

30 JAN 08

Hail Stevie! It was good to get your letter of 22 JAN 08, with the news that you are getting your mail. I recall reading "Might Is Right." Its message seems to be: Go for money, at all costs. The pot-bellied bankster & parasitic middleman are 'modern heroes' worthy of our emulation. The author seems to view cities as lavish hunting grounds for looting & hordes of women for raping, by dint of cleverness, rather than clubs & battering rams. I'd recommend reading Thorstein Veblen's "The Theory of the Leisure Class" as an antidote. Veblen describes our society as "Semi-barbaric," in which parasites & predators are rewarded with status & "conspicuous consumption" at the sacrifice of the productive members of society. His thesis is that those who work most are rewarded least & vice versa. I believe he is right. One writer said, "Those with rights & no duties are parasites. Those with duties & no rights are slaves." I just do not aspire to parasitism, even though they are on top in our society. Some idiots describe these parasites as "elite," but they are just scum, which also rises to the top--in a cesspool. As I try to tell the Goyim: If you want to think straight, you've got to talk straight.

Your reaction to the "White" jew was entirely correct, for jewish scientific journals state that they are all Afro-Euradians, comprised of all 3 major racial groups to varying degrees. They are not White, nor Black, nor Yellow, but they are mongrels, who want to inflict mongrelization upon the races of the world, especially Whites, whom they hate, because of their dependence on us & their envy. One jew writer noted that, if genetic engineering becomes practical, all jews will choose to be tall, blond & straight, with regular features. His next question is: How jewish would such ideal beings be? My question has been: Are jews mean because they're ugly, or are they ugly because they're mean? A Polish woman said she could always spot jews, "because they look as if they were smelling rotten cheese." I can imagine that anyone with such a facial expression would not look very nice. I noticed a jew TV personality who could not smile, but merely showed his teeth, & that's all he could do, apparently. When is a grimace a grin? Crocodiles show lots of teeth, too.

In Africa, jews pretended to be White until they got their orders in 1972. That's when they revealed they weren't White, & referred to us, sneeringly, as "You Whites." The danger for North American Whites in letting jews lie about their race is that the mestizos, i.e. Euradians, many of whom are Mexican nationalist "reconquerors," lump Whites & jews together. Apparently, the Mexican reconquest website, La Voz de Aztlan, considers jews to be Whites. Well, if Whites do what jews want, then what is the difference? Yes, I've also experienced jews proclaiming themselves as "White," but I kept silent for fear of losing my job. To live in Zionist America requires us to behave like spies: We must appear to agree, but keep our own counsel & do what is best for us.

Yes, the hispano-mestizos are not a race, even though they use that word, raza or race, frequently in reference to themselves. I asked a Colombian Afro-mestizo what he meant by El Dia de la Raza (The Day of the Race, i.e. Columbus Day). He said, "Why, the Latin Race, of course." I said that Latin is a language group, not a race, so try again. "Well, it's a culture." I said, "Suppose I were to learn Spanish perfectly, & also your social customs & traditions. Would I then become a member of 'la raza?'" "No," he said. "You'd still be a Gringo." There was nothing more to say, aside from noting that his 'race' is not a race at all. As I understand, mongrels, because they are mixtures of their parent stocks, revert, according to Mendel's Law, so as to resemble the parent stocks in varying degrees. As I recall from my reading in school, if we mate a pure black rabbit with a pure white rabbit, their offspring are all mixed; but when the mixed offspring breed, we may see, out of 4 offspring, one black, one white & 2 greys. But the white & black offspring are not pure black nor white, so if one bred white with white, a certain percentage of black & grey would appear. Hence, if we wished to regain the pure parent stock, we'd have to breed only white rabbits out of every litter, & deport the others to Liberia. Ha!

The Law of the Contrary decrees that Whites, who are a race, behave like mongrels, & mongrels like jews & mestizos behave as if they were races. Place is not race, so there is no "Mexican race," nor is there an "American race." Nations are subdivisions of a race, so there is The White Race, but there is no "French race," nor "German race." Races are divided into nations; nations are divided into tribes; tribes into clans; clans into families & families into individuals. If Whitey doesn't wake up, he will cease to exist. It's that simple. There is more to race than color. Race correlates with culture, & culture with social values. That is why Black society is still different from White society in America, even though the 2 races have lived in the same country for over 400 years. Enjoy your Protocols. All the best. ORION!
