Hail Colby! It was great to get your long-awaited undated & unpostmarked letter. ZOG only knows how long they may have sat upon it. That's why I date all my letters, so you will know when they were written.

To my knowledge, the skinhead movement began in Britain, as the result of Britzogs importing 'cheap labor' from Pakistan, mainly to bust British labor unions. Suddenly, White workingclass youth were out of jobs. I understand that they began attacking those who replaced them, so many went to jail & prison. I'm not sure why they adopted their "skinhead uniform" of T-shirts, braces (suspenders) & "bover-boots" (Brit-speak for 'bother-boots') aside for identification & fighting. Brits say, "They put the boot in," referring to someone getting kicked. The skinheads became nihilists by courting their own extinction on behalf of 'toughness.' They cultivated the image of people who could drink more booze & do more drugs, get in more fights, &c. because they were 'tough' & they didn't care. They had good reason to feel that they had no future, since they had no jobs. They lived off 'the dole', which is Brit-speak for welfare. For most 'skinheads', it's a matter of fashion, rather than philosophy. Beatniks, hippies, bikers & skinheads had their 'groupies', who sought identity & reputation without real commitment, especially when the 'skinhead culture' included booze & drugs. I've spoken before groups of young skinheads (are there any old ones?) whom I told about National Socialism, which taught people how to be 'good' rather than 'bad,' on behalf of raising healthy children for a healthy society. I pointed out that their rebellion against society merely put them on the ground beneath the social ladder, where a floormat normally resides, & that booze & drugs make them slaves to society, rather than warriors.

In regard to Jewish political influence in the USA, it has been here since before the so-called American Revolution. The Rothschilds et al. own The Bank of England, & our 'revolution' was financed by Rothschild gold via France. Half-jew, Alexander Hamilton, promoted the 1st & 2nd U.S. Banks, which used Bank of England currency as backing. Hence, our 'independence' was from the King of England, but not from The Bank of England, who employed the King. Our founding felons were Freemasons who carried out Jew orders, without themselves being Jews. Gentiles (Goyim) who serve Jews call themselves Zionists (Jew-supremacists), as did Winston Churchill & several politicians in the USA & Canada. Both Roosevelts were Jews, as was Harry Truman, whose mysterious middle initial stood for Solomon or Schiff, according to Jewish sources. One Christian preacher, Rev. Texe Marrs, claims that George Bush II is a Jew, as well as Hillary Clinton.

President Lincoln publicly declared his intention of repatriating Black slaves to Liberia, the African country founded to accommodate freed Black slaves from the USA. The real bankster rulers of the USA killed him, because they wanted the Blacks to stay, & they hated Lincoln's interest-free money (greenbacks).

Sorry, I don't have the dates of death for Lane nor Matthews, but I'll forward your letter to one who does.

World War II began in 1939, with Germany's invasion of former German territory that was handed to Poland after World War I. The Soviet Jewnion also invaded Poland from the east. Britain's treaty to defend Poland only applied if Poland were attacked by Germany, not by the USSR. According to my British Foreign Service documents, Britain had long decided to deed Poland over to Kosher Communist Russia. They repeated this decision in August 1943. After World War I, a diplomat warned that The Versailles Treaty was "setting up powderkegs in Europe for the next war." The Germans of Austria & what was left of Germany were the victims of that treaty. The banksters made huge profits from World War I, as well as great political power, so they intended to prepare for another 'harvest', that is, war. In a letter from former German Chancellor Brüning to a friend in Britain, I read that Brüning said he was paid for his election campaign as Chancellor by the same bankers who were now funding Hitler, & who were also funding Churchill, Franklin Roosevelt & Stalin! Hitler wrote a sequel to "Mein Kampf", which he did not publish, for it revealed his plan to avoid war with Britain, by taking farmland from the Soviet Jewnion. The bankster scheme was that Hitler would fight Poland, then direct German forces west into France & other countries on the Atlantic Coast; after which, he was to invade Britain, which Hitler had no intention of doing. Stalin was preparing to attack & invade all of Western Europe in 1941, according to my German sources, including high-altitude aerial reconnaissance observers who told me about the immense Soviet military build up on the Polish border with the USSR. It was a matter of days before the Reds launched their all-out attack into Europe, all the way to the coast. Hitler was aware of Stalin's intentions, but Stalin thought Hitler was preparing to invade

