

2 SEP 07

Hail Michael! Boy, it was good to get your letter & enclosures of 30 AUG 07. I was wondering if your zoggies had pushed you down "The Bottomless Pit" allegedly in Kittitas County, or if you'd been abducted by a more normal UFO. You have some fans at my local post office, who I've informed about your ever-changing mail censorship & your zoggies' interference with your legal efforts as obstruction of justice. I think they understand that a corrupt society is known by the number of its laws & that a tyranny is known by the number of laws the government breaks. They were quite impressed with the letter which contained documents you had sent to me, which I was returning, & which were seized as 'thought-crime' material by your zoggies. I'm glad you finally received what was yours to begin with, plus other material which I'd included. Will wonders never cease?

ZOG has stated most recently that Hispanics are now considered "White non-Whites," depending on the purpose. Such a deal! Obviously, non-Whites have advantages which Whites do not have, under ZOG, as if we didn't know that, already!

I'm surprised that your zoggies would object to my discussion of 'evil'. Since when is self-criticism deemed 'unkosher'? Or, am I still deemed a one-man Security Threat Group? An anti-Zionist jew declared that "God is Truth." I agreed with him, but ZOG defines Truth as "Hate," since zoggies hate the Truth, even if it does not mention them. "Hate," in practice, is anything ZOG hates.

I am amazed that you would receive a copy of the ANSWP publication, for I thought that it would be banned outright for content & 'forbidden' symbols. I suspect that I got on a C.I. mailinglist via "Separate Living," which is published by Daniel Deville. The C.I.s have consigned David Lane to Yahweh's boilerroom beneath his Big Pawnshop in the Sky, so the blighting is back-biting as usual. Poor Daniel Deville! He wants to 'unify' the blighting, which is like attempting to herd cats. Yes, I also suspect a ZOG-op, for Zionists want someone to establish a "Nazi Party", to aid their Zionist fund-raising campaigns as a scarecrow. I don't know how you would get on Bill White's mailinglist, but the fact you received his mailing is most interesting & suspicious. These ops have a way of showing us their true colors in due course, & I am wary of agent-provocateurs, as you know, since ZOG needs "terrorists," for another 9-11. I admit to being a 'word-criminal', but I do not wish to 'terrorise' anyone, nor threaten their gulag security.

Your zoggies should be more careful in their rejections, if they must defend their reasons for doing so. My little book entitled "The Hitler We Loved & Why" was read into the court record at a Toronto thought-crime trial. An attorney said that she was swayed by the text, even though she'd been raised to hate Hitler, & I'm not even German! What if my essay on evil were to convince members of a court? Oy veh! ZOG's best-laid scams can boomerang.

It seems that DOC is suffering from major mismanagement, so its censorship criteria may be another symptom of general bad order & administrative malfunction. I would not want to be in your zoggies' huaraches.

A knowledgeable professor said "There are no big secrets." Jewsmidia bafflegab is devoted to hiding them from the Goyim, but Goyim who value knowledge of the strategic picture, so they can make tactical decisions, as I do, look for patterns. As my prof. would say, "You are standing so close to a tree that you cannot see the forest around you." The past can indicate the outlines of our present forest, since history is repeated to greater or lesser degrees. I am coming to see that our best description of our present forest is that of ancient Rome, another republic of the rich, upon which the USA was based. Tacitus characterized Roman goals as enslavement by vice & by chains: slavery without end; a protection racket to rule the world. As Rome's power expanded, it ran out of Romans. Its death was largely by corruption & diversity, for people are different, even if they are 'just' Goyim. I seem to recall that one of Rome's last & major defeats occurred in the region roughly congruent with present-day Iraq. As we know, Rome split into eastern & western empires, much like the USA-USSR under ZOG banksterdom, each with its own religious/political hierarchy, whose vestiges remain in the forms of the Roman Catholic Church & the Eastern (Russian & Greek) Orthodox Church. Rome had its "9-11s", such as the burning of Rome under Nero alias George Bush II & the Spartacus Revolt orchestrated by Crassus, whose legions herded the escaped slaves toward Rome, so as to panic the Roman population. Terrorism on behalf of tyranny is an old recipe of tyrants, & our ZOG is no different, although its Goyim seem more stupid than those of ancient times. Decadent Rome had a huge welfare population of all nationalities which was ruled by "Bread & Circuses," but Rome did not have a huge & growing prison population as does our Land of ZOG alias Usrael. Undoubtedly, the jews now run the biggest concentration camp on record in Zionist Occupied

