## NEWS BRIEFING

### Three Zimbabwe fertiliser firms close

Zimbabwe was facing another year of food shortages as three major fertiliser manufacturers had closed due to power cuts and a lack of raw materials, state media reported yesterday.

Elben Makonese, chief executive of Chemplex Corporation, which runs the three semi-governmental firms, said Dorowa minerals, Iron Duke and Zimphos had not been able to operate since last month.

"We have sent people on forced leave and on half pay because of these operational challenges," the Herald quoted Makonese as saying.

The Dorowa mine, which produces phosphate rock concentrate, a key component

in making fertiliser, had ceased operations due to persistent power cuts and lack of foreign exchange to import mining materials, said Makonese.

Fertiliser firms have so far produced 160 000 tons against a target of 600 000 tons for the forthcoming season.

Misheck Kachere, another senior company official, said fertiliser had been sold at a fifth of the cost of production as a result of government price controls imposed two months ago.

He said a 50kg bag of fertiliser was selling at Z\$88 000 (R2 530 at the official rate), while packaging alone cost Z\$79 000. — AFP Harare

## China plans to send jobless

### to live in Africa

Ben Nkomo 2/1

From SAPA-AFP

Beijing — China is preparing to send more farmers to Africa as rural labourers find it increasingly difficult to find jobs in the nation's urban centres.

At a meeting in southwest China's Chongqing city on Tuesday the head of China's Export-Import Bank, Li Ruogu, pledged to help finance African emigration as part of the city's urbanisation scheme.

"With the establishment of the [rapid urbanisation] project, several million farmers will have to move," the People's Daily quoted Li saying.

China's Commerce Ministry refused to say how many contracted Chinese workers have been sent to Africa, but according to state press reports up to two-hundred thousand Chinese-born mainlanders live in South Africa alone.

Dear Claude: Many thanks, indeed, for your letter of 5 OCT 07 & the outstanding enclosures. How odd it is that we must learn about the USA's economic difficulties in South Africa. Of course, that is not odd if one believes in ZOG. For decades, I noticed that important news does not cross certain lines on the map, as determined by the Talmudists. Some Goyim claim that such censorship does not exist, but I recall how the news about a trainload of radioactive milk from the Chernobyl Disaster was detained en route to Holland by German demonstrators. The milk was to be used as cattlefeed in Holland, thus recycling the radioactivity into the human food chain. Not important? The ZOG of Canada deemed it 'unimportant', so that news was only broadcast on the Chinese news program. I saw it on TV & understood the German narration before the Chinese voice-over. As far as I know, the story never reached any English or French language news medium in North America. In the Jewnited States, it is normal, that is, kosher, to learn much after the fact that an event important to Blacks & Whites is only conveyed to Blacks by the jews-media. Fortunately, Whitey still has the Internet, at least for now. The question in my mind is that if Whitey does so little or nothing when he has the information, what will he do when his information is shut off? The Mexicans have a term for that: NADA (nothing)! In my building, most denizens ignore the fire alarm bell. I don't, but I'm not a normal Goy, I guess, so I check to find out what is going on, & if there is indeed a fire. In the Jew Ass Cy Veh, it's every man for himself. That is The American Way.

Thanks for your wise advice to Brian. Why should one make obstacles for himself? as you say.

Wayne appears to live in his own private universe. In my latest reply to him, I said that I find not one correspondent, whom I've contacted, to be the least interested in his Logos Phantasmagoria or whatever. The name itself would deter most people. As you say, a religion must appeal to the whole spectrum, from dumbest to smartest. The Theme must be simple & powerful, so all may understand. The variations, that is, details, may be amplified to those who are interested & capable of understanding them. Why can't Wayne learn what works, before he posits what he intends as more than a philosophy, but as a universal religion? He jumps to conclusions in regard to politics. If White Nationalism has not succeeded in attracting adherents, then he concludes that it does not work. But I can say the same thing about his 'religion', which shows no success that I'm aware of. Otherwise, I'm sure Wayne would tell me.

It would be wonderful if Putin could pull Western Europe out of US-ZOG's orbit by means of Russian oil & gas. If Europeans will not react to principle, on behalf of White Survival, then they may be forced into acting in their own best interests by a Russian oil cut off. No, I've heard nothing about any recent Russian oil/gas curtailment.

Your description of Black Rule in South Africa is worse than I would give Blacks the discredit due them. It strikes me as similar to turning over a banquet to a horde of monkeys. Well, what else could we expect? IMPACT summed up the role of the liberal idiots in encouraging Whites to believe otherwise than what IS. Christians have done it for centuries, so there is nothing new under the sun, it seems. White stupidity is certainly nothing new. It is interesting to see how fast the USA is coming to resemble South Africa, in both stupidity & corruption. There's only one thing to do: Blame Whitey! Then we can relax & watch niggerball on TV, as long as the lights stay on.

Elmer Pendell, who wrote "Sex versus Civilization" says that the Problem-Makers who out-breed the Problem-Solvers destroy civilizations. What the Mayans prophesy is simply the outcome of a recipe described by Pendell. Wayne claims that "eugenics does not work," so we should dump it in favor of his universal doctrine.

The Chinese program for taking over Africa appears to be unopposed by ZOG. Who could resist such a takeover? Certainly not the Blacks, who continue to fight amongst themselves & to exploit their own people, unto death. That little item from South Africa's Business Report indicates that the Chinese plan to use their surplus dollars & surplus farmers to dominate & repopulate the Black Continent. Interesting times, indeed! All the best. ORION! 88!

P.S.: Thanks for the NEXUS articles. They open up new possibilities, but none of which I'd bank on, for sure. I read "The Report From Iron Mountain" in the late 1960s. I question the assumption that society needs perpetual war for "perpetual peace," but I agree that we have been experiencing Orwellian wars in the guise of 'fighting' an external enemy, with the reality being war of the government versus the governed.
