

**NORTHWEST PIONEER ASSOCIATION**

AGENT PROVOCATEUR AD  
HIS LATEST 'MISTAKE.'

July 10th, 2006

Greetings, Racial Comrades:

I am enclosing Part Six of the Book Four excerpts, from the my unwritten Northwest novel tentatively entitled *The Brigade*. I hope you like the way it's shaping up.

Remember, these excerpts are underground *samisdat* literature designed to convey subversive ideas which cannot otherwise be expressed except in the guise of fiction, what Lenin called "Aesopian language." They need to be photocopied and distributed within the Racially Conscious Community, so that the knowledge and ideas contained therein can reach people who may someday be able to make use of them. For this reason, you have received these excerpts in loose-leaf, unstapled format, in order to facilitate their being fed into a photocopier. If the pages arrive in your mailbox in a creased, folded, or bent condition, please use several heavy books on a table to flatten them out again so that they will reproduce.

**These excerpts are heavy to mail, and require extra postage as well as specially purchased manila envelopes. Your assistance is solicited, especially in the form of postage stamps.**

Guys, these pieces may be the most important things I ever write. I'm not joking when I say that as paranoid as the United States government is today, these may get me arrested and sent to a cell next to Matt Hale\*. **Make sure you read them and understand their message.**

Hail Brian! Many thanks for your letter & enclosures of "17 12 28-07," as appears on the postal cancellation stamp, much to my bemusement. I guess Cork is on the border of a time zone, so postal clerks may take mail from one side of the building to the other, thus crossing an international dateline. Most likely, this is the Nigerian way of recording dates.

In "The Military Thoughts of Chairman Mao," he speculates on the strategy reflected by both sides in the Chinese Civil War between the Mao & Chiang forces. The Mao forces attack the enemy's lines of communication, while the enemy occupies points or towns. Thus it is a fight between points & lines. Will Mao win if he controls all the lines? Will Chiang win if he controls all the points? In your case, you have excellent communications, worldwide, but it seems that you have no reliable boots on the ground. I shall test your postal situation by sending this trial letter, with more to follow if you reply that you have received it. I'm glad you got the National Geographic, a time capsule of Ireland. Now the cop might be Black, as in Britain. Demography is Destiny. Diversity = Destruction.

Like you, I too see Covington as a talented writer, although he seems not to know that the Mafia is Jewish, through & through, & he romanticizes the Confederacy, which was a Jew-bankster critter, just like the USA. General Cornwallis predicted to Washington, at the signing of his surrender document at Yorktown, that the U.S. sheeple would be back under the British Bank of England Empire before we knew it. That prediction came true when 1/2-Jew Hamilton conned the Rothschild-slave Freemasons into approving the creation of the first U.S. Bank, which imposed debt-based currency on the former colonies, just like the Rothschild Bank of England. As long as the Rothschilds controlled the currency, the USA was & is still part of the Bankster Empire, which the dumb Brits thought they owned. Some patriots, like Andrew Jackson, recognized the U.S. Bank for what it was, & refused to renew its charter. The War of 1812 was the result from failure to renew the first U.S. Bank charter, as I recall, & Jackson refused to renew its 2nd charter. Cornwallis' 2nd prediction was that "Your nation will be destroyed in a holy war." The religious fervor of The Civil War was reflected in "The Battle Hymn of the Republic." The Jew banksters supported both sides on behalf of their power & profit, & the Goyim rushed over the precipice, like good Christian sheeple. Cornwallis' third prediction came true, as well: "Your religion will be Judaism, but you won't know it." One proof of that is the kosher food tax, which constitutes an establishment of Judaism as the U.S. state religion, for no other religious group may tax goods in interstate commerce. Covington appears to know nothing of these facts, as I gather from his fiction. All USA wars have been bankster wars, for "war is the Jew's harvest," as economist Werner Sombart observed.

Aside from his otherwise good writing, Covington's behavior has never served White interests. I ignore him, as you should, for your own good. According to FBI Director Mueller's public statement, anyone who advocates the violent secession from the USA is a "terrorist," "conspirator," & "illegal combatant." Those who communicate with such a person are deemed "Terrorists," "co-conspirators" & "illegal combatants." No proof whatsoever is required by ZOG, as amply proved by precedents as The Padilla Case, & the Liberty City 7 Case. I protect my own interests by having no contact with Covington. Thus, my warning to you is not intended for you to take sides, but to protect your own interests, as you see fit. I do not seek to 'censor' your communications in any way. In view of ZOG's international approach to anything it deems "terrorism," plus its monitoring of all communications, we take certain risks if ZOG deems us to be in contact with so-called terrorist advocates, who are deemed "terrorists" by ZOG. The burden of proof is now on the accused, & not on the accuser, thanks be to ZOG. Just be careful.

As you say, we should beware of enemies in White skins. All the best & Good Yule to you. ORION!