2)

Palestine. Unlike the US ZOG-gulags, this prison population breeds. How the real Semites survive under Khazar occupation is something of a miracle & a mystery to me. Imagine if Zionist prisons in Usrael had a coed population which bred like bunnies, & who saw their occupiers as criminals. The Khazars or Ashkenazi invaders of Palestine are not Semites, although they adopted a Semitic cult known as Judaism. They were used to dealing with other non-Semites, the Slavs alias Slaves of Eastern Europe. None of the Khazar methods seem to work in The Middle East, despite their resounding success in Europe & European America. This is due entirely to diversity, which means differences of belief & behavior, not just physical differences & modes of dress. To seek to unify diversity is nothing less than a futile struggle against reality, more commonly known as madness.

Rome sought to eliminate diversity via universal enslavement, but Usrael wants to enslave all its subjects in the name of 'diversity.' The Jew, Herbert Marcuse, whom I knew in university, was notable for his oxymoronic discourse, that is, 'cognitive dissonance,' as you experienced in your kosher-commie brainwashing courses. He had one memorable oxymoron which did describe my edjewcation, beginning in elementary school: "Repressive tolerance." We were "free" to do whatever the teacher said we could do. When "student government" alias "centralized democracy," was introduced in the late 1940s, I noted that we could only vote on candidates, not on issues, & I said so. No doubt I've been on ZOG's hatelist for decades. I was brought before the principal, a typical mestiza who did not like a White boy behaving unsheeplike, despite the best efforts of my sheeple-parents to convert me to Christinsanity, for I was just too independent. She asked where I'd heard the term "puppet government" & "stupid government" (my term for 'student government'). They trembled & protested that they had taught me nothing. Such terms they learned from me! Actually, "puppet government" was used by a radio commentator, Fulton Lewis, Jr., who used it to describe Eastern European governments set up by the Soviet authorities after World War II. I just noted the similarities of their Jew-commie regimes & those in 'our' tax-funded schools. As a Goy-kid I was brought up to believe in the desirability of One World Government, ostensibly under the U.N. (with the Soviet Jewnion's veto power on its Security Council). We were taught in elementary school, in San Fernando, CA, that our loyalties would expand as we grew up: first to ourselves as babies, then to our family; then to our town, then to our state, then to our federal ZOG, & THEN to 'our' world ZOG under the United Nations (Goyim). I grew up loyal to my principles & no others, once I'd learned to put 2 & 2 together, & ask "Cui bono?" I was brought up as a sheep, but I remained a man, albeit younger & smaller than I am now. My diversity was likely due to my natural curiosity, & my critical nature which was developed by my contact with organs of enslavement, such as compulsory edjewcation. I'm usually suspicious of all things compulsory, since they never benefitted me, but others, whose identities were usually mysterious. My education I obtained outside of my kosher-commie indoctrination centers, alias public schools, including learning how to read & write. It's odd how ZOG's policies can & do boomerang. As a child, both my parents had to work. Fortunately, my 2 grandmothers did the housekeeping in rotation. My American grandmother taught me to read & write, for I could not learn via the "look-say" method which had replaced phonetics. I learned via phonetics in which letters are associated with sounds. English is notoriously bad for that, but I was able to allow for its 'exceptions'. Ideally, my parents would have put me into a Soviet-style 'day-care' center, but we lacked money for that, so I not only had contact with my recent ancestors, but with the past which they recalled. ZOG purposely exploited the "generation gap", in which communication was cut between generations of Goyim & their recent past. I maintained my line of communications, & my knowledge of my background provided support for my identity & even explained my behavior, such as my attraction to the sea & my travels in the world of my ancestors. ZOG's plan is to dissolve personalities by denying identity, in order to replace it with one-size fits all Goyim, off ZOG's propaganda shelf. In a drug-culture, one is expected to do drugs, or at least, to believe disinformation in order to achieve similar disorientation & vulnerability to rulers' manipulation. The Jew, "Lenin", decried "the opiate of the masses," alias religion, which kept the sheeple passive & stupid. If he were to visit Judeo-America, he'd probably decry opiates as "the religion of the masses," since the results are much the same. Humor is to be found in history, as well as irony, once one gets used to stepping in all the blood of slaughtered Goyim. The Germans have a saying that good humor involves being able to laugh at oneself. Thus, we Goyim have lots of reasons to laugh. All the best. DOWZ & ORION!
