

28 OCT 07

Hail Michael! Many thanks for your note of 11 OCT 07, with trenchant enclosures. I received a different copy of the Aylward letter which I have copied for worldwide distribution as the author requested, with a copy to Liberty Rights Advocates. It's time to make the zoggies eat their own hypocrisy, & then some.

The great flier on ZOG's promotion of all racism except White may serve to focus a few of Our Folk on reality. In Toronto, we subscribed to The Canadian Jewish News, which had lots of useful content. One JDL ad listed the reasons that Jews should support the JDL. I suggested to The Zud that we simply print the JDL flier verbatim on one side of a sheet of paper, & ^{on the other side,} wherever 'Jew' appears, we should insert the word, 'White.' As our heading on both sides would be the question: Which side is 'racist'? But The Zud merely placed that in his Thud file, which stood for "Things Undoable." A comrade told me that he didn't use the idea because I'd thought of it. He liked what I wrote, so he signed his name to such things as "The West, War & Islam", "The Hitler We Loved & Why," for which he provided pictures, but no text, "Secret Nazi Polar Expeditions," & the Foreword for our publication of "Did 6 Million Really Die?" The former & the latter got The Zud into 6 thought-crime trials, which went twice to The Supreme Court of Canada. CANZOG thumbed their ample noses at us, for the Supreme Court nullified the law under which Zündel had been charged. Britzog had previously nullified its "False News Law" decades before, but CANZOG chose not to recognize the precedent until they'd squeezed The Zud into fame & fortune, which he subsequently squandered on ego, lust & greed. That caused him to wind up in Zionist Occupied Germany, where he will serve at least 5 years for thought-crime. One of his German attorneys is charged with thought-crime by her attempt to defend Word Criminal Zündel. Such a deal! Hitler declared that "The more of 'human rights' we hear, the fewer of them there will be." ZOG proves him right, every day in every way.

The revelation from Paul Harvey re Hillary Clinton's defence of a Black Panther murderer adds to the Clintons' alleged body-count, which Al Capone would envy. Obviously, some killers are 'more equal' than others. NPR jewsradio reported Chinese financial support for Hillary, which indicates that she is our "Manchurian Candidate."

Meanwhile, we hear a rising drumbeat for war against Iran, similar to the bogus pretexts for our war against Iraq & Afghanistan. The demented Bush may think that it is desirable to make The Middle East, at least Syria, Iraq, Iran & Afghanistan, into one war zone. But China & Russia are not pleased. China wants oil, but Israel wants war. Former Mossadnik, Victor Ostrovsky, mentioned Israel's hitlist in his book, "By Way of Deception." It was #1: Iraq; #2 or #3: Syria & Iran. So what's in it for the Jew Ass Cy Veh? Blood, sweat & tears. That's all, folks! If Israel does its Old Testament tricks, in which the Jews switch from one host people by betraying it to another, as in Babylon, followed by Spain, Holland, Germany, Britain & the USA, I guess that our ZOG has sold us out to China, & Bush is just bleeding us into the sands of The Middle East, as China watches. That looks like 'the rest of the story.' We may see the advent of The North American Union fairly soon, according to sources such as the Internet, The John Birch Society, The Idaho Observer et al.

So what does Whitey do? He enlists to fight in Iraq. Let's hear the Goy cheer, loud & clear: "DUUH!" Hey, Pancho, won't you at least wave goodbye to the dumb Gringos? They're making more space for you.

Thanks for the pages from the "utne" publication, which I take to be Wobbly, that is "International Workers of the World," &/or Trotskyite. It is said that a Trotskyite without a bomb is like a day without sunshine. My understanding of the Brits' departure from India was ^{from} mutinies in The Royal Indian Navy, instigated by the Chandra Bose Indian National Army. A Bose supporter allegedly killed the pervert, Gandhi, whom the Brits left in charge. Indian diversity-divisions made British conquest of India easy, & the same made bankster rule just as easy, for money was lent to the warring parties, following official Indian Independence in 1947, if I recall correctly. Savitri Devi told me that she spied for The Indian National Army during WW II, & she hinted at her connection with The Bombay Disaster, in which all the Brit ammo ships in the harbor blew up one fine afternoon. In Rhodesia, I met numerous Brits who'd served in "Inja" before & during WWII, as well as North African vets, who had good things to say about Rommel.

