one supports ZOG. I would say this is even moreso when one of our own has fallen? Post mortem condemnations & defamations we can get from ADL & SPLC. We don't need them from someone feigning racial loyalty. One should not get them from those supposedly of our own. Also, I think I knew Richard Butler well enough that if he were still alive & at the helm, he would be among those who commemorate David Lane. You ask what did David Lane do to advance Christian Identity? What have you done to advance the 14 Words?

Greetings Kindred,

Well it seems we hurt some feelings with the recent Broadcast we did on David Lane's death, what with calling him a pagan (something he called himself) and saying that he is in Hell (which he is).

The truth always hurts, and I am sure this one was very hurtful for non-believers.

But the fact is that the Bible tells us that we will "know a man by the fruits of his labor", and Lane's labors toward the end were certainly NOT to glorify YHWH, they actually went against the principles of Scripture. What did he ever do in support of Identity?

Oh well, some folks will "choose to be blind."

Could you unify with Williams? E.T.

Luggage? GPS? Comic books?

Hail David! Thanks for your letter of 29 AUG 07 with your enquiry about National Socialism. The term was first used by Zionist leader Theodor Herzl, in 1896, around the time of The World Zionist Congress meeting in Basel, Switzerland. The enclosed flier refers. Herzl wrote "The Jewish State," in which he advocated the establishment of present-day Israel. The book was paid for by the Rothschilds, whose family compact obliged them to support the founding of a Jewish state in Palestine. This project was part of The Balfour Declaration which was used to get the USA into World War I, in exchange for Britain's backing of a Zionist Occupied Palestine or "Jewish homeland."

Nationalism requires a nation. A nation is not a place, but a people. When races are combined, along with nations, in the same state, we have an empire, not a nation. The USA has always been a multinational state, therefore an empire, like the former Russian Empire & the Soviet Union. My U.S. teachers claimed that World War I had occurred because nations wanted to rule themselves, so empires were allegedly the cause of that great war. They did not include the USA-USSR EMPIRES! This is called hypocrisy, not education.

Nation is biological, not geographical. We have individuals, families, clans, tribes & nations; after which, we have races. The White Race would have German & French nations, for example, just as Blacks have their tribes & nations which do not conform to geographical borders, which were laid out for White convenience, not Black convenience. The geographical subdivisions of tribes & nations is a major cause for African conflicts, such as in The Sudan, Ruanda & Burundi, & throughout Black Africa. Diversity within states is a major source of conflict, so why do our Zionist-Bankster rulers want 'diversity' in the USA? I guess they want to see the conflicts occurring in Africa, between the Watutsis & the Bahutuls!

Socialism has long been international, in terms of classes, in favor of a one-world government. The first Socialist International was in 1848 & produced Marx's Communist Manifesto. It flopped. Then came the 2nd International which failed absolutely in World War I. The Jew, Vladimir Illych Ulyanov alias Lenin, told the 2nd Internationalers that they were "class traitors," which they were, so he promoted the Third International which became the Communist Party. Mussolini, who was an Italian World War I hero, had been a 2nd Internationaler, but he was disillusioned by the war which should not have happened. He recognized the power of nationalism, so he built his Fascist Party on it. The fasces were rods bound around an ax, which was the Roman symbol of authority. He adopted the Roman salute, which was the same as the Olympic salute, & I understand, it was also used in the USA during the pledge of allegiance to the flag, at least until the late 1930s. Fascism was imperialistic.

Socialism subordinates economics to politics, at least in theory, on behalf of a class, usually the workers or proletariat, on behalf of the people as a whole, unless they are considered "class-enemies," or "counter-revolutionaries." Third International Socialists wanted to achieve power by revolution, whereas Second Internationalers wanted to achieve power via popular elections. Hitler combined nationalism with socialism, on behalf of the German people. "National Socialism was not for export," Dr. Goebbels declared, for it was to serve one people in one country. Others could achieve their own National Socialism in their own lands.

Fascism, like Soviet "Communism", was based on "the corporate state." One former Soviet prisoner described the USSR version of socialism as "state capitalism," which was certainly accurate, for labels are often misleading, as they are intended to be, by those in power. Dr. Goebbels pointed out that the Third Reich was "Nazi-Sozi," since it included nationalism with socialism. Sozis are legal in Zionist Occupied Germany, but not "Nazis" whom lazy people equate with National Socialists, when the term really means Nationalist, only.

Hitler adopted the name, "National Socialist," when he changed the name of "The German Workers' Party" to "The National Socialist German Workers' Party." He also drew the Party flag, since The Swastika is an ancient Aryan symbol, wherever Whites have gone. It is the symbol of goodness, & even the Amerasians have adopted it as a good luck sign, as it is in India, whose merchant ships display it on their bows. You might say I have a feel for such history, since I lived in Franco's Fascist Spain & visited India. The Jew who ruled Russia between the Tsar & Lenin, Kerensky alias Kurbis, was a teacher of mine in California in 1956. I also knew Hans Baur, Hitler's pilot in "Triumph of the Will," & other Third Reich heroes, so I didn't just read about history. Naturally, I'm banned from teaching in this Land of ZOG. All the best & ORION!

P.S.: Let me know if you have further questions, ZOG willing. History is not "hate."
