

22 OCT 07

Hail Jason! Thanks for your letter & article of 17 OCT 07. I'm glad to read that you are getting some things to do during the short time **before** your 'graduation.' Your real job of survival will begin when you are out in the so-called free world, with its struggle for existence. Then the ideas must fit the realities.

A comrade recently sent me 2 essays by David Lane in which he states the problems: We are marked for extinction by our rulers, prior to which we are being impoverished by loss of jobs & falling wages. Our former living space is being invaded & occupied by nationalistic aliens whose agendas are given preference by our rulers. The blighting blathers & backbites, as shown by some troo-jooz who announced that David is now in kosher 'hell', while other groups have the same old message: "Me-me-me" & "Gimme-gimme-gimme." "The 14 Words" are repeated like a mantra, with nothing at all to tell us how they may be realized. Let's consider that our living space is being ruined by alien occupiers who deplete & pollute it. Could we solve our problem by reciting our 14 Words? This is going on right now, along with the importation of drug-resistant, deadly diseases, such as AIDS, TB & a highly-infectious staphylococcus which is transmitted by unclean hands, coughing, sneezing, body contact & contact with others' clothing & personal items like razors. So far, hospitals have been a major source of this infection, because of their lazy reliance on antibiotics, rather than hygiene. Our alien rulers are bragging that they are introducing the carriers of these diseases, along with crime, into our former living space. Maybe if we repeat the 14 Words louder & more often, all this will just go away. Ha!

What we would like to achieve does not tell us how to achieve it. Whites are individuals who are exploited by non-Whites who are organized into groups on behalf of their national interests. Teams usually win against individual all-stars, but Whites refuse to form their own team to address White interests, for that would be "doing something," & doing something takes time & effort, as we know. Some Whites, way too many, think that they should behave like their enemies. If we can't beat them in their virtues, we think that we can beat them in their vices, like trying to drink them under the table, &c.

Free speech is largely gone, as the kosher ADL announces on their website. Few states in the USA lack laws persecuting the exercise of unkosher freedom of expression. Please look up such information. I enclose a flier about this loss of freedom. Firearms are being restricted to legal, White U.S. & Canadian citizens, but not to illegal alien invaders. Our local mestizo bandidos have so little trouble acquiring weapons that they even export them to their fellow gangsters in Mexico! But they are themselves illegal, & so are their weapons, & often, their cars. Our rulers seem unaware of this situation, but they really support it. White racism is a 'crime,' but non-White racism, like La Raza Unida, The United Race, is not only legal, but is recognized & supported by our rulers, who rely on Whites to enforce such anti-White policies. How would we describe such anti-Whites? Klassen can not, but I can, based on my years of experience at their hands, & their own statements.

The newsletter you sent me reminded me of a Catholic religious newsletter. Once again, can we defeat the enemy by behaving like him? You mention in your essay how we should look good to the public. Why did we look bad in the first place? So now we must 'prove' to the public that we are 'nice' by picking up their trash. "Look, Pancho, we're nice Whites, because we pick up your garbage." Pancho sees it this way: "The trouble, Gringos, is that you are White, & that you cannot overcome." Others have their nationalism, so Whites must become White Nationalists. Only that way can we turn the 14 Words into reality. We can't do it by robbing or by doing ANY of the things listed in "The Turner Diaries," as Pierce knew. That's why he wrote it. The fate of The Order proved that. Why can't Whites work with Whites, on behalf of Whites? The likely answer is that so many Whites are obnoxious. Their belief is, "What can I get out of my race?" Our belief should be, "What can I do for our race?" In regard to your essay, which is good, as far as it goes, I would not change a word of it, but you need to explain if you would subordinate politics (people-power) to Klassenism's pseudo-religion, which is highly irrelevant to White Survival. My approach is in terms of what Whites can understand in plain English, without bygone Roman forms. To use the title of Pontifex Maximus reveals that one is really a Gluteus Maximus. As a White man, I believe that Form Follows Function. I don't pretend to be a Roman pope or emperor, military commander, &c. Any title will be derived from my function as a leader or teacher, who has followed & learned, as a representative of Our Race. As racially-aware Whites, we must always see 'movements' in terms of their harm or benefit to Our Race. We must always ask ourselves: "Is this good for Whites?" I think in terms of "us," rather than "me." Hence, I need no titles. All the best & ORION! on behalf of The 14 Words. *End*