The "utne" article on the suffering of the workingclass of the Turd World avoids important questions. If sweatshops were NOT available, what would these hordes of people do? Could they survive as Buddhist monks with begging bowls? What I see worldwide is Mindless-Multiplication + Malevolent Materialism; the one feeding off the other. This situation breeds crowding, increasing poverty, pollution & depletion of items we all need to exist.

2)

It also breeds wars, which have long been the bankers' harvests, since whoever 'wins' the struggle makes the bankers rich.

The "global-warming" issue is contradicted by proponents thereof who mention how volcanic eruptions have changed the Earth's climate by blasting soot & ash into the upper atmosphere, thereby causing global COOLING. When our local Mt. St. Helens erupted, jews-media pundits alleged that our volcano had produced more pollution than had man's coal-burning factories in 100 years. Mt. St. Helens was blamed for causing climate-change in the form of cooling, by blocking the sun's radiation, so the way to reverse global-warming is obviously to build very tall smokestacks to deposit lots of soot into the upper atmosphere, so as to block out the sun's heat. "Problem solved," as the Chinese would say. The nullification of "global-warming" by CO₂ would not solve the twin problems of depletion & pollution, however, nor the problems of overcrowding of the sort I've experienced in Turd World countries. Sheeple who live in North America do not know how much living space they enjoy. I marvel at my own living space: So much space & comfort for only ONE PERSON! I know I've got it good, for now.

The author of the "quilt" article in "utne" dovetails with Noam Chomsky's informative book on "The Washington Connection & Third World Fascism," which supports my findings in pseudo-nationalist Peru. If we understand Fascism to be a corporate state, rather than a racial state, then the U.S.A. has long functioned as such a state, on behalf of global bankerism. Chomsky & I are in agreement that the ruling classes of the Third World are middlemen in the exploitation of their countries' people & resources, for the benefit of the globalists' racket. Perhaps Chavez' Venezuela will break the rule, but I suspect that he is beholden to China, as Castro was to the former Soviet Jewnion. According to a CIA report, Mexico is long overdue for another civil war, similar to the one which broke out in 1910 & lasted to 1929, with the addition of a Cristero Rebellion in the 1930s. Mexican breeding rates easily outpace their emigration into the USA, although Gringos may not believe it. The recent pipeline explosions in Mexico which shutdown their steel industry indicate that their guerrilleros are serious. A major crisis in Mexico will likely signal the advent of The North American Union of Canada, USA & Mexico, at the expense of the Gringos & their standard of living. Even the very kosher John Birch Society is lamenting the obvious trend toward the NAU.

How can we solve the abovementioned problems of over-population, predation & parasitism? Over-population will solve itself with starvation, disease & war. Those who profit from such evils will need to get into some other business. If pollution of all sorts: Nuclear, Biological & Chemical, renders Earth uninhabitable, we may have to emigrate to another planet. If so, who will be 'chosen'? The most productive, or the most predatory? I recall an old U.S. movie in which Earth is self-destructing & the escape rocketship lacks time & space to accommodate its smart, fit, White space colonists, but a richman wants to buy his space on board. I seem to remember that the ship left without him, but I don't recall events leading up to it. Eugenicist Elmer Pendell posits that "Man improves when Nature is nasty, but he degenerates when She is nice." He believes that civilizations are created by Problem-Solvers, & they are destroyed by Problem-Makers, who generally outbreed Problem-Solvers. When the Problem-Solvers cannot keep up with the Problem-Makers, the civilization goes kaput; there is a huge die-off, during which the Problem-Solvers tend to survive, to start a new civilization, &c. Problem-makers cannot defend a society. They can only help to destroy it, like the Roman mob.

The "utne" writers would be called "useful idiots" by "Lenin," because they seem to believe in Marxism's credo of "From each according to his ability, to each according to his need." Need is infinite, & the more needy you feed, the more needy they breed. "Lenin" was in power almost a month before he dumped Marxism in favor of "Those who do not work shall not eat!" This contradiction he called "Marxism-Leninism." Meanwhile, "smooth-handed Goyim" were being shot by roving gangs of the kosher Cheka.

I suggest that we go back to our roots: to base our state on family, clan, tribe, nation & race. Our Racial Nation must be seen as an extension of our families & of ourselves. Such a Nation would no longer sacrifice its children for profit, as the biblical jews did their children to the fires of their molech ceremony. Breeding Problem-Makers serves no one, neither family nor nation, so we must consider fitness as the admission criterion. Our motto shall be that of La Raza: Everything for Our Race; nothing outside Our Race. I add to that: "No rights without duties." Problems created by Man can also be solved by Man. All the best. DOWZ! ORION!

Eris
