# This whitey won't foot the bill:

THE MORE WE  
FEED, THE MORE THEY BREED!

Christi van der Westhuizen's article "White denial sustains continuing privilege" (Weekend Argus, November 10) is a bit puzzling.

According to the article 80% of whites have become wealthier. Yet according to an issue of the Mail & Guardian printed a few years ago, 600 000 whites were then living under the poverty line with that number increasing by 15% a year. A more recent assessment states that some 750 000 whites are under the poverty line. Rapport stated recently that some 960 000 whites are unemployed.

This does not show a picture of privilege.

While a few whites have become filthy rich under the new dispensation, the majority are struggling to make a living.

This is the reason for the present brain drain. Let us be honest – the only reasons whites would stay anywhere in Africa are sunshine, space, and money and of course for most, the inability to emigrate due to age or lack of qualifications.

We are constantly reminded that this is not our country any more, so why should we bother about the fate of others who do not like us or want us in the first place? Our children are subjected to racist laws which prevent them from fulfilling themselves, so why should they stay?

We worked our butts off to put children through university so they could have a future. Is that criminal? Had we lived in Australia or Canada, or Europe, we would have done exactly the same. We kept our family numbers low so that those children could have a better chance, while those who today are decrying our privileges were having as many children as possible to dethrone us. Now they are hoist by their own population petard and want to blame us.

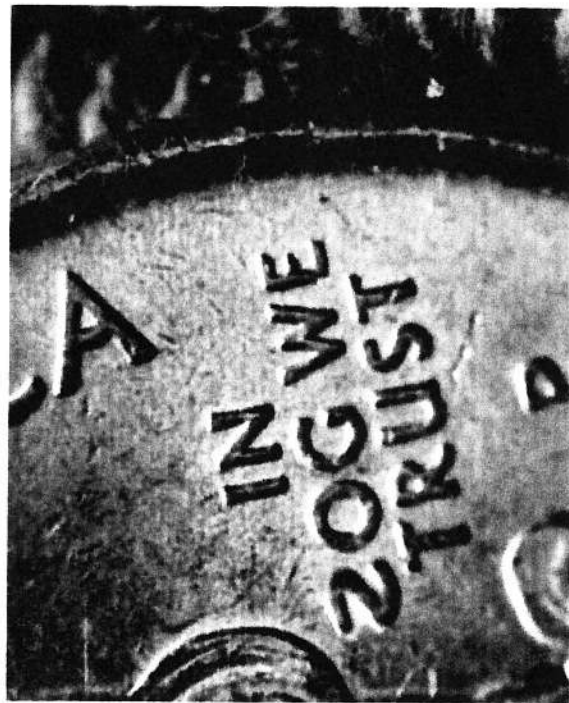

As to the lack of redistribution, we have a government owned by the multinationals and which has enriched its close friends immensely. They just took the cash and asked for more, and like in the rest of Africa, they forget their followers except at election times where they make them more promises which will not be kept.

If they are not interested in uplifting their own, why should whitey be bothered? If white bleeding hearts want to help, why not? Let them sell their assets and give them to the poor.

The words of Jesus to the rich man were: "Give everything you have to the poor and follow me." A crazy piece of advice if ever there was one, as the poor would have a big party for a few days and would be just as poor or even poorer after the hangover.

21 JAN 08

Hail Stevie! It was great to receive your letter of 14 JAN 08, & to know you received The Protocols, which are concentrated food for thought. I found reading them like studying a math or chemistry book, in which each sentence must be considered & carefully understood. "The Prince," by Machiavelli was much easier reading, but likewise informative. "Mein Kampf" by Hitler, & Hitler's 2nd book which was unpublished until the All-lies discovered the manuscript after World War II, were also informative in terms of political doctrine & practice. Sun Tzu is great for learning about military strategy, & it is not long. This material is literature for leaders & thinkers, as well as political activists. When I was in The Western Guard Party in Canada I used The Protocols in the cell I headed in order to educate my comrades. Although the booklet is very old, it is really up to date in terms of what goes on today. I saw leadership as providing knowledge to my comrades, so they would know what to do without being told, either as individuals or in a group. Unfortunately, The Party Leader was vain & foolish, so he was set up by ZOG in a "conspiracy" charge, for listening to a ZOG agent provocateur. The zoggie did the dirties, but the Leader got charged just for listening to him talk about his 'merry pranks.' In the terms of the Leader's bail agreement, he abolished his own Party! This wasted all the effort & the name-recognition we had earned for The Party. It was also a good lesson to me about one's choice of a leader, & the leader's choice of 'comrades.' The zoggie was an infiltrator, & his pranks fell under the law as "malicious mischief," which was on par with Halloween 'tricks.' But The Leader was charged with "conspiracy to commit malicious mischief," a much more serious charge than the actual commission thereof, according to CANZOG. The Leader just heard about it. He gave no orders to do it, & did not participate in the stunts, such as slogan-painting on walls. Today's ZOG might call such stuff "terrorism."

The only reward I'd like from you is to see your knowledge increase. Politics is people-power, & politics is also called "the art of the possible." I have used all means available to me to do the possible. I see the possible as education. My letter to Daniel refers. We must teach our people to WANT Nationhood, for unless they want that, they will not want to learn anything. We cannot expect them to behave as if they knew, for they can do nothing out of ignorance. For now, most of Our Folk want to be ignorant. "Who cares about ZOG? That's just a conspiracy theory!" I say it is a fact, for the ZOG's policies are everywhere to be seen, along with the victims who suffer presently from loss of jobs & falling standards of living, not to mention loss of their lives in ZOG's imperial wars.

I think you understand that the USA was always an empire (multi-national state) ruled by one nation: the kosher bankster tribe. I believe that the Goyim of "Usrael" will need dissatisfaction before they will be ready to receive a new message to address their ills. So as long as ZOG can deliver their "bread & circuses," the Goyim will be happy. In the meantime, our job is to educate ourselves & as many others who will listen, read & think. We must mobilize ourselves so as to cope with crises, but most of all, we must avoid enslaving ourselves to ZOG mind-pollution media & chains of debt, so I say, "Shun TV & stay debt-free!" Naturally, this is a radical lifestyle, but it's one forced upon me by poverty. If one is a warrior, poverty is good discipline. I get lots of walking, for I can't afford a car, & bicycling in traffic with so many illegal aliens without proper driver training & bad road attitudes is hazardous. Even as a pedestrian I must watchout for macho mestizos who ignore traffic lights, especially pedestrian traffic lights. Mestizo 'culture' deems it 'manly' to attack the weak, especially if it's a Gringo on foot, & the mestizo is in a big car or truck, so let the walker beware.

You mention in regard to The Protocols that the Goyim have just ignored them. Henry Ford had them researched in the 1920s, & found them to be accurate descriptions of what was going on, not only in Europe, but in the USA. He published the research findings as "The International Jew," which was a 4 or 5 volume set of books, & he gave them to everyone who bought a Model T. I guess the stupid Goyim used them to sit on, for they seem not to have bothered reading them. "Goyim" means two-legged cattle, so the jews are correct in calling us that, if we judge from our behavior. This is known as "casting pearls before swine." So let's hear the Goy cheer: "Duuh, OINK!" The knowledge is available, but few want it. Our People are like the horse near the water, without being thirsty. Our job is to stimulate that thirst. It is a job we must undertake, regardless of success or failure.

I wish you strength through joy. ORION!
