The Sons Of Albion is a Pan Aryan Temple of research and learning established to meet the urgent survival, cultural and spiritual needs of all Aryan people.

By providing the essential Euro-ethnic products, teachings and inspiration, a means can thereby be attained to awaken adherents of all ages to the roots and essence of their true ancestry and nationhood. Such avenues of learning are virtually non existent in todays Aryanphobic public education and religious institutions. To these ends, the Sons Of Albion is not only extremely necessary but critically urgent to the survival, expansion and advancement of all Aryankind worldwide.

It is the aim of the S.O.A. to cultivate and disseminate the very highest ideals, values, customs and traditions that are the keystone of our heritage and thereby insure that uniqueness of species which is our birthright. No oak tree grows without soil, root and strength. No man comes out of the unsubstantial. The people are his soil, history his root, blood his strength.

A people whose roots are strong cannot be toppled by gusts of fad, foolishness, innovation, superstition and a controlling systems distortion of truth.

Hail Joseph! Many thanks for your letter of 30 DEC 07. Intentions are ^{often} different from results. It is also questionable to choose means which may defeat ends. Even the Jew, "Lenin" warned about hold ups 'on behalf of the Party,' for he did not want bandits to use The Party to justify their actions. Politics is people-power, so reputation is most important in people's minds. I have experienced lots of bandits posing as rebels & patriots in Latin America. They show no more morality than does the government, only that they are out & the government is in. Whom did they fool? Only themselves, for they have no popular support outside their own areas of operation. In Colombia, I saw rebels become bandits or 'terrorists', but now, they are 'narco-terrorists' who confuse their cocaine cash with 'a cause.' In Mexico, the narco-traffickers have become narco-terrorists, without pretense of political principles. I'm not aware of any 'movement' worthy of banditry, as Pastor Miles wrote in praise of the Order, virtually in your own words. If there had been a movement to begin with, there'd have been no reason for The Order. The days of Jesse James are over, as so well illustrated by "The Wild Bunch," in which the telegraph informs the town that bandits are on their way. Hence, the town is prepared, & the bandits come away with bank bags of steel washers, instead of the gold coins they wanted. Such a deal! ZOG can follow the money, whenever it wishes.

Why can't Whites teach Whites outside the ZOG-gulags? Or, is that the only time Whites are prepared to learn anything? I suspect so. The situation in the gulags seems to preclude White on White education, since the zoggies will segregate White instructors from the general prison population, for that is their job. David Lane was in solitary, as I understand, so he could only instruct people on the outside, before they went inside & after they got back outside. It's a bad joke to recite The 14 Words in solitary, for they cannot be realized. Other gulagniks inform me that many prisoners 'discover' their martyrdom as 'political prisoners' on the inside, but forget all about it when back on the outside. This procedure is known as hypocrisy.

Congratulations on your belief that you must start with people, before you decide to live with them on a piece of property. Several blightwingers I know did the reverse, only to discover that the people in their compounds did not agree with them, so causing the properties to be lost to the ZOG. Pastor Butler experienced this problem, as well as others I could list. You don't need that.

As a long-time leafletter, I advise you to use the Internet instead. Potential supporters are so far apart, that handing out pamphlets or fliers is very non-productive. In Toronto, Canada, where houses were conveniently close for leafletting, I put out over 5,000 fliers, after which I received one inquiry from a Jew. I put out 5,000 more & received another inquiry from the same Jew! From the Goyim, NADA, as they say in Brownest Yakima.

I've corresponded with Karl Hand for decades, when I was still in Africa. My advice is that you contact him at the RNPA address, ZOG willing: RNPA, P.O. Box 1281, Lockport, NY 14095.

Any "Aryan" who sells drugs to Aryans is an enemy. In the Algerian patriotic movie, "The Battle of Algiers," the Algerian Nationalists crack down on all tentacles of the French colonial regime, including the drug-peddlers. Banks & drugs are two agents of the ZOG. 'Our' media of edjucation, information & entertainment are other parts of the Zionist regime which rules over us. Since Algerian independence, France has become a colony of Algeria, so the battle continues, but in France.

I don't think I received any letter from your opponent, for nobody has asked me to "check up on you." I have no way of investigating anyone on the Inside, nor many on the Outside. My principle is to take all correspondence at face value, so I judge writers from what I read from them. It is hard for silly or shallow people to hide that from me, & also, silly & shallow people don't usually write. Ha!

National Socialist Vanguard is dead, along with its publisher, Rick Cooper, who went up to The Big Sky-Jew's Pawnshop, since he was an Israel Idolater. Or, he may be shovelling coal in the basement furnace room, according to the mythology. Rick's experience would make a good lesson for activists, for he published a decade or more, & made regular school appearances, but none to carry on his work has appeared. NSV, R.I.P.

I enclose a picture of Adolf Hitler, for historical purposes, which I hope you will receive, ZOG willing. All the best. DOWZ! ORION!
