

24 OCT 07

Dear Phil: Many thanks for your letters of 18 & 22 OCT 07 + all the great enclosures! The Idaho Observer's viewpoint is disintegrating into the old kosher-konservative shards. They can't distinguish between fascism (the corporate state) & National Socialism (the racial state). Other writers have long ago pointed out the militarization of the U.S. police forces, which now behave as occupiers, rather than citizens. Counter-insurgency writer David Galula pointed out that police are different from military, if they are to do their job properly. The role of police is to be close to the civilian population. The job of military is to keep a distance, to only go out in force, which makes them occupiers. Distance means poor intelligence, that is, poor knowledge of the population, for barriers are set up to restrict the communication of the public with their police. When I was a kid, one could ask a cop what was going on. Nowadays, cops fear to tell you anything. You must 'find out' only what the jewsmedia tell you about a car crash, a riot, a robbery, &c. When I was a kid, citizens were expected to help the police, & they were often asked to do so. Now, police are 'professional', that is, mercenary forces separate from civilians, who are told only what they 'need' to know. In "The Battle of Algiers," the cop on the beat who associates with the people is deemed the most dangerous man for insurgents, because he is in communication with the general population. A former British detective told me that one's job & one's promotions are due, principally, to one's informants. This means that the plain clothes cop must circulate in places where the crooks are. Crooks sell drugs & stolen goods. They also sell information, usually by finking on other crooks. As we know, snitching is a dangerous game, so my cop acquaintance would arrange to meet the 'hot fink' who'd tell him that he needed to be arrested & jailed for a reasonable time to get the heat off. Other crooks suspected that he was a fink, but they figure finks don't go to jail, so jail time is good cover. The cop & the crook would arrange a heist at which the crook would be caught. In demographically stable countries, the cops knew their crooks & there was a modus vivendi. If the authorities REALLY wanted a case to be solved, the cops knew just who they should contact. But this is not so in a multi-racial society or empire. In my colonial experience, police worked according to the population of a given area. In the tribal trustlands of Rhodesia, native law had to be taken into account, & in White areas, White law was in force & effect. In a case of alleged witchcraft, a White who killed an alleged witchdoctor would be charged with murder, but not so, necessarily in the case of a Black, whose motive was self-defense. Blacks believed in the power of hexes, so if a Black believed he'd been hexed, he'd try to find the witch responsible & do him or her in, a.s.a.p. I noted similar colonial law enforcement in San Francisco: In the Irish area, one could get falling-down drunk; outside it, one was arrested. In the hippy district, pot smoke billowed into the street, & the cops strolled by, unconcerned; outside the "Hashbury District", a pinch of pot would bring down heavy charges. In Chinatown, firecrackers were often heard; outside, fireworks possession & use was strictly illegal. But there was only one law on the books, which supposedly applied to everyone. Ho, ho! Not too long ago, having sex with minors was deemed a serious offense, especially if the male had sex with a minor female. But in Mexico, there is no such procedure. If a girl can become pregnant, she is deemed a woman. In France, for example, the age of consent for a female is 14. For boys, it's whenever he can get it up. I note that the ZOG is fudging & fiddling about "underage" intercourse, since hispanics don't deem it a crime, & no witnesses will come forth, nor plaintiffs, for that matter. Young females are chaperoned. If not, they get pregnant in due course. Sex laws mostly apply to Whites, rather than non-Whites.

One I.O. article lamented the NATIONAL separation now underway in the empire of the USA. The writer is horrified that different nations of people would seek to be with & to advance their own interests within the U.S. empire of ZOG. The writer seems to believe in some form of illusory 'good old days', which never existed. The fact is, that the abuses in the past led to present abuses. The USA was rotten to begin with, despite all the hypocrisy in writing from the snakes like Jefferson, Hamilton et al., who were Rothschild Freemason agents. Our standard of living & our 'freedom' were not the outcome of our verbiage, but of our vast area & rich natural resources, upon which we bred a mob of fatheads & blubber butts, alias consumption-excretion units, as is now so evident. David Lane had that right, & I appreciate the essays which you sent.

