

4 FEB 08

Hail Daniel! Many thanks for Issue #13 of Separate Living. It's great to receive word from Russia, by a Russian. His take on Russian history is much the same as mine, & I was not allowed to visit Russia under the Soviet Jewnion. ZOG apparently feared I might see too many jews, especially in places of power. Of course, I wanted to confirm my suspicions of the Kosher Cold War as a hoax. He points out the corruption in kosher Communist Russia. A local jew from the former USSR told me: "In Russia, we pretended to work & they pretended to pay us." I heard, in Yiddish, on aⁿ interview from the jew being interviewed in Moscow, shortly before or after the wind up of Communism, that "Stalin war sehr gut für die Yidden" (Stalin was very good for the jews). This is contrary to jew tales over here that Stalin lived only to kill jews &/or throw them into his gulags. Rabbi Stephen S. Wise, buddy of FDR, returned from the USSR & declared: "I don't call it Communism. I call it Judaism!" His words have been denied by the jewsmedia, but they were quoted by the kosher Commie newspaper, "For ward" or "Vorwärts," published in Jew York City.

I understand that the discoveries of commie-corruption in East Germany led to the quick collapse of that Soviet regime. The privations & tyranny experienced by the citizens was justified, in their minds, because Soviet Germany was threatened by capitalist wolves, & that their government was also sacrificing for 'national security.' But when it came out that their own governors were no better than capitalist crooks, the DDR lost its legitimacy in the eyes of the public. I don't believe the U.S. sheeple would react righteously if our ZOG were found to be a corrupt kleptocracy. Why would we expect, "The best government money can buy" to be any different? H.L. Mencken noted that "Every American lives for the day in which he can steal something." I've heard U.S. citizens comment that some politician stole such & such, so he just got his loot first. One Congresswoman remarked about the "culture of corruption" which infests Washington, DC, alias The District of Corruption.

So how does a society obtain brave lovers of their people & the principles which protect them? Who would sacrifice his life, with no thought of profit? Mercenaries are loyal to money, as Machiavelli warned The Prince, so he could not & should not rely upon them. Is a contract more binding than a better offer? I think not.

It is true that politics & comedy are matters of timing. It may be premature to advertise a foreign elite military unit when ZOG is watching, but it is also important to know if "objective conditions" are present. Do such ideas appeal to Whites? Militia founder, J.B. Campbell, wrote that his own group was comprised of some 50% zoggies, i.e. finks & provocateurs. The "militia" in Yakima was made up of wannabee "Israelites," all of whom were Anglo-mestizos. They gathered at a bar which was frequented by zoggies. One of their leaders graduated from being "Christian Identity" to being pro-Israeli. Since ZOG is pro-Israel, he is pro-ZOG. He now has a website using the jew-book to prove that the jews are, indeed Yahweh's Chosen Pipple.

My columnist colleague in Canada alias China-duh, Eric Margolis, wrote that China, Russia & USA have their "favorite Moslems," as well as their own "Moslem problems." The USA's favorite Moslems are the Albanians in Kosovo & the Chechens, who sit astride a strategic oil pipeline & rail route. Russia's favorites were in Iraq & possibly Iran. China's were The Taliban, with which the Soviet Russians were defeated in Afghanistan, with U.S. help. China has dissident Moslems in its western regions. Israel apparently collaborates with Al Qaida, on matters of mutual interest. Israel's objective is well-advertised: It wants us to admit Moslems in our former homelands in order to 'share' Moslem terrorism with the U.S. & European sheeple. Benyamin Netanyahu publicly stated that "Now you will know how we suffer," shortly after 9-11.

I perceive Russia's interests as territorial & demographic stabilization. Russia's oil resources insure its prosperity after its successful excretion of the jew oligarchs. The ZOG of USA wants the opposite, & wants the oil for Exxon et al., on behalf of the jew world ordure of Zionist Globalization. Apparently, U.S. mischief in Serbia has inspired Putin to check out separatist movements within the Jewnited States. I hope I do not need to caution you that one's political relevance is directly proportional to one's endangerment from the powers that be. Obviously, we shall see in due course.

I suspect the Russian source was joking when he states that we could buy our homeland from ZOG. Since ZOG governs the money supply, we may as well intend to get rich by gambling against the house in Vegas. ZOG does not want a White Homeland, nor does it want Whites, so let's get real. Mexican nationalists invade our territory because they are nationalists. We let them in because we are not nationalists. When Mexicans occupy territory, they drive the non-Mexicans out by theft, robbery, vandalism & gang warfare. Formerly Black areas in Yaki-

2)

ma are now barrios, i.e. Mexican neighborhoods, in which Mexican law prevails. The Mexi-cops do little more than get payoffs & act as umpires. Did the Mexican invaders buy their way in? No. The Whites paid them to invade & populate this territory, & they still do.

