

NORTHWEST PIONEER ASSOCIATION

AGENT PROVOCATEUR AD

July 10th, 2006

Greetings, Racial Comrades:

I am enclosing Part Six of the Book Four excerpts, from the my unwritten Northwest novel tentatively entitled *The Brigade*. I hope you like the way it's shaping up.

Remember, these excerpts are underground *samisdat* literature designed to convey subversive ideas which cannot otherwise be expressed except in the guise of fiction, what Lenin called "Aesopian language." They need to be photocopied and distributed within the Racially Conscious Community, so that the knowledge and ideas contained therein can reach people who may someday be able to make use of them. For this reason, you have received these excerpts in loose-leaf, unstapled format, in order to facilitate their being fed into a photocopier. If the pages arrive in your mailbox in a creased, folded, or bent condition, please use several heavy books on a table to flatten them out again so that they will reproduce.

These excerpts are heavy to mail, and require extra postage as well as specially purchased manila envelopes. Your assistance is solicited, especially in the form of postage stamps.

Guys, these pieces may be the most important things I ever write. I'm not joking when I say that as paranoid as the United States government is today, these may get me arrested and sent to a cell next to Matt Hale*. **Make sure you read them and understand their message.**

Hail Jason! Many thanks for your letter & enclosures of 23 AUG 07. I have no idea how David Lane died. You must be quoting someone else. A troo-joo named Rabbi Williams, of Crazy Identity has gone on the Internet to say that David Lane is in hell, in Yahweh's boiler room under his Big Pawnshop in the Sky. The enclosures refer. I work with John Gerhardt of Liberty Rights Advocates, on behalf of equal treatment for White prisoners under the law. Non-Whites get special rights. WAZOGDOC bans all reference to The 14 Words, for example, & all of David Lane's writings. They are now banning my mailings because WA zoggies deem me a "Security Threat Group" of one.

My discussions with our other Jason criticised his "prison-prep values," & sure enough, Creator Reverend Masten is back in the ZOG-gulag. That Jason says that some jooz hold copyright on Church of the Creator, so he uses another Latin expression to describe his version of the former COTC. What a mess!

My court date is now postponed until October. The mestiza bandida home-invader flipped out & fired her attorney, so the trial has been put off. I understand that she is a 'normal' paranoid-schizophrenic as well as a meth-addict, so she might even file a plea of insanity. I asked the prosecutor if she needed her drugs to appear 'straight' for her trial. Ha! The prosecutor said that she's dried out. I said that may be her problem. If President Bush had stayed on his drugs & booze, we might not be in Iraq right now. His 'normal' insanity has come to the surface. Bush II is similar to Nero who allegedly fiddled while Rome burned. Our version of Roman Emperor Nero, Bush, read "My Pet Goat," while Jew Yawk Shitty's Trade Towers burned. Nero used the burning of Rome as a pretext to round up people he didn't like. Bush used his 9-11 to invade Afghanistan & suddenly, Iraq, which was on Israel's hitlist. Would Klassen approve of Nero? I have read Roman history in Gibbon & Tacitus, & I've read about our White hero, Hermann, who defeated Varus' legions to keep the Roman slave empire out of Germany. No White man can claim Rome as pro-White, & even the Roman, Tacitus, admitted that Rome used chains & decadence to enslave White people. When it comes to history, Klassen was a clown. Read Roman history, not Klassen's version, & you will see Rome in its true perspective. Rome & the Roman Catholic Church which followed were anti-White, as history shows. Rome's legions certainly had discipline, but so did Chaka's Zulu warriors in South Africa. I don't want to discourage you, but I don't want you to be a laughing-stock amongst more educated Whites. The USA resembles decadent Rome to a great extent, so is Rome the example by which we should live? Certainly not. What did Klassen say about Hermann?

The name, Franklin, sounds familiar, but I did not connect him with the shooting of Larry Flynt. I heard that Flynt is a Jew. If so, it's a small world.

Richard Kemp's Eulogy for David Lane shows that most Whites do not know they live in a Zionist bankster empire, very similar to Rome, complete with Roman symbols like the Senate & the Fasces: the ax bound with rods, symbolizing Roman authority. Like ancient Rome, the USA began as a Republic of the Rich. It was NEVER a nation, nor was it ever a democracy. Most sheeple live in a dream-state which they believe is reality & not illusion. It's as if someone would complain that cars kept knocking his golf balls off the green. The one who was awake would tell him: "It's because you are trying to play golf on the freeway, bozo!" Or, someone could complain that he kept bumping into walls & steel doors, because he didn't know he was in prison.

Ron McVan worked with Klassen, in Otto, NC, as I understand. He founded The 14 Word Press & wrote many articles, along with David Lane, until he was betrayed by a female, Katja, who adopted "Lane" as if she were David's wife. Katja stole Ron's & David's books & publications, along with another thief named John Post & his Black partner.

Richard Kemp seems to be a friend of Harold Covington, who slandered everything to do with Klassen. Covington claimed friendship with David Lane, but Covington also claims to be Crazy Identity, so I wonder if Covington believes David is in 'hell.' With 'friends' like Covington, you never need an enemy. Covington is an infiltrator & saboteur. He appears to be a ZOG agent-provocateur. No wonder we call it the "blightwing."

All the best & ORION!