I.O. hints that the North American Union may not be far off, as I certainly agree, in view of the great changes in demography & economy. ZOG under Bush II seeks to privatize most everything, including the military, the postal service et al. The state has dropped its mask as a public entity. It always was a servant of private interests, chiefly bankster jew interests, but only in the name of the public. Now, Smedley Butler's depiction of a

"racket", that which benefits a minority at the expense of the majority, is becoming overt, but the dumb Goyim, i.e. the Whites, are too dim-witted & dim-visioned to see what is right in front of them. The proof of that is they still sign up for Iraq! Such a deal.

Gambling, with which I'm familiar, is not productive. It is redistributive. My casino boss described it as "entertainment." It is addictive, like fishing, hunting & prospecting, for those who believe that they will finally catch the big one; shoot the buck with the big 'rack' of antlers; strike the mother lode bonanza; win the jackpot, &c. As head of casino security, I have seen more blackjack games than I'd ever want to. For me, gambling is boring. When one knows that the odds favor the house, there are few surprises. I've seen gamblers win, then continue playing, so they just lose it back to the house. But for some, the repetition of shuffling, dealing, shuffling, the spinning wheels of fortune, are hypnotically attractive. The casino world is an exotic place which sells hope, vicarious glamor & contact with wealth in its most tangible & visible forms. The hope is always that one is 'special', that Lady Luck will allow HIM or HER to beat the odds, like the prospector who hopes that his big strike is just around the hill.

Addictions disrupt normal life. That's when they become noticed. An individual & his family can go broke, especially if the bread-winners become addicts of booze, drugs & gambling, which takes on many forms, including stock speculation & housing bubbles.

The mobsters who run Las Vegas say that you can have a good time in terms of high-life, as long as you don't gamble! They should know. One can enjoy the food, the accommodations, the entertainments, &c. without going broke, but gambling can turn the vacation into disaster. I heard the "Yakima Success Story:" A Yakimoron drove down to Vegas in a \$50,000 Porsche. After a week, he returned on a \$100,000 Greyhound bus!" Such a deal!

So, what should be done? First, we should consider the facts: ALL MEN ARE NOT CREATED EQUAL. Fewer than 1 out of 20 are potential leaders. The 19 out of 20 are sheeple. Sheeple, i.e., the majority, need someone to tell them what to do. Because they lack leadership potential, they cannot govern their lusts. Hence, the prohibition of booze, drugs & gambling is good for sheeple, who make up 95% of society. Prisons absorb lots of sheeple; so do addiction recovery centers, but the need for supervision & guidance remains constant with a herd of sheeple, as any shepherd can tell you. Sheeple follow the rule of 'doing in Rome what the Romans do.' They have no inner guide. The jew sociologist, Riesman, described them as "other-directed," as distinguished from "inner-directed" & "tradition-directed." Moslem societies are tribal & tradition-directed, for example, & those traditions conflict with the imposed violence & decadence of ZOG's empire, which resembles decadent Rome. The Romans came, they saw & they conked out, as will the USA version of Rome, & the tribal traditions remained. ZOG cannot abide behavior & values which are not totally consumption-oriented, as in the Jew Ass Oy Veh. Islam is Target #1 for ZOG, because Islam forbids usury, as the limp Christian churches once did. The joke was that the Church allowed jews to lend money at interest! Such a deal. Christians are absolute scum. The reason the U.S. churches were full in the 1700s was that church attendance was compulsory, with stocks, floggings, ducking stools & burning at the stake. Ducking stools were an early version of "water-boarding!" And Christianity was most noted for its White slavery. The Pilgrims brought their White slaves with them on The Mayflower, for example. So much racial sacrifice, for worse than nothing! Now, our jew masters are done with us, so our extinction is their present program.

The jewsmedia tell sheeple what they 'want' to do, so our society is linked to the consumer behavior depicted by the jewsmedia of education, information & entertainment, as in "They Live." Note: I should have written "edjewcation," for it is really ZOG-indoctrination.

The news from Gary, IN, reminds me of the news from South Africa, in regard to crime & corruption. This merely illustrates that culture is racial, as we can see in ZOG's gulags. For Whites to survive, this evil empire of ZOG must be destroyed. That is bound to occur, but can we survive the destruction? That's up to us. If we behave as we do now, White Survival seems most unlikely. Welcome back to Southern China-duh. On good days, you may be able to see the lights of "Hongcouver." NPR jewsradio says that the Chinese are funding Hillary, so she is The Manchurian Candidate. Take care! DOWZ! ORION!