Why can Mexicans defend the land they occupy, whereas Whites can't or won't? It is because we are not Nationalists. We had nationalist tendencies when we took the land in North America. Nationalism is not something learned. It is instinctive: Knowing who is US & who is THEM. Once we occupied the land, we degenerated into religious cults & we put profits ahead of people. Most American Whites were brought in as slaves. Eventually, the banksters took over. Our fatcat felon rulers seek 'cheap labor,' especially when it is non-White, tax-subsidized labor which is 'cheap,' only for them.

So, Whites have been de-nationalized. Can they become re-nationalized with land? No. Can they be re-nationalized with weapons & tactics? No. As the Russian source says: We must begin with the hearts, then we must apply our minds, so that our actions will follow; actions which are appropriate & effective.

It is clear that ZOG is our enemy. Why, then, do we choose to live under ZOG? My perception is that most Whites love their ZOG. Another percentage doesn't know there is a ZOG or **doesn't care**. Most Ostensible Whites have to hear from non-Whites that they are White. This indicates our degree of unconsciousness in our present state of jew-daze. One indicator is our willingness to volunteer for ZOG forces, on behalf of ZOG imperialism. The number of White volunteers indicates the depth of our jew-daze, for it reveals that we believe in ZOG's kosher worldview.

Most Whites seem to be suicidal. Clinton (Bill) spoke before a mainly White audience. He said that, soon, the majority of the faces would be non-White. The insane White audience cheered wildly, according to a witness. The White protoplasm of Iowa want "more diversity" & love Obama. They love anybody who isn't White. If you gave such sheeple more land, would they defend it on behalf of Whites? Of course not. They already had the land which they so much want to handover to non-Whites.

We can search for White Nationalism in the countryside; in books on tactics; in gun-shops, &c., but we are looking in the wrong places. The only place in which we may find White Nationalism is in the minds of our fellow Whites. Our task is therefore to appeal to the hearts & minds of Our Nation. We must cut through the jungle of ZOG's incentives & distractions so that Whites may see a clear road ahead to a White Future.

We can talk of a warm-fuzzy White Homeland concept, but we really should be talking of the need for White Fight, rather than White Flight. Suppose that all Whites could drive to such a place right now. As we see in the NW USA, i.e. SW China-duh, the Whites bring in the Mexican labor, gardeners, nannies, &c. after they fled the Mexicanized paradises of California et al. For White Fight, we must have White National Consciousness. As I say, the cart before the horse gets us no where. Before we can have a place, we must look after Our Race, in terms of Nationalist Ideology. But to do this, we must concentrate our focus on Nationalism & dump the extraneous accretions of idiocy.

Many blightwingers use White Nationalism as a vehicle for their personal religious idiosyncrasies. It is as if one would display a Swastika so as to hide a Jewish Death Star. Hidden agendas &/or extraneous issues must be banished from White Nationalism. If we allow such adulteration of White Nationalism, then we muddy our message. Most Whites I know do not want White Nationalism, if it means tattooing & body-piercing. Most don't want W.N. if it means becoming "True Israelites," burning crosses, wearing bedsheets in broad daylight, &c. These are not White values. They are Judeo-Freemasonic ones.

Nor can we expect unity amid such a Babel of conflicting priorities. We can provide such people with all the means conceivable, but the outcome will be only more Babel. I recall a joke from the Vietnam War Era: Allegedly, the Pentagon programmed its nifty new computer with all 'relevant' inputs. Then, the Pentagonian zoglings asked it: "Who will win the Vietnam War?" The computer quickly tapped out the answer: "The USA won it ten years ago." The Pentagonians' idea of relevance included all material means, such as battleships & other naval forces; military personnel; vehicles; air forces; logistical capabilities, &c. What the Pentagon left out was most relevant: Quality, rather than quantity. The enemy was willing to fight with any means, no matter how limited, so our emphasis on quantity of resources missed the point. Strength without wisdom means disaster. Napoleon observed that in war, "the moral is to the material as 3 to 1." He also said that "victory is on the side of the big battalions." Ha! But my message is clear: Without the will, no amount of means can achieve White Nationhood. ORION! *End*
