

20 NOV 07

Hail Kevin! Many thanks for your letter of 11-11-07, the twenty & the outstanding selection of news items, including the crazy jew whose professional paranoia seems to have become unleashed. It must be tough to be a jew when one believes his own lies: "All the Goyim are out to get you, jew, so kill them before they kill you!" In psychology, this is known as a self-fulfilling prophesy: "Everyone hates me, so I hate them." "Everyone wants to hit me, so I'll hit them first!" "They're all persecuting me because I'm the greatest!"

Congratulations for coping with your insane work schedule. Why must we put up with this harassment? Medical professionals, from interns to nurses, complain about their work overloads due to insane scheduling. I remarked to one nurse who refused to take her shift because she was so tired, she'd be a threat to her patients' health; I said that truck-drivers have better hours than hospital staff. No wonder so many medical errors occur!

India didn't need the invading Brits to divide the population of the Indian subcontinent. They were already a diverse, multi-cultural mishmash, so the Brits found it pretty easy to conquer those who were already divided. The divisions continued after the Brits left, but their bankster empire remained, as it does today, to maintain its mischief. Wars are, after all, the jews' harvests, & perpetual conflicts add to their wealth & power. It sure makes us glad to know that we're helping the jews achieve what they want: wealth, power & the elimination of Whites!

As I mentioned to Brian, the problem with White Activism is deportation. It's been done to me 5 times, even when I was just a journalist with no particular ax to grind. Of course, I was escorted out of the USA, despite the fact that it was & is my legal domicile, 'cause if you have the gun, thy will be done. At least, I wanted to know why I'd be shot by zog-gies, so my curiosity made me want to live long enough to find out why. Now I know, & I can still tell about it: I was a White who was blowing the whistle on ZOG's ops in Latin America + The Cold War Hoax, straight out of Orwell's "1984."

Obviously, minions of other Zoglands are on the lookout for pro-White Whites, so I do not think I'd be welcome as a tourist in Ireland. I'm probably on FEDZOGUSA's "no-fly" list, but I won't check on that. Re travel: I hear on jewsradio that this state is considering toll fees for road-use, in view of rising costs of road maintenance, due to inflation. This means that Goyim must pay inflated prices for purchases, plus inflated taxes thereon, plus new fees! Such a deal!

Maybe the reduction of travel will cause Goyim to do more thinking, instead of aimless driving. I note that most sheeple don't give a hoot about learning until they are locked up in the ZOG's gulags. Only then do they hanker for knowledge, just when it is hard, if not impossible for them to get it, because of gulag censors. One righteous fool wrote that he was leaving the ZOG-gulag, for his sentence was completed. I heard nothing from him on the outside. Then, I received his letter, from inside the gulag. He told me that he'd burglarized a local merchant & was back inside. I asked him how he thought that accomplished The 14 Words of David Lane, by leaving his wife & daughter, as I understand. With such 'qualifications,' he says he wants to buy land on which to establish a White community. "Rots of ruck," as the Japanese sage would say. Ah, the Wisdom of the East! (With eggroll you get a fortune cookie.)

I'm sure Hasidic Harold enjoys his blog, but wait, didn't he used to chide "those perpetual keyboard-peckers" & their "incessant tappity-tap?" Harold generally does exactly what he condemns in others. Stay tuned! I think he exists to annoy others to the best of his ability. Apparently, there's no life like it: Become a legend in your own mind, by leaving reality behind. Yup. Sooner or later, he annoys everyone. He did so with me when I received his infamous agent provocateur letter, copy enclosed. I can read English, unlike most blightwingers, who figure that it's "just a, duh, letter." It is also a document that ZOG may use to implicate its recipients as "terrorists." Nice work, Rabbi Covington!

Please get some rest. All the best. ORION!