Britain in 1941. My German sources were confirmed by "The Icebreaker" by former Soviet Military Intelligence officer "Suvorov," who writes under his pen-name. He wrote the complete battle order of the Reds, as they massed forces for their intended surprise attack against all of Europe. Hitler made sure Stalin was receiving intercepts from German radio about the fake German massing of forces on the Channel coast, when the real units were forming up under the noses of the kosher commissars in Poland. Just before Germany hit the Reds, Hitler's deputy, Rudolf Hess, flew to Britain to tell their ZOG that Germany had no intentions of invading Britain. Churchill, the self-proclaimed Zionist, locked up Hess & kept him locked up, long after the German surrender in 1945. Britzog could not afford to admit that they had known of Hess' message. As my colleague, British historian David Irving, stated: Brits were told they were going to war to 'defend Poland.' Then they were told that they were defending the British Empire against Germany, since 'Hitler intended to invade Britain.' When that did not occur, the British sheeple were told by their ZOG that they were fighting to rid the world of Hitler. This sounds like alleged U.S. war-aims in Iraq: ZOG accused Iraq of complicity in 9-11; then it accused our puppet, Saddam, of having 'weapons of mass-destruction.' Then we were in Iraq to stop 'the insurgency,' then to 'establish democracy,' now, to 'enhance security.' Eventually, we may be told that we are in Iraq to protect The Brooklyn Bridge, which is now 'for sale.' Rudolf Hess was murdered by the British on their watch at Spandau Prison, after the USSR said they might want to release Hess on their watch. The Brit hitteam beat up Hess & strangled him, as I saw by the photos which his son, Wolf Rudigger Hess, published in his book, "The Murder of My Father." The Hess Files in Britain are still locked up, for the next 30 years, as I understand.

Soviet propaganda of the late 1930s touted the "Japanese threat." I read such propaganda in Mexico when I visited a commie bookstore in Guadalajara in 1959. President Roosevelt so loved the USSR that he bent every effort to protect "Stalin's" kosher empire from all attackers. If the kosher commies claimed Japan to be a threat, then FDR would concoct a war with Japan. By 1940, everything was in place to push Japan into an attack on the U.S. Pacific Fleet at Pearl Harbor. All that was needed was FDR's Oil Embargo on Japan, which would have to neutralize the Pacific Fleet in order to take over the oilfields of the Dutch East Indies. Japan was like Britain: a maritime power dependent on shipping & the safety of its sealanes. No oil meant no Japanese fleet. But in 1941, it was Germany which attacked FDR's precious Soviet Jewnion! Using our stupidity, FDR let the Japs attack Pearl Harbor, just as he'd intended. When FDR knew the Japs had committed their fleet against Pearl Harbor, he arranged to send all relevant units of The Fleet out to sea, while leaving the dinosaur-battleships as bait. According to my friend, Dr. Oliver, the USA knew everything the Japs were saying & knew the exact locations of the Jap fleet from their radio monitors at Midway, Corregidor & Hawaii. The Japanese had no secrets, but FDR kept those secrets from the commanders at Pearl Harbor, so they could be scapegoated for 'lack of vigilance.' FDR quickly 'allied' Japan to Germany, although no such alliance existed after the Hitler-Stalin Pact of 1939. Hence, his declaration of war was not limited to Japan, but included Germany & Italy.

The Holohoax is now an issue because Hitler supported the Zionist founders of "Israel." He agreed that jews should have their own land, even if most jews did not want to go there. The Zionists or "Zion-Nazis" as some jews call them, insisted that the jews go anyway. The "Krystallnacht" riots were arranged to scare jews out of Germany, into Palestine, by the Zionists, just as the Zionists arranged a 'pogrom' against jews living in Poland in 1947, for the same purposes of jewish emigration to Zionist Occupied Palestine. Around 150,000 jews served loyally in Hitler's Wehrmacht, some of whom I've met. The World War II Holohoax was cooked up on a typewriter in the British Foreign Office in 1943, but the "death-camps" were for Poles, not jews, at that time. The "gas chambers" were typed up, but erased by order of Sir Cavendish-Bentinck, head of British intelligence, whose note I have in the F.C. file, condemning the 'gas chamber' lie; so, no gas chambers as of 28 AUG 1943. After Germany's surrender on 8 MAY 1945, the 'gassees' became jews, rather than Poles, & all German refugee, prison camps & labor camps became "death-camps" with abundant "gas chambers." But in 1960, the Allies changed their lies by declaring that the only "death-camps" were the present 6 camps in Poland. The Holohoax serves to hide Nazi-Zionist collaboration during WW II, & to squeeze money out of "democratic" Zionist Occupied Germany. Naturally, our own ZOG has a major stake in The Holohoax, in order to justify our tribute to Israel & to bash Whites, since we're all "Nazis," according to ZOG.

I hope this brief overview of World War II lets you see it in perspective.

All the best & ORION!
